Welcome

General Guidance (Inspection Overview)

Unit

1. General Project Information

- Project Development 1-2
    - Design Acceptance, Advance and Final Plan Reviews 1-2
- Bidding vs Contract Plans and Special Provisions**(example)** 1-5
- Pre-construction letter **(example)** 1-9
- Resources for Inspectors 1-12

2. Standard Specifications and Special Provisions

- Order of Standard Specification Sections 2-2
- Specification Sub-section order 2-3
- Navigating through the Specifications 2-4
- Special Provisions 2-5
- Standard Specifications vs. Special Provision examples 2-7
- Schedule of Items 2-7

3. 00100 General Conditions

- First, Second and Third note definitions 3-3
- 00150.10 - Order of Precedence 3-5
- 00150.40 - Superintendent 3-6
- 00180 - Prosecution and Progress 3-7
- 00180.40 - Limitation of Operations -work schedules 3-8
    - Work Schedules **(examples)** 3-9
- 00180.50 – Contract Time 3-11
- 00190.00 – Measurement of Pay Quantities 3-12
    - Lump Sum Breakdown - **(example)** 3-13
- 00195.00 - Payment 3-17

4. 00200 Temporary Features and Appurtenances

- 00210 - Mobilization 4-3
- 00220 - Accommodations for Public Traffic 4-4
- 00225 - Work Zone Traffic Control 4-6
- 00280 – Erosion and Sediment Control 4-11
    - NPDES Permit **(copy)** 4-13
    - Erosion Control Plan **(example)** 4-14
    - Erosion Control Monitoring Form **(example)** 4-17
- 00290 – Environmental Protection 4-20

5. SP 00305 Inspector Survey

- Construction Surveying Manual for Contractors 5-2
- Side Slope Ratios and Distances 5-2
- Reading Slope Stakes and Slope Stake Example 5-4

6. 00300 Roadwork

- 00310 - Removal of Structures and Obstructions 6-2
- 00320 Clearing and Grubbing 6-4
- 00330 Earthwork 6-6
- 00330.42 – Foundation Benching 6-8
- 00330.42(c) - Embankment Construction 6-9
- 00330.42(d) - Stone Embankment Construction 6-10
- 00331 – Subgrade stabilization 6-13
    - Class Example Problem - Subgrade Stabilization 6-15
- 00350 Geosynthetic Installation 6-16

7. 00400 Drainage and Sewers

- 00405 - Trench, Excavation, Bedding and Backfill 7-2
    - Culvert Data Sheet **(example)** 7-5
- 00440 - Commercial Grade Concrete 7-7
- 00445 - Sanitary, Storm, Culvert, Siphon and Irrigation Pipe 7-9
- 00470 - Manholes, Catch Basins and Inlets 7-12

8. 00600 Bases

- 00620 Cold Plane Pavement Removal 8-3
- 00640 Aggregate Base and Shoulders 8-4
- 00641 Aggregate Subbase, Base and Shoulders 8-4
    - Check weight example problem 8-7
    - **Cold Plane Pavement Removal - Spec Note** 8-9

9. 00700 Wearing Surfaces

- 00738 - Safety Edge 9-2
- 00745 – Statistically Accepted Asphalt Concrete Pavement (ACP) 9-3
    - ACP Job Mix Formula (**Example)** 9-5
- Yield Calculation 9-7
    - Material Delivery Record and Tally Sheet (**Example)** 9-9
- Importance of ACP compaction 9-11
- ACP Longitudinal Joints 9-11
- 00749 – Miscellaneous ACP Structures 9-12
- 00759 – Miscellaneous Portland Cement Concrete (PCC) Structures 9-14
    - **Emulsified Asphalt Tack Coat - Spec Note** 9-19
    - **Longitudinal Joint Construction – Spec Note** 9-21

10. 00800 Permanent Traffic Safety and Guidance Devices

- 00810 – Metal Guardrail 10-2
- 00820 – Concrete Barrier 10-4
- 00850 – Common Provisions for Pavement Markings 10-5
- 00860 – Longitudinal Pavement Markings Durable 10-7
- Class Example - Pavement Markings measurement 10-8
- Standard Specification Questions: 00800 10-11

11. 00900 Permanent Traffic Control and Illumination Systems

- Signs - Mounting Heights and Lateral Offset Details 11-2
- 00910 – Wood Sign Posts and Field Verification 11-3
    - TBB Field Verification of Post Lengths **(Example)** 11-5
- 00920 & 00930 Sign Support Footings 11-7
- 00940 - Signs 11-8

12. 01000 Right of Way Development and Control

- 01011 - Stormwater Control Ponds 12-2
- 01012 – Water Quality Biofiltration Swale 12-3
- 01030 – Seeding, Mulch 12-4
- 01040 - Planting 12-8
    - Truck Measure Worksheet **(Example)** 12-13

