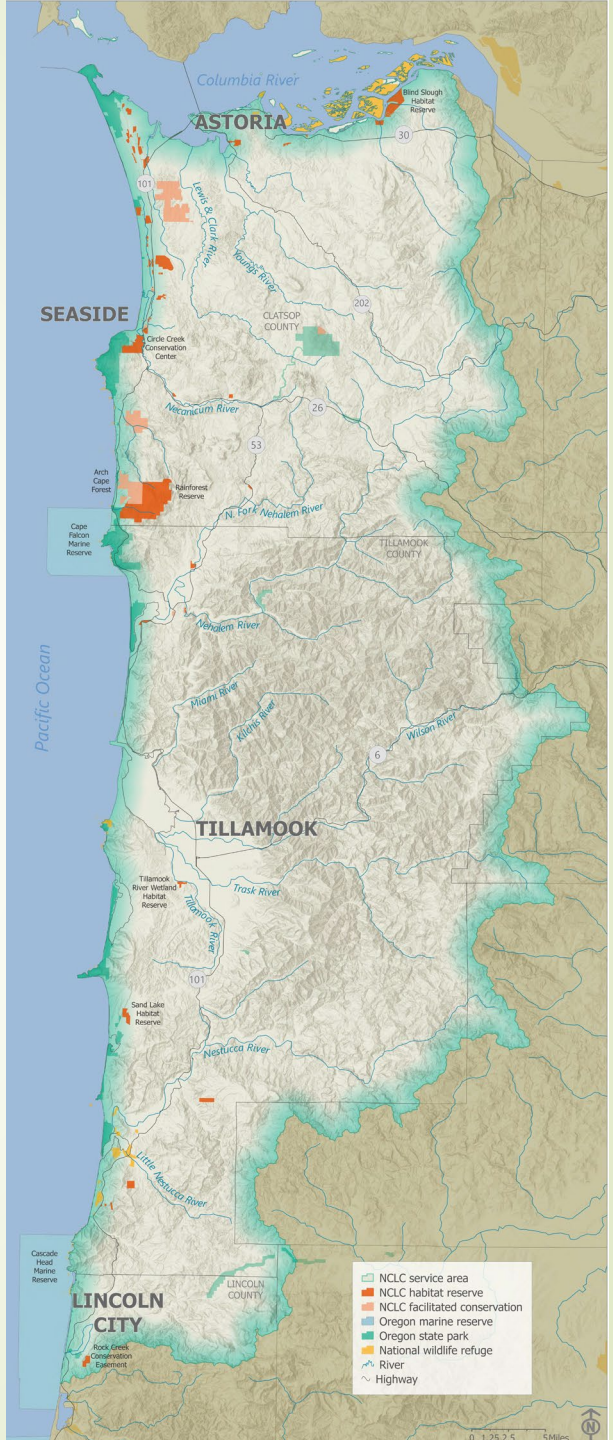
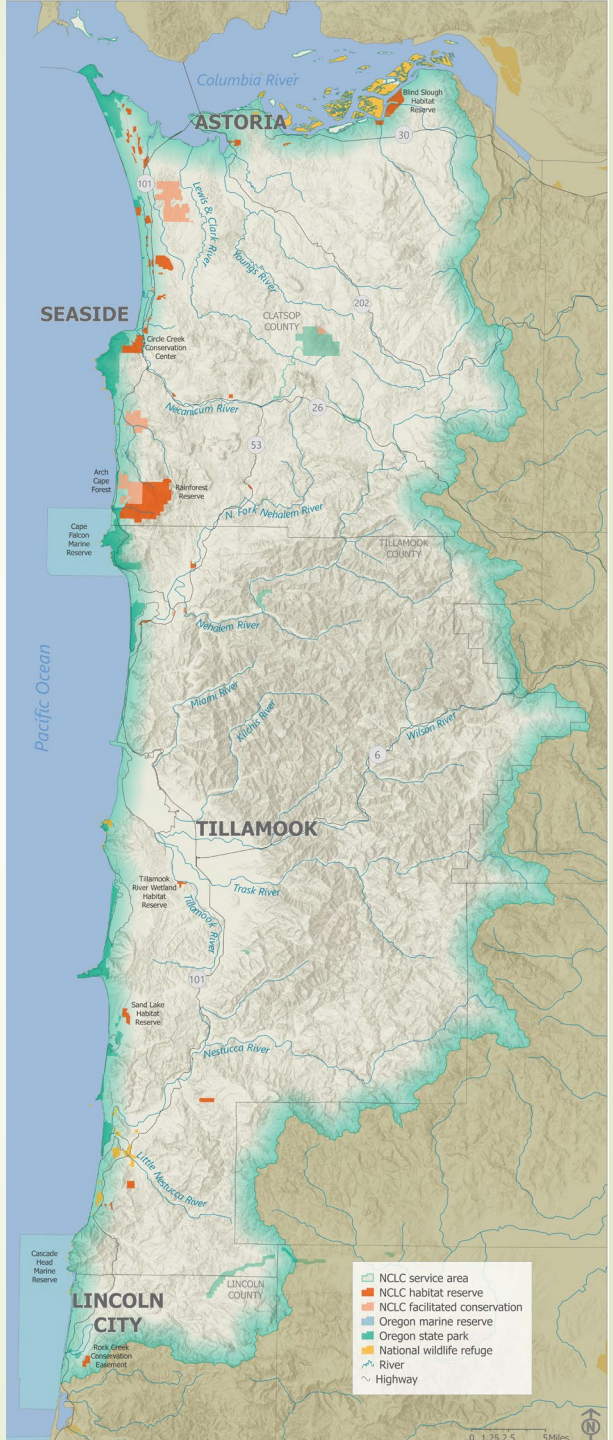
NCLC's Service Area & Protected Lands



