Public Comment Topic	Aurora State Airport Master Plan
Public Comment	Dear State Aviation Board, As a long time resident of Wilsonville and the surrounding area, I am deeply concerned by the possibility of the Aurora Regional Airport being expanded. Spending state money to extend the runway and move the highway in order to do so, does not benefit the residents of the French Prairie region and neighboring communities. Who benefits from this proposed expansion? And if not those who live nearby, then why is this being considered? The environmental and safety impacts are numerous. Please do not risk the health and safety of those who live in this region to expand an airport for the benefit of wealthy out of state plane owners. The airport needs to remain safe and well maintained, but extended the runway is a slippery slope that will lead to increased usage and air traffic that the rural area surrounding the airport cannot support. When the state of Oregon has multiple underutilized regional airports, there is no reason to focus on expansion of the Aurora Regional Airport. Thank you, Adrienne Scritsmier
