andthrough Friday. However, it is recognized that City services and operations may require schedules other than Monday through Friday. The City will not utilize such other schedules unnecessarily, and such other schedules may be made subject to the grievance procedure should the Union consider any such schedule as not required by the reasonable needs of City operations.

In the event any employee's workdays are changed so that the employee does not have two consecutive days off between schedules, the first day of the changed weekly schedule shall be paid for at time and one-half.

7.1.1 **4/10 Schedules.** Notwithstanding the workweeks set forth in 7.1 above, the City and the Union may, by mutual agreement, initiate aA A standard 4/10 workweek consistsing of four (4) consecutive ten (10) hour days with three (3) consecutive days off. To address specific needs of the Bureau or employee, the parties may agree to a schedule with two consecutive days off and one non-consecutive day off. Overtime will be paid in accordance with Article 9 of this Agreement.

7.1.2 **9/80 Schedules.** It is further agreed, the City and the Union may by mutual agreement, initiate aAn A standard 9/80 altered bi-weekly work schedule consistsing of four (4) consecutive nine (9) hour days, with three (3) consecutive days off and five (5) consecutive work days consisting of four (4) consecutive nine (9) hour days, and one (1) eight (8) hour day with two (2) days off. To address specific needs of the Bureau or employee, the parties may agree to a schedule with two consecutive days off and one non-consecutive day off. Overtime rates will be paid in accordance with Article 9 of this Agreement.

7.1.27.1.3 **5/8 Schedules.** Notwithstanding the workweeks set forth in 7.1 above, the City and the Union may, by mutual agreement, initiate a A standard 5/8 workweek consistsing of five (5) consecutive eight (8) hour days with two (2) consecutive days off. To address specific needs of the Bureau or employee, the parties may agree to a schedule with two consecutive days off and one non-consecutive day off. Overtime will be paid in accordance with Article 9 of this Agreement.

7.1.3 The City and the Union agree that either party may terminate a schedule created under 7.1.1 or7.1.2 at any time for any reason upon thirty (30) days written notice to the other party. The employee(s) will then revert to a shift schedule established by the bureau under Article 7.1.

7.1.1.1. It is agreed that for FLSA purposes, the City may designate a regular workweek for employees that is different than the City's payroll period. Once such a workweek is established for a group of employees, it shall remain fixed, unless changed for legitimate business reasons.

For example: The workweek for the bi-weekly work schedule described in Article 7.1.2

consisting of four (4) consecutive nine (9) hour days, with three (3) consecutive days off and five (5) consecutive work days consisting of four (4) consecutive nine (9) hour days, and one (1) eight (8) hour day with two (2) days off would cut the eight hour day in half, so that four hours go into each workweek for a total of 40 per week.

7.2 Employees working a second or third shift shall receive a shift differential in accordance with the provisions of Article 8.

7.3 Except in case of emergency, all employees' work schedules shall provide for a fifteen (15) minute rest period during each one-half (1/2) shift. Rest periods shall be scheduled at the middle of each one-half (1/2) shift whenever feasible. ~~By mutual agreement with their immediate supervisor an employee may move their fifteen minute rest period to an alternative time during their shift.~~

7.4 **Emergency Work Scheduling.** Changes of an employee's scheduled working hours ~~(i.e., shift)~~ which do not affect the employee's working days and days off can be made by the City without the notice required under sub-section 7.1 of this Article, in case of an emergency situation; provided, however, that the first shift on the new schedule shall be paid at the overtime rate. Such change may remain in effect during the duration of the emergency.

Employees shall maintain their right to their regular working hours~~shift~~ and may be transferred to their normal schedule~~shift~~ at the end of the emergency without penalty, provided they have at least an eight (8) hour break from work. An employee will be excused from their regular shift and remain in paid status until the eight (8) hour break is met. If this results in less than half of a remaining shift, the employee will be paid for the entire shift, and not be required to use accrued leave.

7.4.1 Emergency shall be defined as a situation beyond the control of the City for which the City could not pre-plan. Emergencies shall not include those day-to-day situations which require immediate action which have been normally performed by bargaining unit employees.

Any disagreement between the City and the Union on what constitutes an emergency shall be taken up at Level Two (Article 35.3.5) of the grievance procedure.

7.5 **Flex-Time.** Employees working any of the allowed work shifts and weeks may, by mutual agreement between management and the employee, and to meet the needs of the City or the employee, occasionally adjust their hours of work by working fewer hours than scheduled one day and making up for those hours by working an equivalent number of additional hours on another day in the same FLSA work-week. Such scheduling adjustments must be preapproved and will not result in overtime pay outside of the provisions outlined in Article 7.5.2

and 7.5.3. Each bureau will make the final determination if flexible work schedules will be offered within their work divisions or work groups based upon operational and business needs.

7.5.1 The following provisions shall not apply when an employee is approved for and flexing their work schedule: Articles 7.1, 7.2, 7.4, 8.1, 8.2, 8.6.

7.5.2 If an employee working a flexible schedule works more than 40 hours in an FLSA workweek, the employee shall accrue overtime at the rate of one (1) and a half (1/2) times their regular rate of pay.

7.5.3 Article 8.4 shall only apply when an employee is unable to flex their schedule due to FLSA workweek restrictions.

7.5.4 Flexing of schedules will not be permitted on any of the City Paid Holidays as outlined in Article 15.1.1

7.6 **Telework.** Per Human Resources Administrative Rule 4.04, employees covered under this agreement may be eligible to enter a telework agreement.

Present practices as to day shift starting times shall be maintained provided that the City may change such starting times (subject to requirements of Article 7.1) with notice to the Union. Changes may be made outside the above listed hours upon mutual agreement between the City and the Union.

8.2 An employee scheduled on a second, third or relief shift shall receive the following shift differential in addition to their regular hourly rate as set forth in Schedule A for all hours worked on the second, third or relief shift:

Relief	$5.00 ~~$2.~~
Weekend~~Weekend~~	$2.32 ~~$2.69~~~~$3.61~~ ~~$2.~~

Article 8: Shifts

8.2.1 Shift differential shall be adjusted to reflect the annual increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for West Size Class A (as measured by the annual change in the index between the 2nd half of the two (2) years previous and the 2nd half of the previous year), published by the Bureau of Labor Statistics, U.S Department of Labor.

8.3 Overtime rates shall apply to work performed by an employee before the regular starting time and after the regular quitting time of the shift on which that employee is regularly employed unless work performed outside the regular work day results from unpaid absence during the regular work day for personal reasons.

8.4 Employees transferred from a regularly scheduled day shift to another, unless relieved from work at least ten (10) hours before their new shift, shall be paid overtime for the first such new shift worked. This section shall not apply to those employees covered under sub-section 8.5 of this Article. Each employee shall be assigned to a regularly-scheduled workweek and shift unless changes are made by mutual agreement between the City and the affected Union.

8.5 **Relief Shifts.** Relief shifts shall be defined as:

8.5.1 Any workweek schedule which includes multiple shifts with a maximum of three (3) day shifts.

8.5.2 Any workweek schedule which includes multiple starting times of more than two (2) hours difference within the starting times listed in paragraph 8.1 above.

8.5.3 The provisions of Article 8.5 do not apply to employees who are part-time.

~~8.5.3~~8.5.4 ~~Relief shift employees shall receive the second and third shift differential premiums in addition to their relief shift premium when working second or third shift hours.~~

Article 8: Shifts

~~shifts~~. The shift premiums of 8.2 shall be paid to any employee working ~~full full~~ overtime shifts; however, such premiums shall be used in computing the overtime rate, as required by Federal Law.

8.7 **Weekend Differential.** Premium pay for weekend hours worked shall apply to employees whose shift starts Friday afternoon, Saturday, Sunday, or Monday morning. Weekend differential shall be paid in addition to second and third shift differential when those shifts are worked on the weekend.

8.8

~~**Weekend Differential.** Premium pay for weekend hours worked shall apply to employees whose shift starts Friday afternoon, Saturday, Sunday, or Monday morning. Weekend differential shall be paid in addition to second and third shift differential when those shifts are worked on the weekend.~~

~~8.6~~8.9 **Lunch Periods.** Lunch Periods shall be scheduled by the City, and will allow the employee either thirty (30) minutes or one (1) hour time off with pay ~~with pay~~~~without pay~~ to eat lunch. The current length of lunch periods may be extended or reduced by mutual agreement between the City and the Union. ~~However, where the City now allows thirty (30) minutes off, the City will continue to do so for the life of this Agreement; and where the City now allows one (1) hour off, the City will continue to do so for the life of this Agreement.~~

No employee shall be required to begin their lunch period sooner than one (1) hour before nor later than one (1) hour after the middle of the employee's scheduled shift. In the event it is not possible to begin a lunch period during such two (2) hour period, the employee shall receive time and one half (1-1/2) for the employee's lunch period and shall also be allowed a reasonable opportunity to eat their lunch on the City's time. Lunch periods other than those listed above may be arranged by mutual agreement between the City and the Union.

Notwithstanding the above, when different lunch periods exist in the same unit, the parties shall meet upon the request of either party to seek a mutually agreeable uniform length lunch period for that unit. If the parties are unable to arrive at agreement, the City

Article 8: Shifts

may implement its last proposal. The Union may grieve that the implemented lunch period does not meet the reasonable needs of City operations.

Where needs of multiple shift operations dictate that employees remain on the work site and be on call for duty during their lunch period, the employees will be provided a twenty (20) minute lunch period on the City's time.

Article 9: Overtime

9. Overtime

9.1 **Overtime Rate.** Overtime shall be paid at the rate of one and one-half (1-1/2) times an employee's established hourly rate as set forth in Schedule A. Overtime rates shall apply to work performed by an employee outside of or in excess of their established shift hours.

For the purpose of this article, officially recognized holidays for which the employee is paid, and all paid leaves~~vacation and compensatory leaves and sick leave~~ will be counted as time worked.

Shift premiums will be included in overtime computations as required by Federal Law.

9.2 **Overtime Equalization.** Overtime work shall be offered equally among employees within the same job classification within each work unit, provided the employee is available and qualified to perform the work required. All offers of overtime shall include the classifications and minimum number of employees required.

Employees who are on call shall be counted as available for overtime. Employees on leave shall by default not be counted as available for overtime unless they notify the city that they are available.

If there is disagreement about the applicable work unit for an equalization list, the city and Union shall meet to discuss.

Formatted: Font color: Custom Color(RGB(35,31,32))

It is further provided that the City shall schedule known weekend overtime by the end of the fourth (4th) day of an employee's workweek. Except where conditions beyond the City's control require the cancellation of scheduled weekend overtime, scheduled weekend overtime shall be canceled prior to the end of the fifth (5th) day of an employee's workweek.

Notification and cancellation times for scheduled overtime will be adjusted appropriately for employees working an alternate schedule.

9.2.1 A record of overtime hours worked or offered to each employee shall be updated~~maintained~~ daily and posted prominently in the work place. Updated overtime equalization lists will be forwarded to a work unit's designated union representative(s) weekly on

Monday end of day. ~~in each work unit for each month and~~ Historical records of the equalization lists shall be maintained for at least one year and available upon request. ~~In work units consisting of five (5) or more employees within the same classification, such information shall be posted.~~ The equalization of overtime shall be reviewed no less than once per week. ~~each three (3) month period starting July 1, of any year~~. For the purpose of equalization, overtime offered shall be counted the same as overtime worked. Employees who fail to respond to an overtime offer in a reasonable time frame shall have the offer counted against their hours on the equalization list if the overtime is accepted by an employee in the same classification in their work group who has fewer hours on the list or if the city has to pull from a different classification to fill the overtime. ~~By mutual agreement the City and Union may meet to discuss~~

If no employee in the offered classification in the workgroup volunteers for overtime the offer may be extended outside that group in the following order.