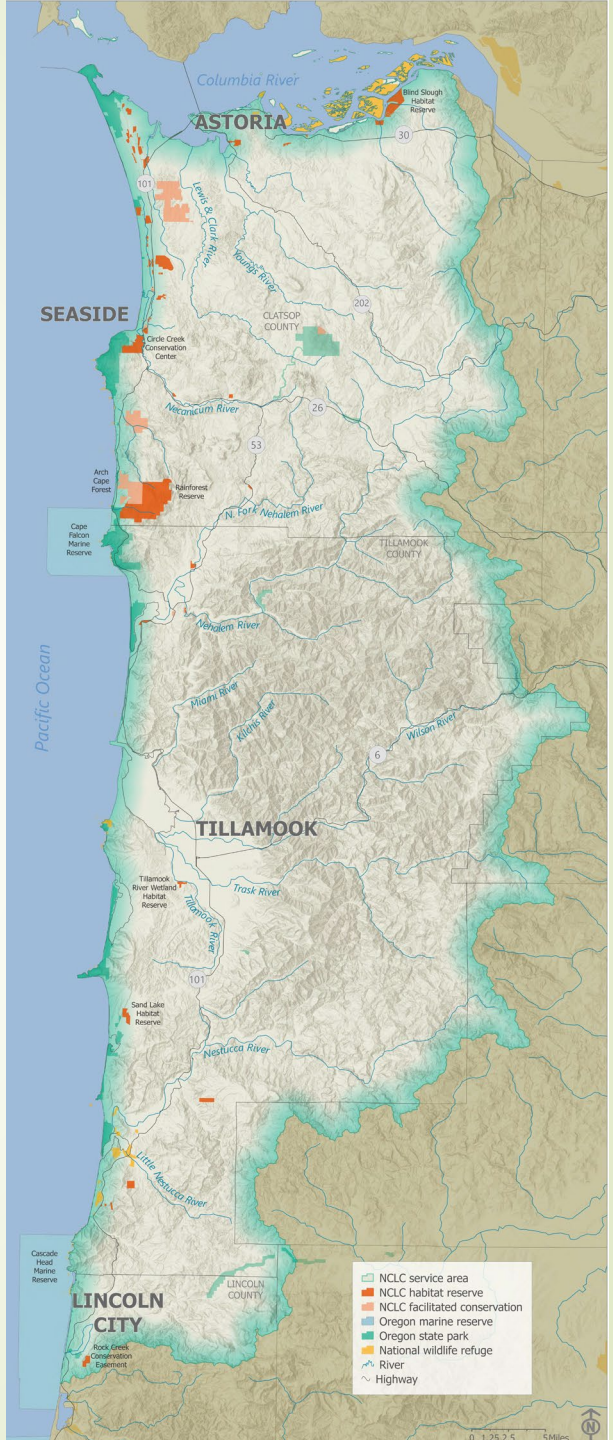
NCLC's Service Area & Protected Lands

- **8435 acres conserved** through NCLC ownership and conservation easements

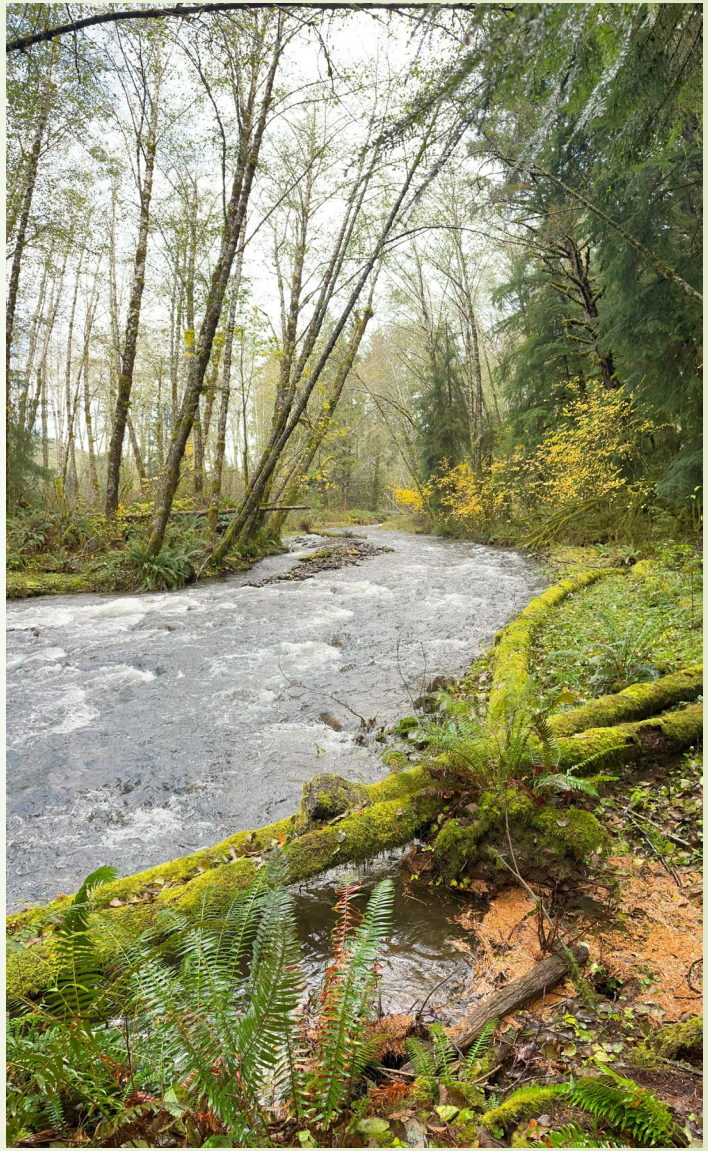


NCLC's Service Area & Protected Lands

- **8435 acres conserved** through NCLC ownership and conservation easements
- **5323 acres conserved** by facilitated protection with partners

