Public Comment Topic	Aurora airport master plan
Public Comment	I have concerns that the safety issues regarding the proposed expansion of the airport are not addressed in the master plan. Aurora already has the highest safety violation ranking for the FAA Northwest Mountain Pacific region. The master plan needs safety as a top priority. Also, compliance with FAA standards for decibel levels for residential housing areas. The airport is a constrained site. There should not be planning without considering the larger communities it is a part of and should be compliant with their comprehensive plans besides complying with all FAA standards without needing exceptions. I urge the board to reject or delay adoption of the current Aurora Airport Master Plan. Thank you for your consideration. Sincerely Joy Sheffield Private Citizen