1. To qualified employees outside the classification in the same work unit.
2. To qualified employees within the same division in the classification of overtime offered.
3. To qualified employees within the same division outside the classification of overtime offered.
4. To qualified employees within the same bureau in the classification of overtime offered.
5. To qualified employees within the same bureau outside of the classification of overtime offered.

In all categories overtime opportunities are offered first to the employees with the least amount of hours on their overtime equalization list.

~~9.1.1~~ If there are perceived systematic inequities in the offering of overtime the City and Union shall meet to discuss. ~~that may be occurring~~ .

Remedy. An employee who believes that they have not received a fair share of available overtime offers has an assertive duty to address the matter with their immediate supervisor and designated union representative for the purposes of review and consideration.

Formatted: Font: (Default) Arial, Font color: Black

Corrective action will be taken through future assignments of overtime if a bona fide inequity exists in the employee's opportunity to receive a fair share of the overtime offers available in the employee's work unit.

~~9.1.2~~9.2.2 The City will attempt to avoid situations which require an employee to work more than sixteen (16) consecutive hours. The employee will be compensated at the rate of two (2) times their established hourly rate for the hours worked in excess of sixteen (16) consecutive hours.

~~9.1.3~~9.2.3 **Compensatory Time Off.** Employees shall have the option of pay at the applicable overtime rate or compensatory time computed at the applicable overtime rate for the overtime hours worked up to a total accrual of eighty (80) hours at any given time.

Compensatory time off will be arranged by mutual agreement between the employee and their supervisor. However, the taking of compensatory time off will not be unreasonably denied.

In the event that an employee transfers from one bureau to another, any compensatory time will be paid or used before such transfer or, at the employee's request, accrued compensatory time shall be transferred, along with necessary funds to cover such compensatory time, to the bureau receiving the transferred employee.

Employees may receive once per fiscal year, at their request, a payout of any amount of accrued compensatory time.

~~9.2~~9.3 Employees required to work around the clock and required to continue work through their regular assigned shift, shall continue to receive pay at the overtime rate. Any hours over sixteen (16) will be paid at the double time rate.

~~9.2.1~~9.3.1 If an employee has worked sixteen (16) hours or more in the 24-hour period prior to their next regular shift and needs to rest, the bureau may excuse the employee from all or part of their regular shift. Under such circumstances employees will remain in paid status and will not be required to use accrued leave.

~~9.2.2~~9.3.2 At no time shall any employee be required to work their next regular shift without eight (8) hours of rest between any hours

worked. The only exception is that on-call employees must be available during on-call hours. The employee shall remain in paid status for the rest hours that overlap with the employee's next regular shift.

~~9.3~~9.4 Any employee who is required to work more than two (2) hours before or beyond their regular shift shall be allowed a thirty (30) minute lunch period on the City's time, to be taken not later than the expiration of such two (2) hour overtime period. In the event the employee works for more than four (4) hours beyond such two (2) hour overtime period, they shall receive an additional thirty (30) minute lunch period on the City's time for each additional four (4) hour overtime increment.

~~9.4~~9.5 Notwithstanding section 9.2, the City may require the least senior qualified employee(s) in the classification within the work unit or a qualified temporary employee be available to work overtime.

~~9.5~~9.6 There shall be no pyramiding of overtime rates.

9.7 **Essential Employees.** Any employee who is~~who is designated by management as an Essential Employee and is~~ required to report to work when the Mayor or his designee announces a Citywide closure and directs non-essential employees to stay home, will be compensated with one hour of (1) deferred holiday for every ~~full shift~~ hour they work during such an event. ~~The deferred holiday will be equal to the number of hours the essential employee was regularly scheduled to work on the day of the event.~~

~~9.6~~ When conditions that would arguably create a closure take place outside of normal city operational hours the City and Union shall meet to discuss whether employees who worked in those conditions shall receive hours of deferred holiday. If the parties can not agree the Union may advance the matter as a level 2 grievance.

Formatted: Indent: Left: 0.77", No bullets or numbering

Formatted: Font: (Default) Arial, Font color: Black

Employees whose deferred holiday bank is full, will be given the equivalent time in pay. Employees who earn a deferred holiday within thirty (30) days of the end of the calendar year will be allowed to carry over said holiday to the subsequent year's deferred holiday bank.

9.8 Overtime offers and equalization in the Bureau of Environmental Services shall continue status quo as established by current rules. Changes to these rules shall only be made by mutual

agreement between the Union and BES management.

Article 10 Reporting Pay and Minimum Pay

10. **Reporting Pay and Minimum Pay**

10.1. Any employee who is scheduled to report for work on their regular schedule, and who reports for work as scheduled, but where work is not available, or made available for the employee, shall be excused from duty and paid at the employee's regular rate for the remainder of their regularly scheduled shift. The City shall not be required to work and compensate an employee in accordance with this section after an employee has completed sixteen (16) consecutive hours of work. The guarantee of the remainder of their regularly scheduled shift pay to an employee shall be inapplicable if an employee fails to report at the scheduled starting time or otherwise is unable to perform their normal duties for the full shift.

10.2. Any employee called to return to work before the employee's next work shift, and such call is after the employee has left the City's premises at the end of their last shift, shall be paid for a minimum of three (3) hours at the rate of one and one-half (1-1/2) times their regular rate. The "return to work" will commence at the time the employee receives the call and agrees to return to work. The "return to work" shall end when the employee leaves the last designated reporting location at the conclusion of the work.

10.2.1. If an employee is called back to work, either under a call to return to work, a stand-by agreement or otherwise, and works less than three (3) hours and is called out again within the three (3) hours, the employee will not receive a second minimum. If an employee is subsequently called back to work after the initial (3) three hours has elapsed, the employee would then be eligible for an additional (3) three hour minimum.

10.2.2. An employee who has been asked to work overtime at the end of their shift shall receive overtime pay but not call back pay.

10.2.3. When the employee is called back and is required to work eight (8) or more consecutive hours outside of their normal working shift, the employee shall be paid a shift differential that corresponds with the time of the call to return to work.

~~10.2.3.~~10.2.4. ~~**Informational Contact.** Any employee contacted to discuss work matters outside their normal working hours shall be paid for a minimum of one (1) hour at the rate of one and one-half (1-1/2) times their regular rate.~~

10.3. Any employee required to work a split shift shall be paid at the rate of time and one-half (1-1/2) for not less than eight (8) hours of such shift (exclusive of any overtime worked in addition thereto). Time worked on the employee's sixth and seventh day shall not be covered by this paragraph.

10.4. Before the City requires bargaining unit employees to "stand-by" during their off duty hours, the City and the Union representative will meet and determine the appropriate compensation.

10.4.1. If the City has not worked out a "stand-by" agreement with the Union and requests an employee to "stand-by", the employee shall receive two (2) hours pay at the straight time rate for each eight (8) hours of "stand-by" time. For the purposes of this section, "stand- by" shall be defined as a requirement that an employee remain available and fit

for duty during non-working time, with City communication device(s) and/or at a phone number left with the bureau such that the employee can respond to the initial contact within one-half (1/2) hour unless otherwise mutually agreed. If the employee's presence at the worksite is required, the employee must be able to report for work within a period of one (1) hour, absent unusual circumstances. ~~respond to initial contactreport for work within a period of fifteenthirty (1530) minutes forty-five (45) minutesone-half (1/2) hour, absent unusual circumstances. Travel time to report to work will not normally exceed forty-five (45) minutes one (1) hour.~~ Standby employees who are contacted during non-working time but not asked to report to work shall be paid one (1) hour at the overtime rate.

10.5. If an employee is called back on an emergency during ice or snow conditions, their overtime will commence at the time they receive the call., with a maximum of one (1) hour's travel time permitted. The end of the call back shall be when the employee leaves the designated reporting location at the end of the call back.

10.6. Employees are authorized special mileage allowances under the following conditions: All mileage allowances must be pre- authorized. When such employees use their own transportation to report directly to a work site other than their normal reporting place, they will file a mileage pay request for any miles that are in excess from their current home address to their normal reporting place. Mileage payments will be at the applicable IRS rate for using personal vehicles on City business. Payment will be made for the excess distance both going to work and returning home. Employees are required to keep their supervisors advised of their current home address and number of miles from their home to their regular reporting place.

10.7. Any employee who is required to use their personal automobile in the course of their employment will be paid mileage reimbursement at the applicable IRS rate.

11. **Working out of Classification**

For the purposes of this Article, working out of classification shall mean the temporary assignment of a willing, available, and qualified employee to perform substantially the duties and responsibilities of a ~~higher different~~ higher different classification.

In the event that there is not a willing employee, the City may require the least senior qualified employees or a qualified temporary employee ~~qualified temporary employee~~ to work out of classification. In the event that there is not a least senior qualified employee in the work unit, the City may require the least senior qualified employees or a qualified temporary employee ~~qualified temporary employee~~ in the bureau to work out of classification.

11.1. Employees may be worked out of classification when:

11.1.1. Temporary vacancies occur in any classification.

11.1.2. Emergency conditions exist and enough personnel are not available in a classification to take care of such emergencies~~y~~. Emergency will be defined as a situation beyond the control of the City for which the City could not pre-plan.

11.1.3. For legitimate training purposes.

11.1.4. Any reason approved through a Memorandum of Understanding between the Union and the City.

11.2. This provision shall be inapplicable to the selection of employees to perform non-bargaining unit work. Subject to agreement with the Union, the City may reserve upgrade opportunities for legitimate training purposes. Otherwise, when selecting employees to work in higher classifications, as provided in 11.1.1 through 11.1.4:

11.2.1. First choice of such work shall be given to an employee with the highest classification seniority and greatest length of service with the City ~~with the highest classification seniority and greatest length of service with the City~~ on an appropriate eligible list (provided by the Bureau of Human Resources) who is a permanent employee of the division ~~bureau~~ at which the temporary vacancy is being filled, and qualified, subject to the Letters of Understanding which are attached to this agreement and made a part thereof.

~~11.2.1.~~For purposes of this Article "qualified" means an employee who meets the minimum qualifications for the classification, is on the appropriate eligible list, and has demonstrated the ability to perform the essential duties of the assigned classification through a skills demonstration, prior work performance, or other job-related assessment as determined by the City.

The City and the Union have agreed that when filling short-term vacancies in a higher class, the offer of such work shall be made first to employees who are qualified and on the appropriate eligible list. The City further agrees that it will make every effort to distribute such assignments as equally as possible among those that are qualified and on the eligible lists within the Division.

Commented [1]: added "highest classification seniority and greatest length of service with the city"

Employees within the bureau on the eligible list outside the division shall be utilized for working out of class opportunities if no employees on the eligible list work within the division.

11.2.2. When no employee is available from the appropriate eligible lists, the City shall select the most ~~from among the three (3) available~~ senior qualified employee~~s~~ in the division ~~or bureau~~, who is ~~are~~ willing to accept the appointment, until any new appropriate eligible lists are created. ~~a list of qualified candidates is certified.~~

11.2.3. All active appropriate eligible lists shall be posted prominently in the work location of appropriate work units.

