Public Comment Topic	Opposition to Aurora Airport Expansion
Public Comment	In French Prairie, the proposed Aurora Airport expansion would permanently impact over 160 acres of protected farmland and condemn homes and businesses. Led by Friends of French Prairie, community members continue to raise urgent concerns about prioritizing aviation expansion over Oregon's long-standing farmland protections. More large jets overhead means more noise pollution, greater risk of accidents, and more surface traffic on already overcrowded roadways. It also means that the quality of life and property values in Charbonneau will decline. The added runway length will enable larger jets to fly overhead, when the noise is already a nuisance that interferes with our quality of life, and will negatively impact our property value.