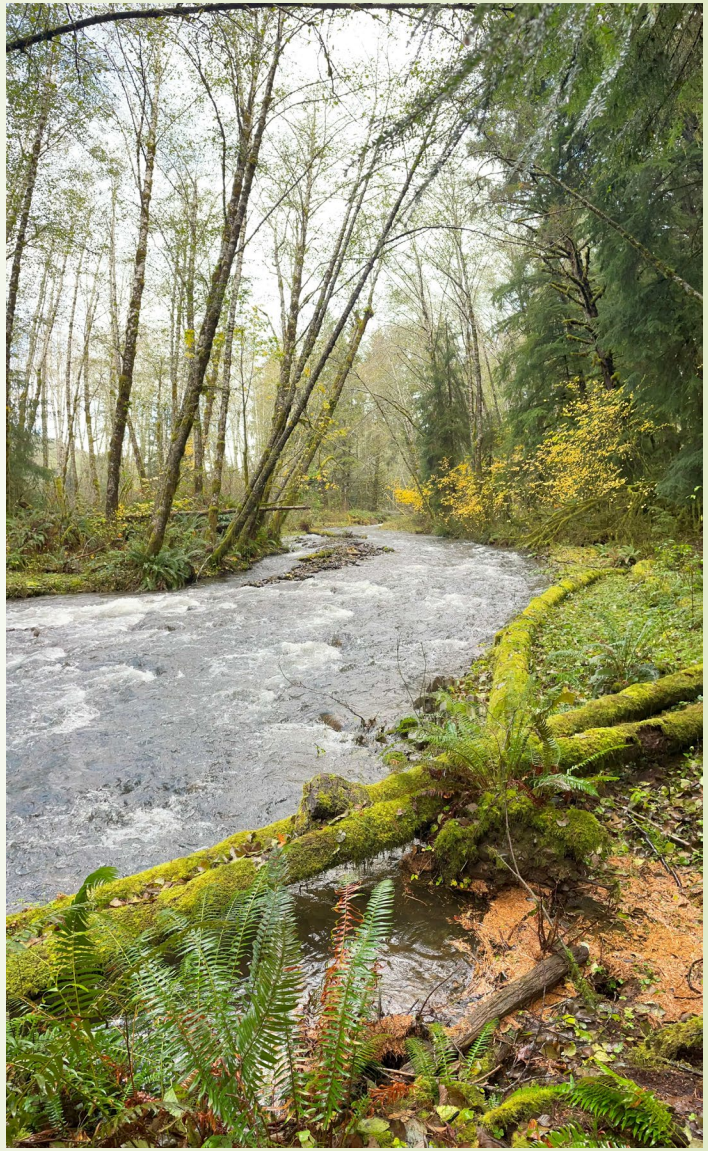


Source Water Protection



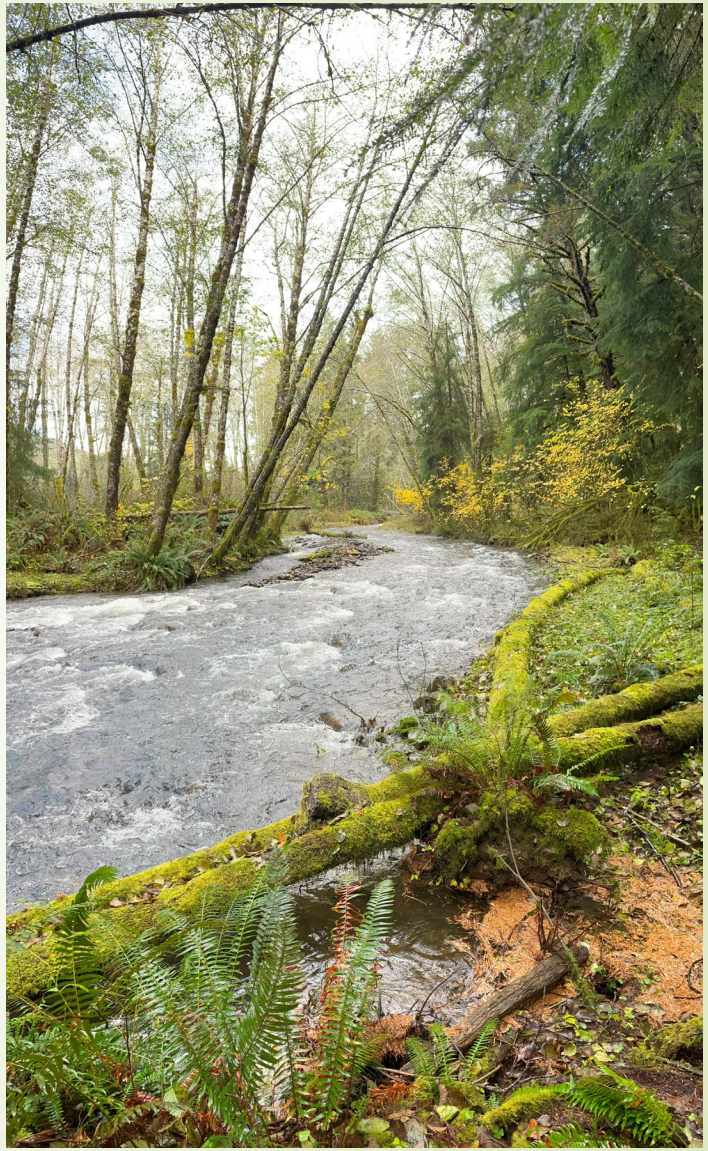
Source Water Protection

- Why does NCLC help to protect the drinking water of communities?