11.2.3.1. New City employees shall not be eligible for working out of classification ~~temporary upgrades~~ assignments under sections 11.2.1 and 11.2.2 until they have completed six (6) ~~twelve (12)~~ ~~twelve (12)~~ ~~six (6)~~ months of service with the City. This shall not preclude the City from using new employees for temporary upgrade if no other employees are available under 11.2.1 and 11.2.2.

~~11.2.3.~~11.2.4. Employees appointed temporarily to work out of classification will be expected, for the term of such appointment, to perform the duties normally performed by the employee they are replacing in that classification. However, employees temporarily appointed to non- represented positions will not administer discipline or have access to personnel files.

~~11.2.3.1.~~11.2.4.1. The City will notify the Union when a bargaining unit member is upgraded to a non-represented position. Employees temporarily appointed to non-represented positions who are also Union Shop Stewards shall be required to cease operating in the capacity of a Shop Steward for the duration of said appointment.

~~11.2.3.2.~~11.2.4.2. Employees appointed temporarily to work out of classification in a ~~non-bargaining unit~~ position not covered under Schedule A, will~~shall~~ not be subject to this agreement for the duration of such assignment~~appointment.~~, except that such assignment will not result in the loss of the employee's underlying represented status or rights associated with their permanent classification. Any discipline imposed during the working out of classification assignment must be for just cause.

11.3. Except for official apprenticeship or training classifications, when an employee is assigned to a higher classification, the employee's pay rate shall be the step within the higher classification range which represents at least a five ~~three~~ ~~three~~~~five~~ percent (~~3~~35%) increase over the employee's regular rate in ~~his or her~~ their ~~former~~ current classification, provided that in no event shall the rate of pay exceed the maximum rate for the higher~~higher~~ ~~different~~ classification as provided in Schedule A. Article 12 Seniority

12. **Seniority**

In the matter of selections of jobs or opportunities to work on new jobs, processes or job locations and the selection of work shifts and vacation periods within a given classification, within a bureau, department or division thereof, the City shall prefer those employees who have permanent Civil Service status with the greatest length of service with the City within a given classification subject to the following conditions. In calculating an employee's permanent work unit seniority, it shall be the employee's total ~~uninterrupted~~ time in such unit, including the time spent in unsuccessful probation in another unit.

12.1. **Shift Selection.** In multiple shift operations, employees within each classification shall have a right to select their work shift on the basis of their seniority within a bureau or division thereof and competing only with employees covered under this agreement on the following basis:

12.1.1. After the employee's original selection of a work shift, changes may be made only when a vacancy occurs on another shift; provided, however, if the City eliminates any employee's shift, such employee shall have the right to exercise their seniority to select one of the existing shifts.

12.1.2. Shift trades or individual shift changes may be made by mutual agreement between the employees and the City, provided such changes are posted and there are not objections. However, any such mutually agreed changes shall not be subject to the overtime provisions of this agreement.

12.1.3. Group shift changes may be made by mutual agreement between the Union and the City. However, any such mutually agreed changes shall not be subject to the overtime provisions of this agreement.

12.1.4. When shift changes are made which are beyond the control of the City, the overtime provisions of this contract will be waived.

12.2. **Job Bidding.** The City reserves the right to organize work and assignments. Bureau managers will consult with the Union prior to implementation of a reorganization to discuss proper application of this Article. Whenever the City determines that it will fill a vacancy in a new or existing job, present employees shall be given the first opportunity on the following basis: the City may choose from among the two (2) most senior qualified bidders for 25% of all vacancies occurring within a bureau in a Fiscal Year. Prior to posting, the City must identify a posting as one which will be subject to this provision.

12.2.1. If the vacancy involved is a new job process within a classification, first choice shall be given to employees in that classification within the division where the vacancy occurs. Second choice shall be given to employees within the bureau in which the vacancy occurs. Qualifications and seniority within the division (first choice) or bureau (second choice) shall be the determining factors. "Qualifications" means the ability to meet the performance requirements and job-related skills required for the job in question, but not based solely on Civil Service certification.

12.2.2. Whenever an opening occurs in any job classification in an existing work assignment, employees within that classification shall have an opportunity to bid on such vacancy based on their seniority if they are qualified to do the work as defined in section 12.2.1

above. First choice shall be given to employees within the division where the vacancy occurs. Second choice shall be given to employees within the bureau in which the vacancy occurs.

12.2.3. A bureau and the Union may mutually agree to implement an alternative method of filling vacancies identified in 12.2.1 and 12.2.2. The agreement can cover a work unit(s), a classification(s), or an entire bureau. Any such agreement will be made in writing and will be copied to the Union and the Human Resources Director prior to its implementation.

12.2.4. The overtime provisions of this agreement will not apply as a result of employees exercising their seniority rights under 12.2.1 and 12.2.2.

12.2.5. **Limitations on Bidding.** If an employee receives discipline subsequent to a written reprimand (i.e. another written reprimand), or a suspension or demotion, or a Performance Improvement Plan which takes the place of a second written reprimand or higher level discipline, the City may, at its sole discretion, suspend the employee's ability to bid on any job assignments for one year.

12.2.5.1. **Exceptions to Bid Limits**. Except as provided for in 12.2.5, when the City and Union have an agreement for annual bidding or the City/Bureau/Work Group and Union agree to conduct a bid reset, bidding limitations are waived for employees in eligible classifications.

12.2.6. **Employees in Conflict.** If a situation develops which involves two or more employees who are in conflict with one another, the bureau will document the conflict and meet with the employees and the Union and attempt to jointly resolve the conflict. If no resolution can be mutually agreed upon, the bureau may move the employee to a vacant job assignment in another work unit within the bureau. If there are no vacancies in another work unit, the bureau may seek volunteers willing to trade assignments with the employee(s) in conflict. If there are no volunteers, the bureau may, at its sole discretion, move the employee(s) as a last resort.

12.2.7. **Injured Worker Return to Work.** When a vacancy under 12.2.1 and 12.2.2 occurs, the City and the Union may by mutual agreement exempt the job from the bidding procedures of this Article so that the job may be utilized to employ a worker returning from Industrial Accident leave.

12.2.7.1. The parties jointly recognize the desirability of returning an injured worker, whose condition is not medically stationary, to some form of available work at the earliest possible time consistent with the ability of the worker to return as certified by the treating physician. Employees may be assigned work other than their regular job as soon as released to do so by the treating physician. Positions filled by an injured worker on jobs designed to reasonably accommodate an injured worker shall not be subject to the bidding procedure specified in this agreement.

12.2.7.2. An injured worker whose condition is medically stationary will be given the opportunity to return to their original job as provided in section 12.2.7.3. If the injured worker's condition is permanent partial disability,

the City will make reasonable effort to accommodate such condition and to return the injured worker to available and suitable work.

The City shall notify the Union at the earliest stage of efforts to place injured workers into available and suitable positions.

If placement efforts do not result in the return to work of the injured worker, the matter shall be referred to a joint labor/management committee for the purpose of providing recommendations and advice to the Human Resources Director and the Risk Manager on the worker's placement including, but not limited to, the effectiveness of any bureau-wide or City-wide placement activities or other issues relating to the return to work of the injured worker.

The joint committee will also be charged with a review of current practices and issues relating to injured workers, and provide recommendations and advice to the Human Resources Director and Risk Manager on program operations relating to injured workers. This committee shall consist of equal numbers of management and Union representatives. Union participants will be appointed by the Union and management participants by the Bureau of Human Resources and Risk Management.

12.2.7.3. A job which is vacant by reason of a compensable injury will be treated as a temporary vacancy for the first eighteen (18) months. Such job may be filled by appointment and is not subject to bidding. During this period, an injured worker who has received a full release will be returned to their former job on request. An employee displaced by the return of an injured worker will be entitled to bump pursuant to their seniority and classification. After eighteen (18) months, an employee who is absent due to compensable injury shall be entitled to bump the junior employee in their classification.

Posting. All vacancies which create job opportunities under Article 12 shall be posted in the work location of the affected employees. Job opportunities shall be posted for a period of five (5) working days. Each posting shall contain the shift and days to be worked and a brief description of the duties and responsibilities to be performed at the time of vacancy in addition to who to contact for more information. The posting shall also include to the extent applicable and reasonably available, ~~specific~~ the reporting location, immediate supervisor, any other relevant information, any special qualifications for the job and, if applicable, the requirement that an employee must commit to remaining in the assignment due to on- the-job or formal training requirements for up to two (2) years before bidding to another assignment. It shall also contain the date the transfer is to take effect. However, the date of transfer shall be no later than thirty (30) days after the first date of posting. The transfer to the bid position may be made earlier than the date in the posting, upon mutual agreement between the City and the employee. The applicant may be required to perform

other functions which they are qualified to perform. Employees shall bid in writing on such opportunities according to the provisions of this section and such bid shall be made by the sixth (6th) working day after the first day of posting. Probationary employees are not allowed to bid on other job opportunities for the duration of their probationary period.

12.2.8. **Evaluations.** Any employee who fills a vacancy under the provisions of Article 12.3 and fails to qualify in the new job during a ninety (90) day evaluation period that will include a minimum of one (1) interim and one (1) final written performance evaluation, will be returned to their former position in the division or bureau if it is vacant. If the employee's former position is not vacant, the employee will be placed in a vacancy in their classification elsewhere in the bureau. If there is no vacancy in the bureau, the employee will be returned to their former position in the division or bureau. Failure by management to provide the written evaluations within the ninety (90) day evaluation period will indicate the employee's successful completion of the evaluation period.

12.2.9. **Lateral Transfers.** Employees may request a lateral transfer to another Bureau by notifying the Bureau of Human Resources of their desires. Lateral transfers to vacant, budgeted positions, within or between bureaus within a classification at the request of the employee will be limited to one (1) per year. However, in the event that an employee does not pass the evaluation period provided for in Article 12.3.1 of this Agreement, the one (1) year limit on lateral transfers shall be waived.

12.2.10. **Bid Trades.** An employee may "trade" a bid work assignment within a shift subject to management approval. Such trades do not require posting or approval of the Union or other employees in the work units involved. However, any such mutually agreed upon trades shall not be subject to the overtime provisions of this agreement and the employees who trade waive their ability to bid to new assignments for one (1) year.

12.2.11. Within seven (7) working days after the closing of the bidding procedure, the City shall award the bid, in writing, to the successful bidder. After an employee has received written notification that they were the successful bidder, such employee shall be required to honor such bid.

12.3. Seniority shall continue and accumulate during approved leaves of absence in accordance with the provisions of the City Charter and the Bureau of Human Resources Rules and Regulations, except that seniority shall be frozen after eighteen (18) continuous months of absence for the purposes of vacation and job bidding.

12.4. The City agrees to make available to the Union, upon request, copies of any personnel list the City maintains regarding seniority or classification changes.

12.5. **Special Projects & Assignments.** Notwithstanding any other article or section of this contract, the City may designate certain Special Projects and Assignments under the limitations listed in 12.56.1 and 12.56.2.

12.5.1. **Special Projects.** A bureau may identify a project for a period of no more than one (1) year and assign employee(s) to that project for its duration. Any employee(s) so assigned

will have the right to return to their originally bid work unit and cannot be involuntarily re- assigned for at least eighteen (18) months. Employees assigned to a special project continue to accrue seniority in their previous work unit and may bid on future assignments during the project, but will not move to that new assignment until the conclusion of the special project. The duration of the project may be extended by mutual agreement between the City and the Union.

