

“As a resident engineer, I get to see the projects during the design phase all the way to being fully constructed. Driving by a project you completed years from now and saying I helped build that. What more can one ask for!”

– **Jamie Miller**
(Resident Engineer)

WHAT IS IN IT FOR YOU?

- » Engaging work that challenges the industry standard and gives back to your community.
- » Opportunities throughout the state.
- » Unlimited growth potential and personal development opportunities.
- » Support in obtaining your professional license and other certifications.

ENGINEER YOUR FUTURE

Are you interested in:
TRANSPORTATION-RELATED ENGINEERING?

We are seeking motivated problem solvers to tackle transportation challenges and help decide the future of Oregon's transportation system.

Why ODOT?

As an ODOT engineer, you will work alongside nationally-recognized experts on unified, creative teams. You will have unique opportunities to develop technology, pilot innovations and be involved in a wide variety of projects from start to finish. From small community projects to billion dollar initiatives, you will work with agency partners and elected officials to reinvent the future of transportation. Your projects will serve Oregonians for decades to come and make a mark on Oregon's history.

Our Mission

Our mission is to provide a safe and reliable multimodal transportation system that connects people and helps Oregon's communities and economy thrive. We live by our **values of integrity, safety, equity, excellence and unity** as we seek to improve transportation systems for all.

We offer positions within the following engineering disciplines:

- » Bridge (design or inspection)
- » Construction
- » Environmental
- » Engineering Automation
- » Geotechnical
- » Hydraulics
- » Intelligent Transportation Systems
- » Maintenance
- » Pavements
- » Program Management
- » Roadway
- » Traffic (design and operations)

“The most rewarding part of my work is working alongside amazing talent to solve the challenges facing Oregonians.”

– **John Russell**
(Traffic Engineer)
