Desired outcomes

Desired outcome: **Meg wants to move into an apartment of her own, preferably with her girlfriend Max, within the next year. Meg and Max would like to stay in the Portland-Metro area, ideally in SE Portland or nearby where there is a reasonable commute to Max's job in Milwaukie.**

What supports this outcome? Attendant Care

Key step/goal	Who is responsible?	Timelines	Where to record progress	Additional implementation strategies expected?
1 Create a budget with Meg and Max to determine: 1) Estimated monthly expenses once living independently 2) Identify a maximum monthly rental amount that could be afforded 3) Include a savings plan for getting move-in costs saved over the next several months.	Meg, Max, Provider support	Within 45 days of ISP meeting. (June 15th)	Submit completed budget and savings plan to SC within 45 days of ISP	See Action Plans for additional implementation details.
2 Discuss currently identified safety risks that might increase with transition into independent living. Once potential risks have been identified, create plan to mitigate risks with safety planning, targeted skill-building, or other supports.	SC will facilitate discussion and support with creating new Action Plan from discussion outcomes.	At ISP meeting	In Discussion Notes from ISP	See ISP agenda - Action Plan to be created from discussion outcome.
3 Create a list of housing needs including accessibility requirements, transportation access, location, amenities, and any other specifications that will guide the housing search.	Meg, Max, Provider Support	Within 30 days of ISP meeting. (June 1st)	Submit with provider invoices or via email to SC within 30 days.	

4	Apply for housing that meets Meg and Max's identified housing criteria and potential budget. Use the following tools to direct the search: 1) Create housing log to record these activities 2) Available units or waitlists for units through local Housing Authority. If open, apply for Section 8 voucher. 2)Search for subsidized rental units offered by various property managers such as (Cascade, REACH, Rose Community Development, Etc.) 3) Use online platforms (Craigslist, apartment finder, FB marketplace) to identify lower-cost market rate units. 4) Other community resources that might be available through research. 5 Applications to be submitted monthly.	Meg, Max, and Provider Support	Once weekly identify potential units and spend two hours on search, and application	Housing Search Log which can be provided with agency invoices to CDDP monthly OR via email to Service Coordinator.	Provider to help Meg complete Housing Search Log after each instance of a housing search activity. Keeping records of where applications have been submitted (See attached form)
5	Identify potential support providers to contract with after transition into independent living. To support the Service coordinator will review service element choices with Meg and provide list of potential provider agencies and/or HCWs. SC will refer Meg to Employer Resource Connection if additional interview support is needed.	Meg, Service Coordinator support, possibly ERC	Within 120 days of ISP (Aug 1st)	Service Coordinator will Progress Note discussion, resources provided, and any choices made.