12.5.2. **Special Assignments.** A bureau may re-assign any employee to an assignment in another work unit for up to sixty (60) days. Any employee(s) so assigned will have the right to return to their originally bid work at the conclusion of the assignment or after sixty (60) days. Employees re-assigned continue to accrue seniority in their previous work unit and may bid on other assignments during the special assignment, but will not move to that new assignment until the conclusion of the special assignment. The duration of the special assignment may be extended by mutual agreement between the City and the Union.

13. Promotion

13.1 For the purposes of this article "promotions" shall be defined as the movement of ~~a~~n regular status employee from a position in one job classification to a position in another job classification having a higher maximum salary rate. Employees promoted to another City classification ~~, shall be placed at the pay step in their promoted classification that secures them a minimum 5% pay increase from their previous pay rate.~~ are eligible to receive 3% promotional increase, or the next step in the higher classification, whichever is greater, though not to exceed the top step of the new classification.~~which may place them at a higher step~~.

An employee appointed at a pay step above the entry step shall advance to the next pay step on the employee's job class anniversary date, consistent with the step advancement schedule applicable to employees appointed at the entry step. ~~Placement at a pay step higher than entry shall be treated the same as time served in a classification for the purposes of advancing to a classification's next pay step.~~

~~Placement at a pay step higher than entry shall be treated the same as time served in a classification for the purposes of advancing to a classification's next pay step.~~

13.2 The City agrees that permanent or probationary employees within a bureau shall have an opportunity for an interview for promotions within that bureau, subject to qualifications through proper Bureau of Human Resources procedures. "Qualifications" means the ability to meet the performance requirements and job-related skills required for the job in question, but not based solely on Civil Service certification.

13.3 **Promotional Probationary Period.** For the purpose of this labor agreement, probation for promotion is defined as a six (6) month period from date of hire into the job classification, excluding any
period of time off exceeding one (1) week in duration. The promotional probationary period may be extended for a period not to exceed three (3) months by mutual agreement between the City, the Union and the affected employee.

Article 14 Layoff/Recall

14. Layoff/Recall
Layoff and recall of employees shall be as provided in this section.

14.1 **Seniority within Classification.** Seniority for purposes of layoff and recall shall be determined as the length of continuous service, from the date of ~~permanent~~ appointment to the classification listed in Schedule A. An employee will not lose classification seniority in previously held classifications as a result of accepting permanent or temporary appointment to another classification in the City of Portland that is covered by a Union Collective Bargaining Agreement. ~~.~~

Continuous service shall be broken and accrued seniority canceled, by resignation, dismissal, or retirement~~, voluntary demotion, or movement to a classification not listed in Schedule A.~~ However, seniority shall continue to accrue during layoff, disability retirement and approved leaves of absence.

~~Seniority in a job classification consolidated prior to March 17, 1988 shall be as determined at the time of consolidation by the Civil Service Board. Seniority in a job classification consolidated after March 17, 1988 shall be equal to the total permanent service in all job classes included in the consolidated classification.~~

14.2 A tie in classification seniority shall be broken and greatest seniority determined by:

14.2.1 the highest score on the eligible list from which appointment was made; if a tie remains, then,

14.2.2 the greatest length of service with the City; if a tie remains, then,

14.2.3 the date and time of receipt of the application by the Human Resources Bureau; if a tie remains, then,

14.2.4 by random draw, which may include a coin toss.

14.3 It is recognized from time to time that a seniority inequity may exist in multiple appointments in a bureau and classification where an employee is required by the City to delay the starting date in a new position. In those instances, the employee may submit to the Human Resources Director a request for the seniority adjustment within thirty (30) days of the delay.

14.4 **Reductions in Force.** In the event an employee's position is abolished, an employee shall be permitted to bump as follows, providing the employee is qualified to perform the work and meets the skills, knowledge and ability requirements for the position which have been designated in existing classification specifications by the Bureau of Human Resources:

14.4.1 Into the employee's choice of either a vacancy in the same classification in the employee's assigned work unit or a position held by a less senior person ~~a vacancy~~ in the same classification in the employee's assigned work unit ~~bureau with the same shift(s) and days off;~~ if none, then, provided the affected employee has greater seniority:

14.4.2 Into the employee's choice of either a vacancy in the same classification in the employee's assigned bureau or a position held by a less senior person a vacancy in the same classification in the employee's assigned bureau with the same shift(s) and days off; if none, then, provided the affected employee has greater seniority:~~Into the position held by the least senior person within the employee's current classification within the bureau with the same shift(s) and days off; if none, then:~~

~~14.4.3~~ Into the employee's choice of either a vacancy in the employee's classification citywide or a position held by a less senior person in the employee's classification citywide; if none, then:~~Into a vacancy in the same classification in the employee's assigned bureau; if none, then:~~

~~Into the position held by the least senior person within the employee's current classification within the bureau; if none, then:~~

~~Into a vacancy in the employee's current classification City-wide; if none, then:~~

~~14.4.4 Into the position held by the least senior person within the employee's current classification City-wide; if none, then:~~

~~14.4.5~~14.4.3 At the full-time employee's option, into a part-time or job share position in the employee's current classification, in the bumping sequence as defined in 14.4.1 through 14.4.6 above; if not, then:

~~14.4.6~~14.4.4 Into previous classifications in inverse chronological order, where the employee held permanent status, in the bumping sequence as defined in 14.4.1 through 14.4.6 above.

~~14.4.7~~14.4.5 A part-time or job share employee shall have bumping rights as described in 14.4 above except that a part-time or job share employee shall not displace a full-time employee.

~~14.4.8~~14.4.6 ~~No layoffs or reduction to a lower classification shall be executed so long as there are temporary employees serving within the affected classification.~~

14.5 **Recall**

14.5.1 If an employee has been transferred because of a layoff, that employee shall have the right to transfer back to their former classification in the bureau or division from which they were transferred, if the City is going to reemploy an employee in that classification in that bureau or division. The transfer back shall be on a strict City-wide seniority basis in the classification of the employee at the time the transfer occurred.

14.5.2 The City shall re-employ laid off employees in a strict seniority basis for the classification from which the employee was laid off.

14.5.3 Employees shall be placed on a recall list for the classification from which layoff occurred, for five years, or removal as defined in 14.5.6 below, whichever occurs earlier.

14.5.4 The employee, by notifying the Bureau of Human Resources in writing, may become unavailable for recall no more than one specified period, except when documented medical evidence or lack of both personal and public transportation prevent the employee from being available for work.

14.5.5 On re-employment of laid off employees, the City shall notify the employee by Certified Letter, with a copy to the Union, mailed to the employee's last known address. The employee shall have ten (10) working days to report their intentions to the City and shall report to work within four (4) weeks after notification to the City.

14.5.6 Reappointment to the classification from which the employee was laid off, shall result in the employee's removal from the recall list and right to recall.

Article 15: Holidays

15. Holidays

15.1 The following holidays shall be recognized and observed as guaranteed paid holidays:

15.1.1 New Year's Day, Martin Luther King's Birthday, Presidents Day, ~~Day after the Super Bowl~~, Memorial Day, May Day, ~~May Day,~~ Juneteenth, Independence Day, Labor Day, Veterans Day, Thanksgiving Day, the day after Thanksgiving, Christmas Eve, ~~Christmas Eve,~~ Christmas Day and every day appointed by the President or the Governor of the State of Oregon as a universal holiday for all citizens.

Whenever one of the above listed holidays falls on a Saturday, the Friday before said holiday shall be considered as a holiday and paid for as such. Whenever a holiday falls on Sunday, the following Monday shall be considered as a holiday and paid for as such.

15.1.2 When a holiday is observed on an employee's regularly scheduled solitary day off, the employee will be permitted to defer the holiday with pay until a later date as described in section 15.2 below.

When a holiday falls on an employee's first regularly scheduled day off, the day before the holiday shall be considered the holiday and paid as such. If the holiday falls on the employee's second or more contiguous days off, the first scheduled work day following the holiday shall be considered the holiday and paid as such.

15.1.3 Notwithstanding the foregoing, those crews or work units which operate seven (7) days per week, will observe Christmas on December 25, New Year's on January 1, Veterans Day on November 11, Juneteenth on June 19 and Independence Day (the Fourth of July) on July 4.

15.1.4 In operations that run a night shift and the operation is shut down on a holiday by mutual agreement between the supervisor and the Union, employees will be allowed the choice of holiday eve as their

holiday rather than the night of the holiday.

15.2 **Holiday Pay.** Eligible employees shall receive holiday pay equal to each employee's regularly scheduled work shift for each of the holidays set forth above on which they perform no work. (For example, an employee who is regularly scheduled to work an 8 hour shift will be paid 8 hours holiday pay; an employee regularly scheduled to work a 10 hour shift will be paid 10 hours holiday pay.) In addition to an employee's holiday pay, employees shall be paid the overtime rate for any holiday they are required to work. However, if an employee is regularly scheduled to work on a holiday, they will be permitted to defer the holiday with pay until a later date. An employee under this section can accumulate no more than ten (10) deferred or postponed holidays. Deferred or postponed holidays will be taken at a time mutually agreeable to the City and the employee. Prior to the use of any vacation time, any deferred or postponed holiday time must be taken. The employee will endeavor to schedule the deferred or postponed holiday within the calendar year it accrues. The language of this section applies to all letters of agreement attached to this contract.

15.2.1 Full-time employees who are on work schedules other than eight (8) hours per day, five (5) consecutive days per week will receive full vacation and sick leave accrual for each of the observed holidays for which they are entitled to be paid.

15.2.2 An eligible employee shall be any employee who has been an employee of the City at least one (1) day prior to the holiday.

15.2.3 No employee shall receive holiday pay if the employee is absent on their scheduled work day either immediately preceding or immediately following the holiday, unless the employee was in paid status for such day before and day after, or unless the employee has previously applied to their supervisor in writing for permission to be so absent. However, in emergency situations where an employee is unable to procure prior approval for such absence they may submit a written request for holiday pay, stating the reason for their absence to their supervisor. If the supervisor considers the reason for the absence excusable, the holiday pay shall be paid.

Should the supervisor either question the validity of the request or

consider the reason for the absence insufficient cause for being absent, the supervisor shall contact the Union to discuss the case and together the Union and City shall render a decision. If no agreement is reached, the matter shall be referred to the Human Resources Bureau for review. The deliberation and decision shall be based upon both the following considerations:

(a) whether the absence would have been granted had prior approval been sought, and in addition;

(b) whether the reason for not seeking prior approval was a valid one. Such decision shall be final and binding and not subject to the grievance procedure.

15.2.4 If a holiday is observed during an employee's vacation period, the employee shall be paid for such holiday and it shall not count against the employee's accumulated vacation leave.

15.2.5 If an employee is on sick leave and a holiday is observed, the employee shall be paid for such holiday and it shall not count against their accumulated sick leave.

15.3 **Personal Holidays**

13.1.1.1. After completion of ~~thirty (30) days~~ six (6) months of service, each regular full-time employee covered by the terms of this Agreement shall receive personal holiday time based on ~~six (6)~~ three (3) times their normal shift length per calendar year. "Normal shift length" will be determined by taking a snapshot of each eligible employee's work schedule on the first day of the first pay period in January. Effective January 1, 2027, employees that report in-person one hundred percent of the time will receive three (3) additional personal holidays each calendar year for a total of six (6) days.

