Please accept this email as public comment regarding the Aurora State Airport Master Plan. This plan specifically affects my family and our property because we are among the properties slated for elimination. The City of Aurora's proposed Urban Growth Boundary plan also identifies our property for commercial and industrial use.

Our property sits directly west of the southern portion of the airport. This is our forever home. We built a custom home and horse facility here and have continued to invest in our property for over 24 years. It would be very difficult for us to replace our home and equine facilities if this plan is approved.

It does not make sense to move the airport west when more favorable, less expensive land is available to the east, north, and south. We strongly oppose the plan proposed by the Aurora State Airport. The Airport had ample opportunity over the years to purchase raw land north and south of the airport for expansion but elected not to. Why choose the most expensive and disruptive option now?
