Dear ODAV,

Extending the Aurora Airport runway is a safety danger to thousands that live in Wilsonville, OR as well as Portland and Salem. In the first case the danger is due to crashes similar to San Diego and most recently Palm Beach, FL. In the latter cases the real danger is terrorist plots to weaponize aircraft for attacks on the State capitol or our states largest city.

The Aurora Airport has experienced numerous pedestrian and vehicle deviations. These events have occurred due to weak security procedures, poor signage and the lack of centralized oversight. The runway extension will support the landing and take off of larger aircraft exasperating the danger to Wilsonville and all citizens in the Willamette Valley!

Please reconsider extending the runway at Aurora Airport.

Thank you,

Jeff Baymor