15.3.1 After completion of ~~thirty (30) days~~ six (6) months of service, each regular part-time or job-share employee covered by the terms of this Agreement shall receive personal holiday time prorated for their Full Time Equivalent (FTE) designation per calendar year. Employees that report in-person one personal holiday time prorated for their Full Time Equivalent (FTE) designation per calendar year. For example, a .75 FTE working a 4/10 schedule would receive twenty-two and a half (22.5) hours if they have a

hybrid or remote status or would receive forty-five (45) hours if they have a fully in-person status hundred percent of the time will receive ~~twenty (24) hours~~twelve (12) hours personal holiday time per calendar year.

15.3.2 Personal holidays shall be maintained in a separate quota account and will be added to each eligible employee's personal holiday account at the end of the first pay period in January of each year. Personal holidays shall be exercised and scheduled at employee discretion, not subject to supervisory approval or denial.

15.3.3 Personal holidays may only be used during the calendar year in which they accrue. Failure to use the personal holidays by the end of the calendar year will result in forfeiture of that portion of the personal holiday time not used.

16.2 An employee's vacation is deemed earned and shall be credited each payroll period.

16.3 In computing total amount of service as used in 16.1 above:

16.3.1 Includes time taken while on leave of absence with pay or for military or parental leave without pay.

16.3.2 Includes any time under temporary appointment in City service employment, the Exposition-Recreation Commission, and the Portland Development Commission.

16.3.3 Includes absence because of an on-the-job injury up to one (1) year.

16.3.4 Excludes time in City service for which the employee receives pension benefits.

16.4 Employees shall continue to earn vacation credit for:

16.4.1 A cumulative period of one (1) year because of time lost for each on-the-job injury, provided that the employee returns to work in accordance with Human Resources Administrative Rule (HRAR)

7.08. However, should such on-the-job injury result in disability retirement, the employee will be paid for such accrued vacation up to the one-year maximum accrual.

16.4.2 Any authorized leave of absence where an employee continues their pay status.

16.4.3 Any authorized personal leave(s) of absence not to exceed a cumulative total of thirty (30) days in any calendar year.

16.5 The total number of vacation hours accrued at the end of the first payroll period in January cannot exceed an employee's vacation accrual for the preceding twenty-four (24) month period. Any excess credit at that time will be forfeited. Except, however, if during the month of December, the City requires an employee to work their vacation period that was previously scheduled and approved, the amount of vacation worked may be carried over in addition to two (2) years' accumulation.

16.6 Vacation credits will not be available for use until the employee has completed thirty (30) days of service. Whenever an employee with more than thirty (30) days service is laid off or terminated, the employee's vacation time shall be paid in a lump sum.

16.7 **Vacation Scheduling.** Vacation selections shall be by classification on the basis of seniority within the bureau and division thereof in which they are employed.

16.8 Each employee will be entitled to exercise their seniority for only one (1) vacation period selection each calendar year.

16.9 A bureau and the Union may mutually agree to implement an alternative method of approving vacations. The agreement can cover a work unit, a classification, or an entire bureau. Any such agreement will be made in writing and will be copied to the Union and the Bureau of Human Resources Director prior to implementation.

16.10 The bureau and the Union agree that either party may terminate an agreement created under

16.9 at any time for any reason upon thirty (30) days written notice to the other party. The bureau will then revert to vacation selections established by the bureau under 16.7 and 16.8.

16.11 The deadline for management to approve or deny requests for annual vacation bidding and ad-hoc vacation requests will be two (2) weeks for annual vacation bidding from the end of the bidding process and three (3)~~five (5)~~ business days for ad-hoc vacation requests. These managerial deadlines are to ensure employees have the opportunity to plan and organize the logistics of their vacations.~~–~~ Nothing contained within this Article shall be interpreted to prevent an employee from taking one or two day vacations with less than three (3) days' notice by mutual agreement between the employee and their immediate supervisor.

Ad hoc vacation request is any vacation request submitted outside of the annual vacation bidding process. Seniority will apply only to vacation selections made through the annual vacation bidding process and will not apply to ad hoc vacation requests. Ad hoc vacation requests will be considered on a first-come, first-serve basis, subject to operational needs.

16.12 Employees shall have the right to determine their vacation times based on seniority as provided in Article 16.7 and 16.8. However, employees must receive prior approval for use of vacation time. Vacations for durations of longer than four~~five~~ (4~~5~~) weeks shall be subject to the approval of the Bureau Director or their designee. After an approved vacation of longer than four~~five~~ (4~~5~~) weeks, employees must return to work for a minimum of two (2) weeks before taking additional vacation. ~~Nothing contained within this Article shall be interpreted to prevent an employee from taking one or two day vacations upon reasonable notice and by mutual agreement between the employee and their immediate supervisor.~~

~~16.12~~16.13 Once an employee's vacation time has been scheduled, the City shall not cancel such scheduled vacation time unless the needs of the operation so dictate. If the employee feels their scheduled vacation was canceled without good reason, the matter will be subject to the regular grievance procedure. If the City is found to be in violation of this Article, the employee will be paid at time and one-half (1-1/2) for the time worked during the scheduled vacation, with no loss of accrued vacation time. Furthermore, the City will make every effort to accommodate the employee in rescheduling the employee's new

16.14 No allowance shall be made to an employee for sick leave during a period designated in advance for vacation purposes; except upon a determination by the Commissioner in charge, or the Auditor as to their department, that the injury or illness was of a serious nature. Prompt notification of the injury or illness, and clearance by the person in charge of the employee's payroll unit, shall be made as provided by City policy.

16.15 ~~**Emergency Leave Bank:** Employees shall have a bank of five (5) days of additional vacation leave each calendar year for personal emergencies. Emergency Leave bank hours may be used without prior supervisor approval.~~

~~**Emergency Leave Bank: Bank:** Employees may use up to a maximum ofshall have five shall have five (5) (3) three days of additional additional vacation leave each calendar year for personal emergencies. Emergency Leave bankbank may be used without prior supervisor approval.~~

Emergency Leave Bank: Employees shall have a bank of five (5) days of additional vacation leave each calendar year for personal emergencies. Emergency leave bank hours may be used without prior supervisor approval.

16.16 **Vacation Sell Back.** Employees may elect to sell up to a maximum of forty hours (40) of accrued vacation back to the City.

16.17 Bargaining unit employees will have the option to be voluntarily paid out for up forty (40) hours of their accrued but unused vacation time, one time per calendar year, from January 1st to December 31st, each year through the duration of the agreement.

16.18 As per IRS requirements, employees must designate in writing their irrevocable agreement to sell back vacation time in the following calendar year (e.g., if an employee intends to sell back vacation in the 2027 calendar year, the employee must submit their written request before the end of the 2026 calendar year).

~~16.13~~16.19 Vacation hours may only be sold if earned in the same calendar year.

17. Health and Life Insurance

17.1 **Labor/Management Benefits Committee**

17.1.1 The parties agree to the continuation of the City-wide Labor/Management Benefits committee. ~~The committee will consist of fourteen (14) members.~~ One member shall be appointed from each of the following labor organizations: the District Council of Trade Unions (DCTU), AFSCME Local 189, the Portland Fire Fighters' Association (PFFA), the Professional and Technical Employees, Local 17~~City of Portland Professional Employees Association~~ (PROTEC17), Portland Police Association representing Emergency Communications Operators (PPA-BOEC), LiUNA Local 483 representing Recreation Employees (Recreation), the Portland Police Commanding Officers Association (PPCOA), AFSCME Local 189 representing the Auditor's Office, City of Portland Professional Workers (CPPW), and LiUNA Local 483 representing Portland City Laborers. The remaining ~~seven (7)~~ members shall be appointed by the City. There will be an equal number of representatives from Labor and the City.

17.1.2 A quorum of ~~twelve (12)~~ voting members is required for the committee to take action. An absent committee member may designate a substitute with full voting authority or designate another committee member as proxy to vote on the absent committee member's behalf.

17.1.3 The committee shall select its chairperson, who shall serve at the will of the committee.

17.1.4 In order to make a recommendation to the City Council, a quorum of ~~at least twelve (12)~~ committee members must vote in favor of the recommendation. The committee shall be responsible for establishing internal committee voting and decision-making processes.

17.1.5 Members of the committee shall be allowed to attend committee meetings on-duty time. In the event meetings are scheduled outside the regular shift hours of a committee member, the City shall make every effort to adjust the shift of the member to allow the member to attend while on duty.

17.1.6 The committee shall meet at least quarterly and shall make written recommendations regarding plan design changes in the employee benefits program to the City Council no later than April 1st of each year.

17.1.6.1 The City Council shall retain the discretion to implement or reject any of the committee's recommendations. In the event the committee makes a recommendation that is consistent with the committee's authority, is actuarially sound and meets all the requirements of federal, state and local laws, and Council rejects the recommendation, any reductions in plan costs that may have occurred due to the change in plan design, will be treated as having occurred for the purposes of calculating the maximum City contribution under this agreement. These costs will be calculated by evaluating the premiums and/or rates as if the changes had occurred, the rates and/or premiums absent the changes, and the number of participants under the plan(s) involved. For example, if the self-insured plan two party rate would be $298 per employee per month with the addition of a benefit design change "X", but Council rejects the design change and therefore the two party rate is $350 per month per employee, the City contribution will be increased $52 per month per employee on the self-insured plan to give credit for the change.

Employees who become ineligible for participation in City benefit plans will have the right to continue coverage on a self-pay basis in accordance with state and federal law and/or as described in this labor Agreement.

Medical, dental, vision and life insurance benefits will be paid at 100% of the City contribution for those employees who have regularly scheduled hours of at least seventy-two (72) hours in a pay period. ~~in a benefits eligible, budgeted position.~~

18.1 General.

Sick leave may be used for an employee's own illness, injury or other health condition, including medical and dental appointments. Sick leave may also be used by victim of domestic violence, criminal harassment, sexual assault, or stalking and to care for a family member as provided by the City's Human Resource Administrative Rules and/or state and federal law. ~~The City will continue for the life of this agreement to provide its employees with the sick leave plan and program presently in effect, except as modified as follows:~~

Permanent employees, including those in probationary status, shall accrue four (4) hours of sick leave for each two (2) weeks of service unless the employee is in non-pay status for an entire pay period and shall be eligible for use of earned sick leave after thirty (30) days service with the City. An employee shall be entitled to use a maximum of four (4) consecutive work days' sick leave without a signed doctor's note~~certificate~~ if the employee has accumulated not less than four hundred (400) hours of sick leave. Otherwise, the employee will be entitled to use a maximum of three (3) consecutive work days' sick leave without a doctor's- note~~certificate~~. When a doctor's note~~certificate~~ is required, it will contain the doctor's name, address, and phone number, the date of treatment, ~~and~~ the date the employee may return to work, and any restrictions of their ability to perform the essential functions of their job. ~~If the City desires to verify the authenticity of a doctor's certificate, the employee may be required to furnish the doctor's name, address and phone number.~~ If the employee is aware that their condition will require more than two (2) days sick leave usage, they will inform their supervisor of the approximate time of return. Employees may accumulate unlimited sick leave.

~~18.1~~

Time for medical and dental appointments will be charged against accrued sick leave. ~~Employees may accumulate unlimited sick leave.~~

Prior to taking any action concerning sick leave abuse, the supervisor will notify the employee that their sick leave usage appears to be excessive. The purpose of the notification is to allow the employee the opportunity to identify the specific reasons for the usage of sick leave, and to assist the employee in a cooperative effort to alleviate the cause of the problem.