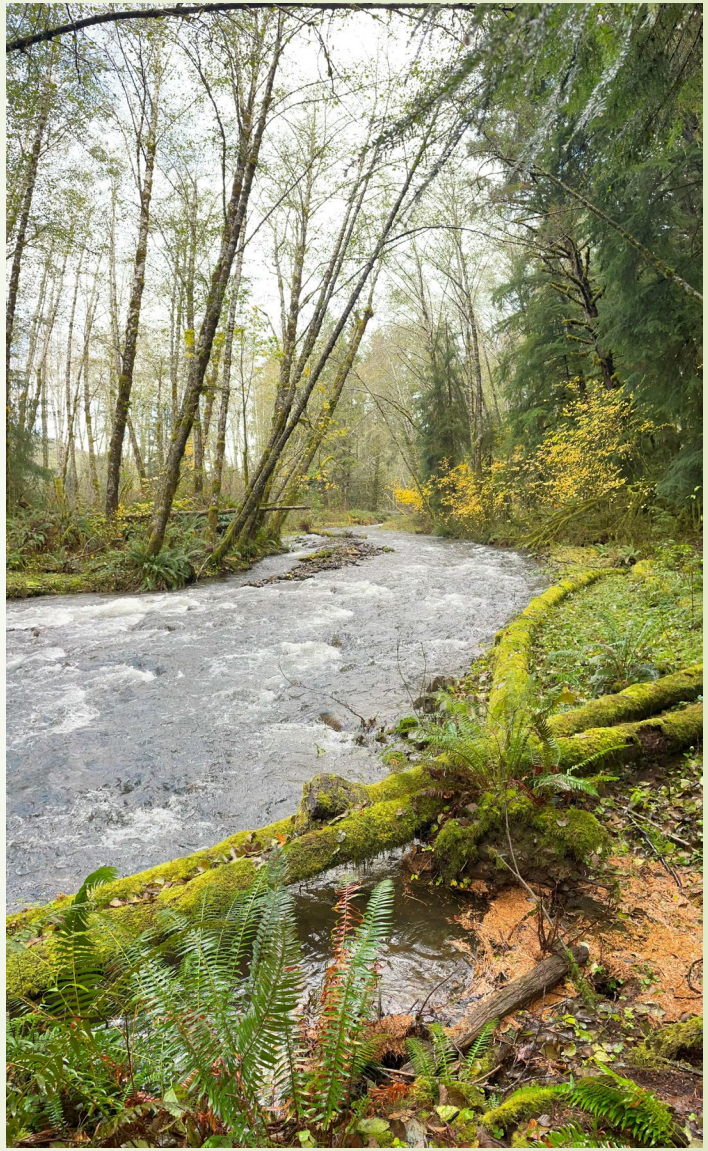
Source Water Protection

- Why does NCLC help to protect the drinking water of communities?
  - Clean, reliable water for humans is important!



