Dear Board of Forestry,

I'm writing to ask that you protect Oregon's forest industry and 60,000 family-wage jobs Oregonians need.

The Board of Forestry should not even consider a state Habitat Conservation Plan.

Please remember mill workers, foresters, truck drivers, equipment manufacturers, mechanics, parts suppliers and more who count on timber supplied state forests. Please remember that rural communities in western Oregon rely upon the revenues from timber harvests to fund schools, libraries and other critical services.

Forest that have reduced value are not protected. Just look at the Federal Forestlands as an example.

Thank you,