Any one or a combination of the following criteria, that is not protected by City, State, or Federal law, may indicate sick leave abuse/misuse:

1. More than 64 hours of unprotected sick leave usage in a calendar year.
2. When 25% or more of the employee's incidents of usage have been in conjunction with regular days off, vacation days, "prime days" (Friday, Saturday, or Sunday), or some other specific pattern of usage.
3. If the City can show reasonable proof of sick leave misuse. Documented usage not to be

considered as sick leave abuse include:

1. Long term non-occupational illnesses.
2. Non-service connected injuries.
3. Chronic conditions which are not service connected or occupational, but render an employee temporarily unable to perform their duties.

18.2.3 Payments made by the City under subsections 18.2.1 and 18.2.2 shall not be charged to accrued sick leave.

18.2.4 If an employee exhausts all benefits in 18.2.1 and 18.2.2 above, and remains employed with the City, the City shall maintain the employee's health and welfare insurance benefits for a period not to exceed twelve (12) months of the employee's industrial accident leave, providing the employee was eligible for City-paid benefits at the time of the accident. The subject of waiver of premium for employees in this category will be referred to the Insurance Committee for review and report.

18.3 **Sick Leave Utilization Upon Retirement**

18.3.1 The City agrees to convert sick leave pay, upon retirement to a PERS supplement, as contemplated by ORS 238.350, or on an equivalent basis for those employees covered by a retirement

22.14.1 An employee who receives a citation (including a parking citation) while operating a city vehicle, shall report the citation to their supervisor by their next working day. The parties agree that the employee is responsible for payment of any fine(s).

22.14.2 Operating a city vehicle without a valid license, failing to report the loss of a license or failing to pay any fines related to a citation received while operating a city vehicle may subject employees to disciplinary actions.

22.14.3 **First Occurrence.** On the first occasion when an employee, who is required to have a valid driver's license as a condition of employment, reports a lack of a driver's license, the employee will be accommodated in a non-driving assignment in the same or lower job classification for thirty (30) calendar days. If the employee does not have a license at the end of the thirty (30) day accommodation period, the bureau may transfer the employee to a non-driving assignment in the same or lower job classification or lay off the employee, at the bureau's sole discretion. If the employee receives a valid license within ninety (90) calendar days after the loss of the license, the employee will be returned to work. If the employee receives a valid license after ninety (90) calendar days after the loss of the license, the employee will be subject to recall under the provisions of Article 14. The bureau will, at the request of the employee, provide the employee with a letter that verifies the employee's work location and schedule for the purpose of providing the employee with necessary documentation to obtain an occupational license. If an employee obtains an occupational license, the City~~'s~~ Risk ~~Manager~~ will review and determine whether to allow the employee to continue to operate city vehicles.

22.14.4 **Second Occurrence.** If within three (3) years from the first loss of a license, an employee again reports a lack of a driver's license, the employee may be accommodated in a non-driving assignment in the same or lower job classification or may be laid off at the bureau's sole discretion. employees are unable to maintain medical certifications under such circumstances, the parties agree to treat the affected CDL employees as follows:

22.14.7 **Lack of Knowledge/Active Management Initial Thirty (30)-day Accommodation.** Where an employee has not been medically diagnosed or otherwise informed of a CDL medical certification-

impacting medical condition, or where an employee can establish that they are engaged in active and affirmative efforts to manage their CDL medical certification- impacting medical condition, and where the employee's medical certification lapses or is otherwise

lost for no more than thirty (30) days, the employee will be accommodated by not being assigned CDL-vehicle operation duties for thirty (30) calendar days. In such instances, although a record may be kept of the lapse or loss, there shall be no adverse employment action or other prejudice related to or based on the lapse or loss.

22.14.8 **Extended Initial Accommodation.** If the employee does not have a valid and current medical certification at the end of the thirty (30) day initial accommodation period, and if the bureau can continue to provide placement in an assignment where CDL-vehicle operation duties can be temporarily avoided without adverse impact to the bureau efficiently completing its scheduled work, the employee shall be assigned accordingly. If at any point after thirty

(30) days, however, continuation of the same or other accommodation cannot be made without adverse impact, the bureau may transfer the employee to another assignment in the same or lower job classification or may lay the employee off. If transfer is made to an assignment in a lower job classification, the employee shall be temporarily demoted until reassigned in their previous classification with no loss of seniority.

22.14.9 **Regaining Certification/Failure to Obtain.** Affected employees, who regain their medical certifications before the expiration of ninety (90) days from the date of the lapse or loss, will be reassigned to their regular classification. A record of the lapse or loss may be kept; in instances where the employee is actively seeking to obtain medical certification following lapse or loss, such lapse or loss may not be considered for future discipline, but in instances where the employee has failed to actively seek recertification, the lapse or loss may be referred to and relied on in the event of a subsequent like instance of failure to actively seek recertification occurring within three (3) years of the prior instance. After ninety (90) days without a valid and current medical certification, a laid off employee will be subject to the recall provisions of Article 14 provided they meet the eligibility requirements under the federal regulations.

22.14.10 **Subsequent Loss or Lapse of CDL Medical Certification.** If an employee who has had a lapse or loss of more than thirty (30) days before obtaining valid and current medical certification subsequently obtains medical certification in their next certification cycle without lapse or loss, or with a lapse or loss of not more than thirty (30) days, the employee's prior lapse or loss of more than thirty (30) days may not subsequently be relied upon as a basis for subsequent adverse employment action. If, however, an employee has a second consecutive lapse or loss of more than thirty (30) days, the employee may be laid off at the bureau's sole discretion.

22.14.11 **Lack of Proof of Active Management Initial Thirty (30)-day Accommodation.** Where an

employee has been medically diagnosed or is otherwise aware of a CDL medical certification- impacting medical condition, and where the employee cannot establish that they are engaged in active and affirmative efforts to manage their CDL medical certification- impacting medical condition, the employee will be accommodated for a medical certification lapse or loss of no more than thirty (30) days by not being assigned CDL-vehicle operation duties for thirty (30) calendar days. In such instance, however, a record of the lapse or loss shall be permanently retained and may be the basis of subsequent adverse employment action.

22.14.12 **No Extension of Accommodation.** At any point after thirty (30) days, the bureau may transfer the employee to another assignment in the same or lower job classification or may lay the employee off, at the bureau's sole discretion. If transfer is made to an assignment in a lower job classification, the employee shall be temporarily demoted until reassigned in their previous classification with no loss of seniority.

22.14.13 **Regaining Certification/Failure to Obtain.** Affected employees, who regain their medical certifications before the expiration of ninety (90) days from the date of the lapse or loss, will be reassigned to their regular classification with no loss of seniority. Affected employees who fail to obtain a medical certification after ninety (90) days will be laid off. Employees who are laid off will be subject to the recall provisions of Article 14.

22.14.14 If, however, an employee has a second lapse or loss within four (4) years where the employee cannot establish that they are engaged in active and affirmative efforts to manage their CDL medical certification-impacting medical condition, or has a second lapse or loss of more than thirty (30) days within four (4) years, the employee may be laid off at the bureau's sole discretion.

22.15 **Hazardous Materials.** Employees required to handle hazardous materials in the course of their employment, shall receive instructions as to the safe procedures for the handling of such materials, in conformance with State and Federal regulations.

22.16 **Pregnancy Accommodation.** If during the first seven (7) months of pregnancy, a pregnant employee presents supporting medical evidence, the City on request will attempt to make reasonable accommodation regarding available work within the employee's classification for a period not to exceed sixty (60) days.

22.17 Reasonable Suspicion of Drug or Alcohol Use.

22.17.1 For purposes of this Article, the following definitions apply.

b. Alcohol: colorless, volatile and flammable liquid that is the intoxicating agent in fermented and distilled liquors. Includes, but is not limited to, beer, wine, and

liquor.

c. Drugs: any controlled substance included in ORS 475.005, including marijuana, or prescribed drugs which have not been legally obtained or are not being used for the purpose for which they were prescribed.

d. Drug paraphernalia: any item which is clearly intended for use for the administering, transferring, manufacturing, testing or storing of a drug.

22.17.2 The City reserves the right to determine whether reasonable suspicion exists. Only managers and supervisors trained in the signs and symptoms of drug and alcohol use may refer employees for reasonable suspicion testing. Circumstances which constitute a basis for determining "reasonable suspicion" may include, but are not limited to, direct observation of any of the following:

a. On-duty use or possession of alcohol;

b. On-duty use or possession of drugs or drug paraphernalia;

c. On-duty odor of alcohol;

d. On-duty physical symptoms of drug or alcohol use (e.g., glassy or bloodshot eyes, slurred speech, poor coordination or reflexes);

e. On-duty indications of chronic and/or withdrawal effects of alcohol or drugs;

f. Pattern of abnormal conduct, erratic behavior or deteriorating work performance which can reasonably be attributed to alcohol or drug use.

22.17.3 Where the City has reasonable suspicion to believe that an on-duty employee possesses or is under the influence of alcohol or drugs, including marijuana, the City may require that the employee immediately consent and submit to a urine and breathalyzer test. The City shall pay the cost of these tests, and employees will be paid for time spent in the testing process. A refusal to consent and submit to such tests shall subject an employee to discipline up to and including termination. Refusal to consent and submit means:

a. Refusing a directive to submit to a required test;

b. Inability to provide a urine specimen or breath sample without a valid medical reason confirmed by a physician;

c. Tampering, adulterating, or substituting a specimen or any other attempt to defeat or obstruct an alcohol or drug test;

d. Leaving the collection site before the testing process is complete;

e. Failing to permit an observed collection when required;

f. Failing to submit to a second test when required;

35.1 To promote better City-employee relationships, all parties pledge their immediate cooperation to settle any grievances or complaints that might arise out of the application of this Agreement, and the following procedure shall be the sole procedure to be utilized for that purpose. The parties further agree that all meetings under this procedure will be conducted in a professional manner and in a spirit of mutual respect consistent with mutual resolution of grievances arising under this agreement.

35.2 If there is a breach of any provision of this Agreement affecting a group of employees, or if the breach of any provision of this Agreement is the result of an agreement reached between the City and an employee without the approval of the Union, the Union shall have the right to take up such breach with or without the consent of the employees or employee involved.

~~35.2~~35.3 The remedy for any agreed upon breach of contract that financially impacts an employee shall include full financial compensation that makes the employee whole.

~~35.3~~35.4 **Procedure**

~~35.3.1~~35.4.1 **Time Limits.** It is important that grievances be processed as rapidly as possible. The number of days indicated at each level should be considered as a maximum, and every effort should be made to expedite the process. The time limits specified may, however, be extended by mutual agreement. Failure by the City to respond in writing within the time limits at each level shall render the grievance automatically appealed to the next level in the grievance procedure. The Union will advise the appropriate individual at the next level within a reasonable period of time.

~~35.3.2~~35.4.2 **Informal Level.** Before initiating a formal written grievance at Level One, the employee may~~shall~~ attempt to resolve the matter by informal conference with their immediate designated supervisor outside the bargaining unit. If the immediate supervisor is not available, the employee shall attempt to contact another supervisor or manager. The employee shall notify the Union, and a representative of the Union shall be given the opportunity to be

present at any meeting under this section. Either party may declare that the informal level has been completed. The action under dispute will cease until the grievance is either settled or an arbitration decision is made.

