To: Oregon Department of Aviation Board

As a resident of Wilsonville's Charbonneau District, I oppose the Airport Master Plan for Aurora State Airport for several reasons:

1. **Noise**. When we built our Charbonneau home **34 years ago**, small planes were a welcome sight with no discernible noise. Today, large jets regularly drown out outdoor conversations. A longer runway would allow even larger jets, worsening a nuisance that already diminishes our quality of life.
2. **Safety risk**. We read reports of airplanes crashing into residential areas at least weekly—a recurring reminder of the safety risks.
3. **Commercial Drones**. How would their benefits outweigh the risks to privacy and security?
4. **No benefit to community**. Expansion benefits private equity firms and wealthy individuals. What does it offer Wilsonville and neighboring communities?
5. **Resale**. Who wants to buy a home beneath a private-jet flight path?

Tracy Meyer

34-year resident of Charbonneau
