To: Oregon State Aviation Board,

My name is Jared Hillock, and I live in Enterprise, Oregon. I am a pilot, aircraft owner, and member of the Wallowa County Pilots Association. I also own 10 acres of industrial property directly adjacent to the east side of Joseph State Airport.

I am writing to request an update on the through-the-fence rulemaking process and an estimated timeframe for finalizing these rules.

As I mentioned earlier this year, there is considerable interest in additional hangar space at Joseph State Airport. From what I understand, the available on-airport development space is becoming quite limited. Several individuals have expressed interest in building hangars on my property, and I believe that through-the-fence access presents a viable and mutually beneficial opportunity to expand aviation activity at Joseph State. This would, in turn, help increase fuel sales and airport access fee revenues while addressing the demand for hangar space.

I am more than willing to assist in advancing this process, whether by gathering letters of support, serving on a committee, or otherwise contributing my time and resources to help move things forward.

Thank you for your time and consideration. I look forward to your update.

Sincerely,
Jared M. Hillock
Enterprise, Oregon