~~35.3.3~~35.4.3 Upon appeal of any discharge, demotion or suspension before the Civil Service Board any grievance filed under the terms of this *Agreement* shall be withdrawn.

~~35.3.4~~35.4.4 **Level One -- Bureau Head or Designee**

a. If a dispute is not resolved at the informal level, the employee or Union shall file the grievance in writing to the Bureau Head or Designee within one year ~~thirty (30) calendar days~~ of the claimed violation.

b. The grievance statement shall specify (each of) the provision(s) of this Agreement claimed to be violated and the manner in which such provision is claimed to have been violated, all pertinent information, and the remedy sought~~, and~~ shall be signed by either the employee(s) or by the Union.~~(each of) the employee(s) and/or by the Union.~~ The Grievant and the Union have a good faith obligation to be as complete and forthcoming as possible in making this statement and providing information regarding the grievance.

a. The parties shall meet to discuss the grievance with the appropriate bureau head or designee to whom the grievance is submitted and the bureau head or designee shall communicate their decision, along with the reasons therefore, to the employee and the Union in writing within twenty-one (21) calendar days after having received a timely appeal to Level One.

35.1.2 **Level Two -- Human Resources and City Council President ~~Commissioner in Charge~~**

a. If the employee or the Union is not satisfied with the disposition at Level One, the employee or the Union may appeal the grievance to the Bureau of Human Resources and the the City Council President ~~Commissioner in Charge~~ at Level Two within fourteen (14) calendar days after receiving notice of the Level One decision.

b. The Union or the Grievant with the concurrence of the Union shall have the right to perfect the grievance prior to Level Two with the understanding that the right to perfect is limited to the substantive issues previously raised in the grievance.

c. The Union shall have a right to take up any disciplinary action brought against a Shop Steward by the City as a grievance at Level Two of the grievance procedure (see Clause 23.2 of this Agreement) within thirty (30) calendar days of receipt of written notice to impose the disciplinary action.

d. A grievance involving a suspension, demotion or discharge shall be filed directly to Level Two no later than thirty (30) calendar days of receipt of written notice of imposed discharge, demotion or suspension.

e. To submit a grievance to Level Two a copy of the grievance shall be filed simultaneously with the office of the Council President ~~Presidentthe Commissioner-in-Charge~~ and the Bureau of Human Resources.

   The Council President~~Commissioner in Charge~~ may either retain jurisdiction at this level of the procedure or delegate the Bureau of Human Resources /bureau head to handle the grievance with full authority to settle it. If the City Council President ~~Commissioner in Charge~~ does not retain jurisdiction of the grievance within seven (7) calendar days after receiving a timely appeal, the grievance shall be considered as having been delegated to the Bureau of Human Resources.

f. The appeal shall include a copy of the original grievance, the decision rendered at Level One, if any, a concise statement of the reasons for the appeal and the specific relief requested.

g. Upon timely filing, the written grievance will be discussed between the employee, the Union involved and the Director of the Bureau of Human Resources/bureau head or their designee within twenty-one (21) calendar days after filing, unless extended by mutual written consent. The Director of the Bureau of Human Resources or their designee shall respond to the grievance within thirty (30) calendar days after the grievance has been filed at Level Two.

h. Upon the timely filing of written grievance as specified herein,

the Union shall have sole discretion as to the processing of such grievance and shall have the right to carry the grievance through the grievance procedure with or without the consent of the employee(s) originally filing the grievance.

35.1.3 **Level Three -- Mediation**

a. If the Union is not satisfied with the Level Two, upon the mutual agreement of the parties it may be referred to mediation within fourteen (30)~~(14)~~ calendar days after the Level Two disposition has been rendered.

The costs of the mediator will be equally split between the parties.

35.1.4 **Level Four -- Arbitration**

a. If the grievance remains unresolved at Level Two or Level Three (mediation), the Union shall have the right to refer the matter to arbitration. In the event the Union elects to do so, it must notify the Bureau of Human Resources of its decision in writing within thirty (30) ~~twenty-one (21)~~ calendar days of denial of the grievance at Level Two or thirty (30) ~~twenty-one (21)~~ calendar days after the close of mediation if the parties agreed to refer the grievance to Level Three.

b. After the grievance has been referred to arbitration, the parties or their representatives shall jointly request the State Conciliation Service for a list of names of seven (7) arbitrators. The parties shall select an arbitrator from that list by such method as they may jointly select, or if they are unable to agree upon a method, then by the method of alternate striking of names under which the grieving party shall strike the first name objectionable to it, and the City shall then strike the first name objectionable to it. The final name left on the list shall be the arbitrator.

c. The arbitrator's decision shall be final and binding, but the arbitrator shall have no power to alter, modify, amend, add to or detract from the terms of this Agreement. The decision of arbitration shall be within the scope and terms of this Agreement and shall be in writing.

d. The City and Union shall divide equally the arbitrator's fee, the

cost of any hearing room and the cost of a shorthand reporter if requested by an arbitrator. All other expenses shall be paid by the party incurring them. If an arbitrator finds that a contract violation has occurred, the City shall pay the Union's legal fees for that grievance.

e. The time limits specified herein shall be jurisdictional unless waived by mutual agreement of the parties. The Union shall have sole authority to determine whether a grievance shall be submitted to arbitration, and any such decision or settlement of the grievance between the Union and the Bureau of Human Resources/Bureau Head in good faith shall be binding on all parties.

f. The parties shall make a good faith effort to avoid unreasonable delay in scheduling arbitration hearings.

36. Warrant of Authority

The officials executing this Agreement on behalf of the City and the Union signatory hereto, hereby warrant and guarantee that they have the authority to act for, bind and collectively bargain on behalf of the organizations which they represent.

It is also recognized by the parties that the only letters of understanding or other agreements considered valid and binding shall be those expressly executed as addenda to this Agreement and agreed to jointly by the Union Business Manager or designee, on behalf of the Union, and by the Human Resources Director, on behalf of the City.

36.1 All Letters of Agreement, Memoranda of Understanding, and all agreements that affect the union shall be signed by the Union Business Manager or their designee, on behalf of the Union, and the Director of Human Resources and shall be considered binding.

37. Savings Clause

Should any part hereof or any provision herein contained be rendered or declared invalid by reason of any existing or subsequently enacted legislation or by any decree of a court of competent jurisdiction, such invalidation of such part or portion of this Agreement shall not invalidate the remaining portions hereof; provided, however, upon such invalidation the parties agree immediately to meet and negotiate such parts or provisions affected. The remaining parts or provisions shall remain in full force and effect.

The parties recognize that both are subject to the Americans with Disabilities Act (ADA) and that nothing in this Labor Agreement may supersede the requirements of that Federal Law.

The parties agree to meet and confer regarding circumstances where the ADA and the Labor Agreement appear to conflict. A showing that a person is disabled and that action taken as a reasonable accommodation is an absolute defense to a contract violation claim.

SCHEDULE BD:

Applicability of Contract Provisions to Seasonal ~~Maintenance~~ Workers

LETTER OF AGREEMENT

Laborers International Union of North America (LiUNA) Local 483 and the City of Portland

Seasonal ~~Maintenance~~ Workers

The parties to this Letter of Agreement (LOA) are Laborers' International Union of North America (LiUNA) Local 483 (LL483) and the City of Portland (CoP). With respect to Seasonal ~~Maintenance~~ Workers, the terms and conditions of the Portland City Laborers contract do not apply unless specifically outlined below.

Preamble Applies.

1 Recognition applies as indicated except:

1.1.1 Seasonal ~~Maintenance~~ Workers have no probationary period.

1.1.5 Seasonal ~~Maintenance~~ Workers may work up to 1600 hours per calendar year.

2. Union Security applies.

3. Dues Check-Off applies.

4. Management Rights applies.

5. Productivity applies.

6. Job Security and Outside Contracting applies.

7. Work Schedules and Workweeks does not apply. Instead the following language applies:

The City maintains the right to establish the start time and length of an employee's regular workday or and the start of an employee's workweek at time of hire. The City also maintains the right to require an employee to work overtime and on a weekend or holiday. The City shall provide the Union written notice of the schedule.

A “‘workweek” is defined as any combination of workdays assigned to an employee for work within a period of seven (7) consecutive days. The beginning of the workweek is the first day following an employee’s two (2) consecutive scheduled days off. For employees having non-consecutive days off, the payroll week will be considered the workweek.

Work schedules—including days of work, start and stop time, and length of work day—may be altered by mutual agreement between an employee and their immediate supervisor.

5.1.2 When an employee is assigned nonconsecutive days off, the time worked on the last scheduled day of the employee’s workweek shall be compensated at time and one-half, provided such compensation is specifically authorized by the Bureau Director.

8. Shifts applies.
9. Overtime applies.
10. Reporting Pay and Minimum Pay applies.
11. Working Out of Classification does not apply. Instead the following language applies:

    Working out of classification shall mean the temporary assignment or appointment of an employee to perform substantially the duties and responsibilities of a higher classification.

    Employees assigned or appointed temporarily to work out of classification will be expected, for the term of such assignment or appointment, to perform the duties normally performed within that classification or by the employee they are replacing in that classification. The employee must be qualified and available to perform the work.

    When an employee is assigned or appointed to a higher classification, the employee shall be paid at entry rate of the higher classification or at a rate that is 5% above the employee’s current base rate of pay, whichever is greater.

    If assigned or appointed in a workday to a higher classification, an employee will receive the rate applicable to such higher classification for a minimum of four (4) hours, eight (8) hours if

assigned to such higher classification over four (4) hours in the workday.

Employees may be eligible to be appointed for work out of classification, based on the usage of certain tools.

A record of upgrade hours worked or offered to each employee shall be maintained in each work unit and available upon request. Such information shall be prominently posted. The equalization of upgrades shall be immediately updated following the scheduling of an upgrade shift. For the purpose of equalization, upgrades offered shall be counted the same as upgrades worked. By mutual agreement, the City and Union may meet to discuss perceived systematic inequities that may be occurring.

12. Seniority does not apply.

13. Promotion applies.

14. Layoff/Recall does not apply. Instead the following language applies:

A Seasonal ~~Maintenance~~ Worker who completed their assignment for the season shall be eligible for re-employment to the same Bureau the following year only, provided in the judgment of the City that the employee is suitable for re-employment. The employee shall be provided written notification of eligibility for re-employment on or before their last scheduled workday. Copies of the notice will be placed in the employee's official personnel file and provided to the Union.

In the event the City determines an employee completing their first season is not eligible for re-employment, that decision may not be appealed or grieved.

In the event the City determines an employee completing their second or greater consecutive season is not eligible for re-employment, that decision may be grieved.

Each Bureau shall first offer seasonal employment to those individuals who are eligible for re-employment under this provision, provided they are available for work and qualified for the assignment, before offering employment to individuals who were not employed as a Seasonal ~~Maintenance~~ Worker the previous year. Each Bureau shall have the discretion to determine which employee among those eligible for re-employment is best suited for a work

assignment. Nothing shall prevent the Bureau from employing new hires if employees who are eligible for re-employment are not available for work.