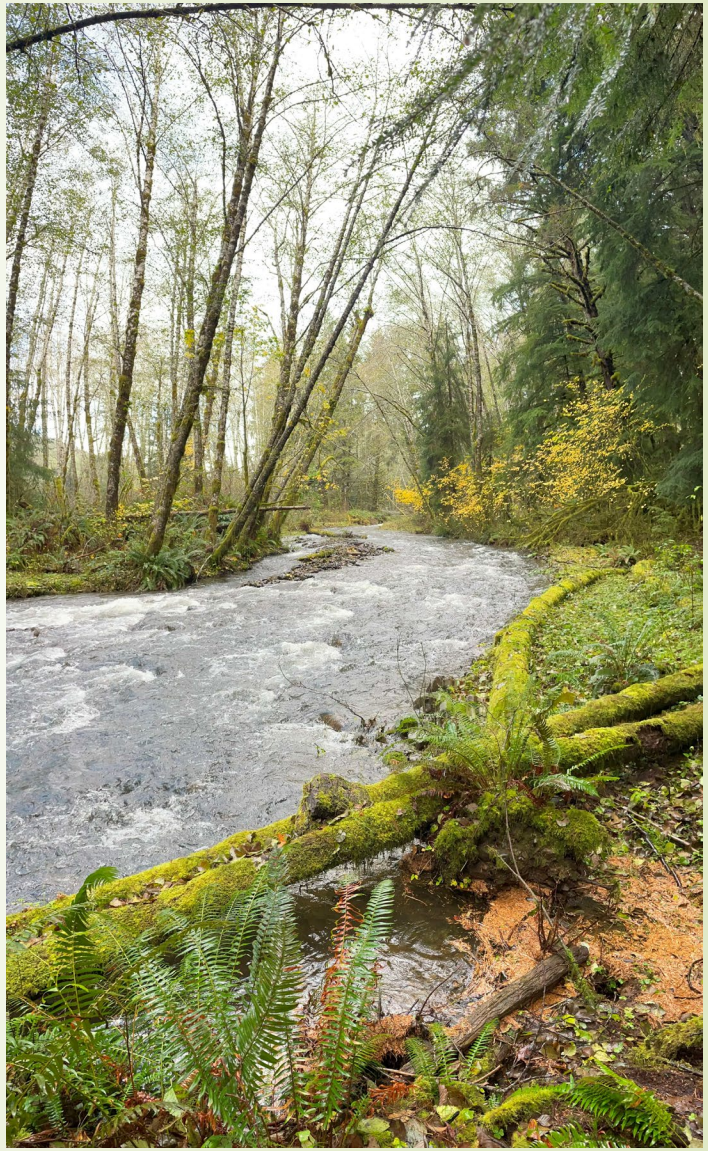
Source Water Protection

- Why does NCLC help to protect the drinking water of communities?
  - Clean, reliable water for humans is important!
    - It's also good for fish, like salmon..



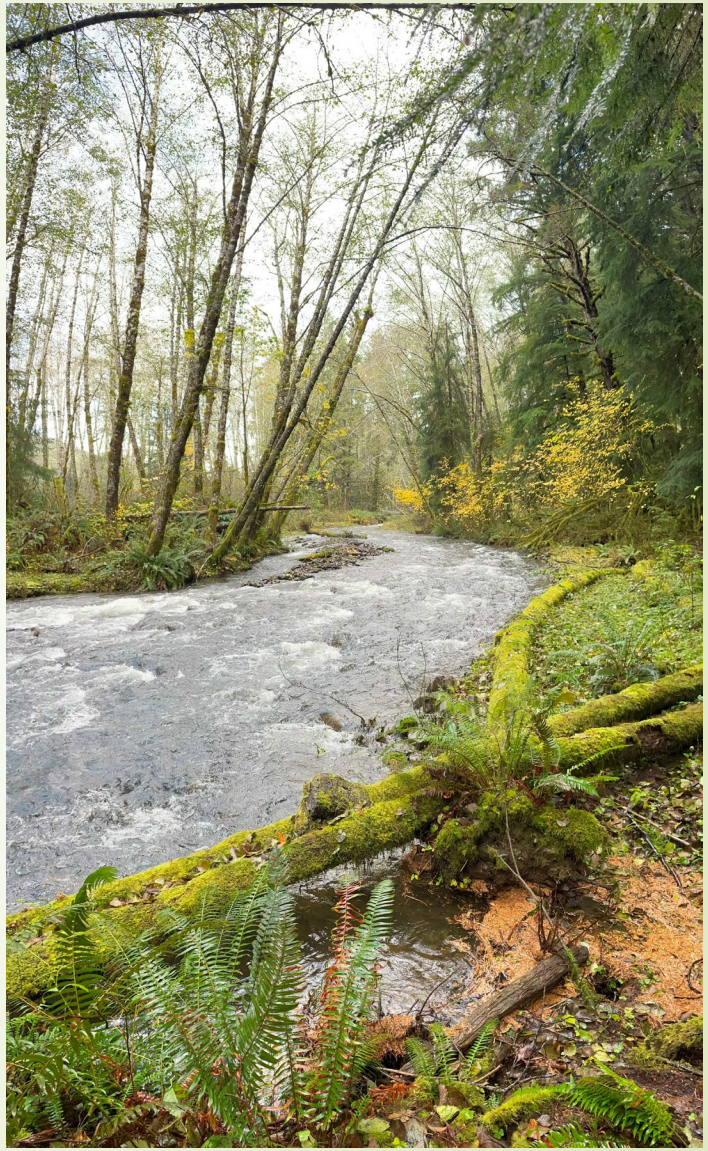
Source Water Protection

- Why does NCLC help to protect the drinking water of communities?
  - Clean, reliable water for humans is important!
    - It's also good for fish, like salmon..
  - Healthy forests and streams mean clean, plentiful water



