1.1 - License Plate Type Field Usage

A regular plate is a standard 6" x 12" plate issued for use on a passenger automobile and containing no embossed wording, abbreviations, and/or symbols to indicate that the license plate is a special issue.

For all-terrain vehicles and snowmobiles displaying a registration number, the code ZZ should be entered in the LIT Field. In instances where a license plate has been issued, the code AT (for all-terrain vehicle) or SN (for snowmobile) should be entered in the LIT Field.

All plates other than regular passenger automobile plates are classified as special plates. The size (either larger or smaller than standard size plates, for example, motorcycle plates) and color or embossed wording/abbreviation/symbol(s) thereon distinguish special from regular plates. Special license plate codes are listed in Section 1.2 which follows.

2.2 - Vehicle Make/Brand (VMA) and Model (VMO) for Automobiles, Light-Duty Vans, Light-Duty Trucks, and Parts

Effective March 1, 2002, General Motors (GM) has entered into an agreement to be responsible for the Hummer dealer network. Hummer, new make code (VMA/HUMM), is now considered a distinct "Line Make" and a division of General Motors like Chevrolet, Oldsmobile, Cadillac, Buick, Pontiac, or GMC. Hummer (VMA/HUMM), under General Motors, will produce the original American General Corporation (VMA/AMGN) (VMO/HUM) vehicle along with the new Hummer 2 model code (VMO/HU2). Also, under the agreement, American General Corporation will continue to produce the original (VMO/HUM) vehicle.

If a make or model is not listed, contact FBI CJIS Division staff at 304-625-3000 for code assignment.
