HOW TO BUILD YOUR FUTURE...

NOW!

For complete application instructions, visit *www.odotjobs.com.* Official offers for employment can be extended prior to graduation. Applications are typically accepted during October and November. Students should apply at the beginning of their senior year.

Program applicants must respond to questions related to their education, work experience and motivation for applying to the program. Qualified applicants whose background most closely matches the needs of the position will be invited to interview.

WHY JOIN THE ODOT TEAM?

Oregon is known for its geographic and cultural diversity. No matter where you live in the state, you'll find friendly people, creative and intellectual opportunities and activities for every lifestyle.

ODOT offers a full benefits package including health insurance, paid vacations, retirement and more. You'll also enjoy flexible schedules and working locations plus leadership and professional development opportunities.

ODOT GRADUATE PROGRAM

DON'T JUST LIVE YOUR FUTURE...

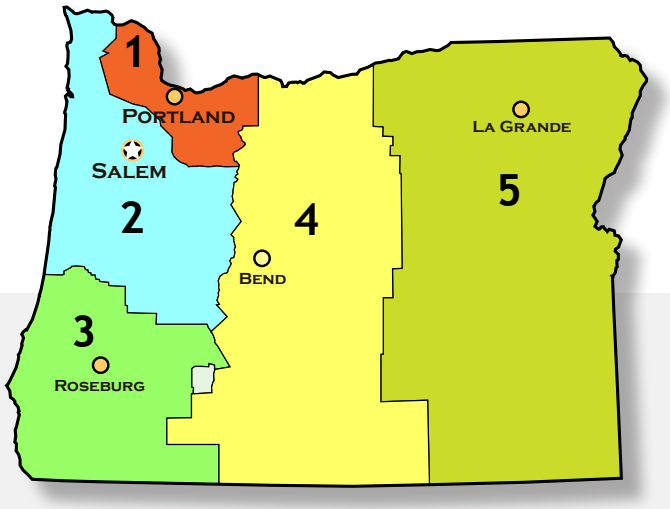
CREATE IT!

The ODOT Graduate Program is designed to develop new and recent graduates into subject matter experts. Make the transition from student to full-time professional with ODOT, a leader in transportation innovation!

PAVE YOUR OWN WAY!

Successful applicants are accepted into full-time, permanent positions with benefits packages, an excellent work/life balance and a competitive salary.

Opportunities are available throughout the state, which ODOT divides into five geographical regions – each with its own unique charm.



PROGRAM DETAILS

For up to 24 months, program participants rotate assignments throughout ODOT engineering and survey disciplines to gain varied experience. Participants are regular, full-time, salaried employees. A registered professional (PE or PLS) provides mentoring throughout the program and the entire experience can provide up to two years qualifying time toward obtaining a professional license.

To qualify for the program you must have a bachelor's degree in civil or transportation-related engineering or a Fundamentals of Engineering (FE) or Fundamentals of Surveying (FS) certificate.

ODOT ENGINEERING ROTATIONS

- Construction
- Bridge
- Roadway
- Traffic
- Pavements
- Maintenance
- Geotech
- Hydraulics
- Environmental
- Engineering Automation
- Survey
- Intelligent Transportation Systems
- Program Management

SURVEY ROTATIONS

- Remote Sensing
- Survey Operations
- Geodetic Control
- Right of Way Engineering
- Field Survey
- Mapping/Modeling
- Construction Survey

"The [program] allowed me to explore and gain experience in several civil engineering disciplines which helped me pass my PE exam and set me up for success to pursue a career in project management."

-Colby G.

"...The benefit of the [program] rotations will allow me to better understand how disciplines within ODOT work together to deliver projects. This will help me become a well-rounded ODOT employee to aid in project deliveries."

-Micaylla O.

BENEFITS OF PUBLIC SERVICE

Sense of ownership, pride, and community involvement.

Role in deciding future of Oregon's transportation system.

Opportunity to develop technology and pilot innovations.

Wide variety of projects and involvement from start to finish.

Opportunity to work with multiple disciplines under one roof.