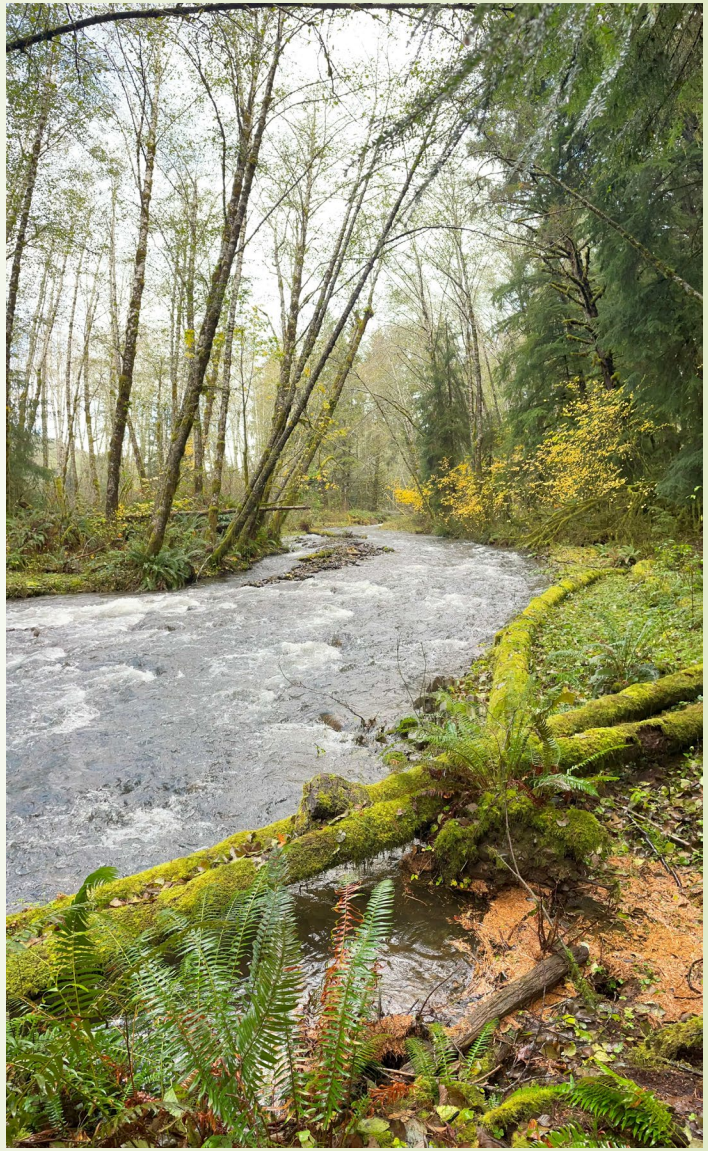
Source Water Protection

- Why does NCLC help to protect the drinking water of communities?
  - Clean, reliable water for humans is important!
    - It's also good for fish, like salmon..
  - Healthy forests and streams mean clean, plentiful water
    - They also happen to be good habitat for a multitude of plant and animal species..



Source Water Protection

- Why does NCLC help to protect the drinking water of communities?
  - Remember NCLC's Vision:



