Public Comment Topic	Aurora State Airport Master Plan
Public Comment	Hello, As a concerned citizen of Wilsonville, I am writing to request that the Aurora State Airport Master Plan be rejected. Key current users that rely on the Aurora Airport will be negatively impacted by the plan as written, including Life Flight. Much of Wilsonville lies under flight paths in and out of the Aurora airport, and faces negative impacts from larger aircraft and more frequent air traffic in and out of the airport. The overlapping and affected local jurisdictions that face zoning and land use impacts from the potential expansion have not had their concerns addressed. And, more importantly, this master plan spends money on a project without a demonstrated need, within sight of a project that does have a demonstrated need. If federal and state agencies indeed have surplus cash to for transportation infrastructure, take it out of aviation department budgets and put it towards highway budgets, specifically towards the replacement or refurbishment of the Boone Bridge. Thank you, Andrew Engel
