Dear Board of Forestry,

I'm an Oregonian and I'm worried about our state's environment.

That's why I'm writing to ask that you protect Oregon's biodiversity and not allow over logging.

I ask the Board of Forestry consider a state Habitat Conservation Plan that truly protects the forest ecosystem sustainably, protecting species biodiversity and critical watershed areas. Please remember timber harvests may fund schools, libraries and other critical services, but that overlogging hurts all our communities, making our beautiful less desirable as a destination for tourism, which generates far more for our economy than logging. Please do the right thing.

Let's manage our forests with our children and grandchildren in mind – making sure our forests and the communities nearby will be healthy and thriving decades from now.
Frank Savage Seaside Oregon.

Thank you,