Source Water Protection

    - Bringing together a working group of partners if needed
    - Sharing our connections and experience with grant programs and funders
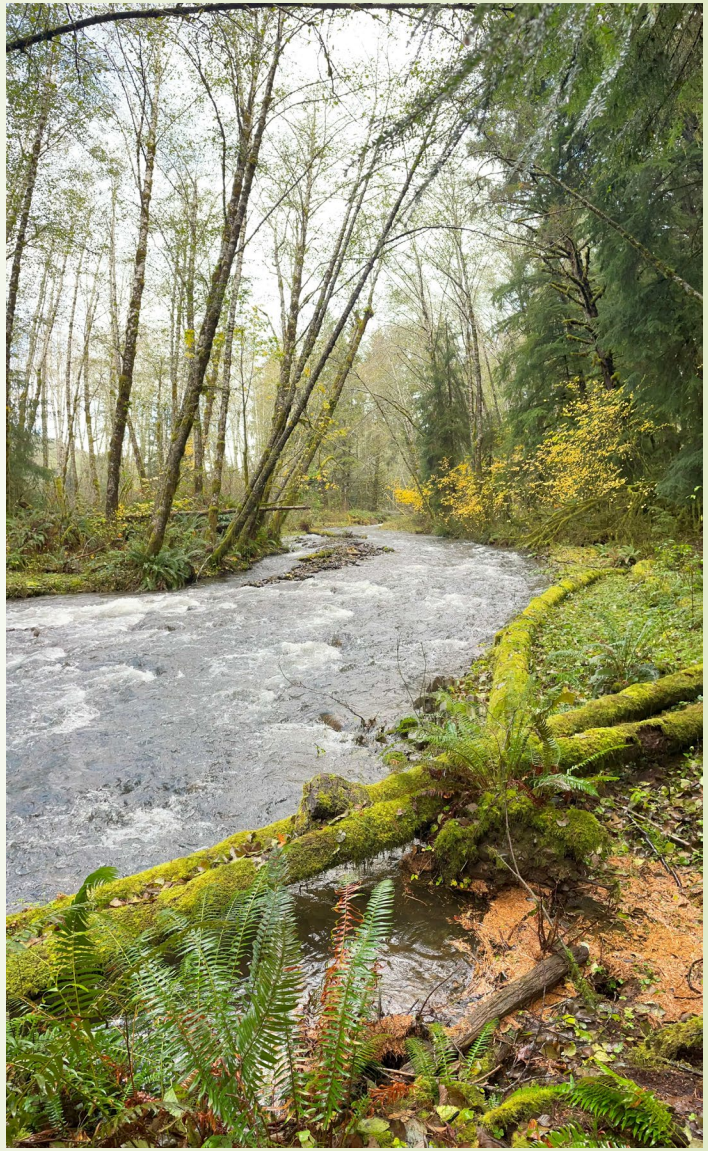
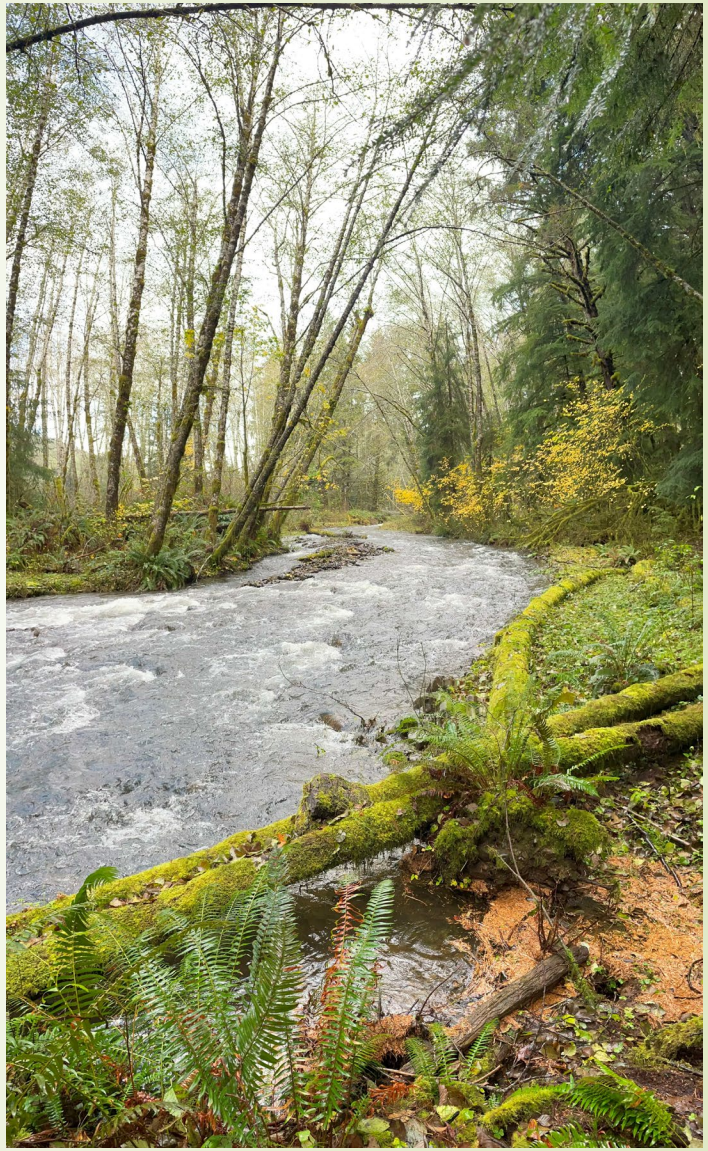
    - Sharing our land transaction experience throughout the process



Source Water Protection

Our involvement can vary from helping with a few stages of a project to being involved from day one until a project is finished



Source Water Protection

Our involvement can vary from helping with a few stages of a project to being involved from day one until a project is finished

- Some examples:
  - Ecola Creek Forest Reserve - *City of Cannon Beach*
    - ~1000 acres
  - Arch Cape Forest - *Arch Cape Domestic Water Supply District*
    - ~1500 acres
  - Neahkahnie Watershed – *Neahkahnie Water District*
    - ~70 acres
  - Hawk Creek Watershed – Neskowin Regional Water District
    - ~50 of 1500+ acres (so far..)