13. Contract Plans

- Plans Feature Guide Page 13-1
- Standard Sheet Order 13-4
- Alignment and Stationing 13-7
- Typical Sections and Components 13-11
- Taper Sections 13-14
- Typical Section Review - Class Problems 13-16
- Detail Sheets & Class Problems 13-18
- Traffic Control Plans 13-19
- Traffic Control Plans Review - Class Problems 13-22
- Pipe Data Sheet 13-23
- Pipe Data Sheet Review - Class Problems 13-28
- Plan and Profile Review – Class Problems 13-31
- Signing Plans Sheets 13-33
- Sign & Post Data Table 13-34
- Signing Review - Class Problems 13-38
- Contract Plans Class Exercises / Problems 13-39

14. Quality and Quantity Documentation

- Overview of Material Quality Resources 14-2
- Quality and Quantity Checklist **(Example)** 14-5
- Field Inspection Report (FIR) 14-7
    - Field Inspection Report **(Example)** 14-9
    - Field Inspection Sticker **(Example)** 14-13
- 00165.35(b) - Quality Compliance Certificate 14-15
    - Quality Compliance Certificate **(Example)** 14-17
- 00165.35 (a) - Test Result Certificate 14-20
    - Test Result Certificate **(Example)** 14-23
- 00160.20(a) - Buy America 14-26
- 00165.35(d) – Certificate of Material Origin (CMO) 14-26
    - CMO **(Example)** 14-29
- Foreign Steel Summary 14-31
    - Foreign Steel Summary **(Example)** 14-33
- ODOT Material Reports 14-36
- ODOT Materials Inspection Report **(Example)** 14-37
- ODOT Material Lab Inspection Report 14-39
    - ODOT Material Lab Inspection Report **(Example)** 14-41
- 00170.85(b) - Warranty Requirements 14-43
- Field tested Material Conformance – Compaction Test Report 14-44
- Paynotes "Installation Sheets" 14-45
- Flagging Tickets 14-46
- Weigh Memos (Truck Tickets) 14-46

15. Non-field Tested Materials Acceptance Guide (NTMAG)

- NTMAG Overview 15-2
- Class Example Problems 15-3
- Class Problems 15-11

16. Qualified Products List (QPL)

- Qualified List and Approved List 16-2
- QPL Organization 16-3
- Reinforcing Steel 16-6
- Class Problems 16-9

17. Manual of Field Test Procedures (MFTP)

- Quality Assurance Program Overview 17-2
- Roles & Responsibilities 17-5
- Small Quantity Guide 17-5
- Organization and how to use MFTP 17-6
- Building a Road Class example 1, using MFTP 17-8
- Building a Road Class example 2, using MFTP 17-11
- Class Problems 17-16

18. Contract Administration - General Requirements

- Types of Work – Contract, Additional, Extra, Disputed Work 18-3
    - Contractors Notice of Differing Site Conditions **(Example)** 18-7
- Contract Change Orders 18-9
    - CCO **(Example)** 18-11
- Extra Work Orders 18-15
    - Daily Force Account Record **(Example)** 18-17
- State Force Orders 18-19
- Disagreements, Protests and Claims 18-20
- Types of Disputes 18-20
- Claims 18-22

19. Contract Administration - Project Documentation

- Daily Inspection Report 19-2
- Public Records and Record Retention 19-6
- Test Summaries 19-8
    - Test Summary "A" **(Example)** 19-9
    - Test Summary "B" **(Example)** 19-11
- Region Assurance Specialist (RAS) 19-14
    - Document Review Report (DRR) **(Example)** 19-15
- Quarterly Release of Retainage 19-17
- Contract Payment System (CPS) 19-19

20. Contract Administration - Labor Compliance

- Prevailing Wage Requirements 20-2
- Required Postings 20-3
- Prevailing Wage Complaint Form **(Example)** 20-5
- Employee Interview Reports **(Example)** 20-9

21. Office of Civil Rights - Workforce & Small Business Equity Program

- Disadvantaged Business Enterprise (DBE) 21-2
- Commercially Useful Function 21-4
- Daily DBE Trucking Log 21-6
    - Daily DBE Trucking Log **(Example)** 21-9
- Commercially Useful Function Form (C.U.F. Form 3B) 21-17
- Paid Summary Report (PSR) 21-21
- Equal Employment Opportunity (EEO) 21-22
- OJT/Apprenticeship Program 21-23

22. Construction Materials

- Moisture Density Relationship (Maximum Dry Density) 22-2
- Compaction Testing 22-4
- ODOT TM-158 – Deflection Testing 22-6
- Specific Gravity 22-9
- Specific Gravity Example 1 and 2 22-10
- Gradation of Materials 22-11
- Specific Gravity Problem 22-13

Paynotes (Installation Sheets) - Examples

Dailies – Examples