The City and Union recognize the value Seasonal ~~Maintenance~~ Workers offer and the interest many of these workers have in achieving full time, permanent employment. To assist in the path to permanent employment, when a Seasonal ~~Maintenance~~ Worker is on an eligibility list for a Local Laborers 483 represented position that the City intends to hire from, a minimum of three (3) Seasonal ~~Maintenance~~ Workers shall be given an interview for the position if a sufficient number of Seasonal ~~Maintenance~~ Workers apply. This is not a guarantee of hire, but only the opportunity to interview.

Each year of service as a Seasonal Maintenance Worker shall add points to the grade on the interviewee's score on the grading hiring rubric for Utility Worker and Maintenance Worker classifications.

Each Bureau shall establish its own method for hiring and rehiring Seasonal ~~Maintenance~~ Workers. Managers will consult with Bureau Timekeepers for appropriate guidance.

Notifications of rehire shall be provided at least one month prior to start date. Notification of end of season shall be provided at least one month prior to the Season's end date.

15. Holidays applies, except:

    15.3 Personal Holidays. Instead the following language will apply:

Employees who have worked for more than six hundred (600) hours as a~~in the~~ Seasonal ~~Maintenance~~ Worker ~~Classification~~ are entitled to forty-eight (48) hours of personal holiday per season of work. Personal holiday hours expire at the termination of employment. The use of personal holiday hours must be approved by the supervisor. Supervisory approval may not be unreasonably withheld.

16. Vacation does not apply.

17. Health and Life Insurance does not apply. Instead:

Eligibility. A Seasonal ~~Maintenance~~ Worker and their eligible family members will be eligible for the City-Basic Health Plan, which includes Medical, Dental,

Vision and the Employee Assistance Program (EAP) on the first of the month following their date of hire or rehire.

The employee's additional required Benefits Plan contribution will be withheld from the employee's next paycheck after the enrollment process is complete and any required documentation is received.

In order to continue eligibility for the employee's chosen Benefits Plan, a Seasonal ~~Maintenance~~ Worker must have been paid for one hundred twelve (112) hours in the prior month.

However, employees are allowed to drop below the one hundred and twelve (112) hour monthly requirement twice per calendar year and will maintain their health insurance. In rare exceptional circumstances, the Benefits Manager may allow an employee to be eligible for the employee's chosen Benefits Plan despite multiple months in which the employee has worked less than one hundred and twelve (112) hours.

Coverage Termination. For the term of this Agreement, coverage in the employee's chosen Benefits Plan will end at the end of the month in which the Seasonal ~~Maintenance~~ Worker ends employment or does not meet the hours requirement described in section 29.2; coverage will not be extended for an additional month if the employee's final paycheck is insufficient to cover the required Seasonal Worker Benefits Plan contribution.

City/Employee Contributions. For the term of this Agreement the City shall contribute for each eligible Seasonal ~~Maintenance~~ Worker one hundred percent (100%) of the total employee's chosen plan rates adopted by the City Council for the one party, two party, or family enrollees (whichever applies) for the term of the Agreement.

To meet Federal Affordable Care Act (ACA) requirements, the City will continue its employer contribution for up to six (6) months for any employee who remains employed by the City and who had previously met the ACA eligibility requirement but has reduced hours below the employee's chosen Benefits Plan eligibility requirement.

Employee Opt Out. For the term of this Agreement, a Seasonal ~~Maintenance~~ Worker eligible for a Benefits Plan who provides proof of alternative medical coverage may choose to opt out of the City provided Seasonal Worker Benefits Plan. An employee who chooses to opt out shall not be required to

pay the contribution as outlined in 29.4.2 and shall receive a cash payment every payday as follows:

One party	$50.00 per payday
Two party	$75.00 per payday
Family	$100.00 per payday

18. Sick Leave does not apply. Instead:

Sick leave shall be provided (at a minimum) in accordance with the City of Portland Protected Sick Time Ordinance. Should the Protected Sick Time Ordinance be amended during the term of this agreement, the parties agree to meet pursuant to ORS 243.698 to bargain over the impact of the amendments. All employees shall begin to accrue sick time from their first day of employment and earn one (1) hour of sick time for every 20 hours worked up to a maximum of 80 hours per calendar year.

Rehired employees who return to employment within three (3) years will retain their previously accrued sick time, up to forty (40) hours.

Absence because of sickness, not in the line of duty, allows an employee to use their sick leave. Employees will be required to notify their supervisor.

A “Family Member” is defined as an employee’s spouse, same-gender domestic partner, custodial parent, non-custodial parent, adoptive parent, foster parent, biological parent, stepparent, parent-in-law, a parent of an employee’s same-gender domestic partner, an employee’s grandparent or grandchild, or a person with whom the employee is or was in a relationship of in loco parentis and any individual related by blood or affinity whose close association with a covered individual is the equivalent of family relationship. “Family member” also includes the biological, adopted, foster child or stepchild of an employee or the child of an employee’s same gender domestic partner. An employee’s child in any of these categories may be either a minor or an adult at the time qualifying leave pursuant to these rules is taken.

In situations where an employee’s family member becomes ill or injured and

alternate means of transportation or caring for such a person cannot be arranged immediately by the employee, the employee shall be permitted to use sick leave. The employee may be required to submit a doctor's certificate for any absence of five (5) or more consecutive days.

The Union will advise the appropriate individual at the next level within a reasonable period of time.~~

~~**Informal Level:** Before presenting a written grievance, the employee~~

LETTER OF AGREEMENT

The parties to this Letter of Agreement are the City of Portland (City), on behalf of the Bureau of Environmental Services (Bureau), and Laborers' International Union of North America (LiUNA) Local 483 (Union).

Background

1. The Union was a signatory to the Labor Agreement between the City and the District Council of Trade Unions.

2. On June 29, 1998, the parties entered into a Letter of Understanding (LOU) addressing the manner in which the Wastewater Operators in the Operations and Maintenance work unit will replace other Wastewater Operators at the Bureau's Columbia Boulevard Wastewater Treatment Plant for short-term absences such as vacations, extended sick leave, etc.

3. The parties have determined the need to replace the LOU with a new agreement addressing the changes that have arisen in the intervening years. Based on this determination the parties agree to the following for the Special Operations Group (SOG) Relief Shift Operators (currently referred to as the Relief Pool) at Columbia Boulevard Wastewater Treatment Plant.

Agreement

1. Operators in the Relief Pool are the designated first source of replacements for leave coverage including vacation leaves, sick leaves, dependent care, union leave or jury duties. If these assignments do not involve changing starting times or days off, the Bureau has the authority to utilize Monday through Friday "A" Shift Operators or the Relief Shift Operators. Both parties recognize that employees outside of the Relief Pool are assigned for coverage by seniority on a rotation basis.

2. There will be at least four (4) Relief Pool slots in SOG. Operators in Relief Pool slots will normally be assigned "A" shift, Monday through Friday.

3. The City will designate, in advance of the Open Bid, the specific number of slots within the SOG work unit to be in the Relief Pool slots

~~for the bid year. During the period that this agreement is in effect,~~

LETTER OF UNDERSTANDING
Laborers' International Union of North America (LiUNA) Local 483 and the City of Portland Golf Division

Rest Period Provisions

Upon signing of this Memorandum of Agreement by all parties below, the Bureau of Parks and Recreation and LiUNA Local 483 agree to the provisions as follows:

1. The current Portland City Laborers Labor Agreement has certain rest period provisions as provided for in Article 7.3:

   7.3 Except in case of emergency, all employee's work schedules shall provide for a fifteen (15) minute rest period during each one-half (1/2) shift. Rest periods shall be scheduled at the middle of each one-half (1/2) shift whenever feasible.

2. Upon signing of this Agreement, the Bureau of Parks and Recreation and Laborers' Local 483 agree to the following clarifications of the rest period provisions of the labor agreement;

   This change will continue in force until otherwise provided for.

   The employees of the Golf Division within the Bureau of Parks and Recreation shall waive their morning 15 minute rest period to combine the time with their afternoon 15 minute rest period in order to take a 30 minute rest period in the afternoon.

   This clarification is necessary for safety reasons and the smooth operation of their work responsibilities. Taking a morning break may put them in danger of golf balls and may delay the smooth operation of their work responsibilities.

MEMORANDUM OF UNDERSTANDING

The parties to this Letter of Agreement are the City of Portland (City), on behalf of the Bureau of Transportation Maintenance Operations Group (Bureau), and Laborers' International Union of North America (LiUNA) Local 483 (Union).

BACKGROUND

1. EPA regulations require a written response plan including response times associated with Sewer Overflows. An established, quick response time also reduces City liabilities associated with Sewer Overflows.

2. The Bureau and Union have agreements compensating AEO III Vactor Operators assigned to ESD and Utility Workers II assigned to the Sewer Cleaning Section in an on-call status using a stand-by pay provision. The stand-by pay provisions have been in place and effective since November 25, 2002 and September 19, 2008, respectively, as allowed in the Portland City Laborers Collective Bargaining Agreement, Article 10.4.1.

3. The Bureau wishes to determine if the quick response, efficiency, and safety during call-outs for Sewer Overflows would be enhanced by the assistance of Environmental Systems Crew Leaders and Construction Equipment Operators assigned to the Sewer Repair Section.

4. The purpose of this memorandum is to provide for Environmental Systems Crew Leaders and Construction Equipment Operators assigned to the Sewer Repair in an on-call status using a stand-by pay provision, as allowed in the Portland City Laborers Collective Bargaining Agreement, Article 10.4.

AGREEMENT

1. If the Bureau requires represented employees to stand-by during their off duty hours, the employee shall receive 24 hours pay for 1 week (7 consecutive days) at the straight time rate. Work performed while on stand- by will be paid in accordance with Article 10.2 of the Portland City Laborers Collective Bargaining Agreement.

2. Stand-by shall be defined as a requirement that an employee remain

~~available and fit for callout during non- working time. Employees are responsible for keeping their assigned telecommunications equipment in operation and complying with their stand-by work assignment at all times. Failure to comply with the stand- by work assignments may subject employees to appropriate disciplinary actions.~~

3. ~~The employee on stand-by must respond to the initial contact within one-half (1/2) hour, absent unusual circumstances.~~

4. ~~Employees who are assigned standby time under a Letter of Agreement shall be paid at the applicable straight time rate or shall receive compensatory time for all assigned standby time up to a total accrual rate of eighty (80) hours at any given time. Employees who are assigned standby time under a Letter of Agreement and are called back to work during such assignment shall have the option of pay at the applicable overtime rate or compensatory time computed at the applicable overtime rate up to a total accrual of eighty (80) hours at any one time.~~

5. ~~Notwithstanding any current or future side letters of agreement, or any practices, if any employee is called back to work, either under a stand-by agreement or otherwise, and works less than three (3) hours and is called out again within the three hours, they will not receive a second minimum.~~

6. ~~All stand-by work associated with this memorandum will be related to Sewer Operations.~~

7. ~~The Bureau and Union agree that will terminate six (6) months after the latest signature date below.~~

8. ~~If the parties wish to continue this memorandum after its expiration they will do so by a formal memorandum which will be attached to the Portland City Laborers Collective Bargaining agreement.~~

9. ~~This Agreement is based on the particular facts of this situation and does not establish a precedent for addressing the same or similar situations in the future.~~

Working out of Class $1.00 lower classification premium was presumed at 2,500 hours across the bargaining unit. Specific classification wage and personnel numbers were used to determine the various workgroup relevant premiums (Wastewater Certifications, Tree Risk Assessment Qualification, sewage and paving premiums, etc.). Broad based premiums were based upon presumptions of annual hours of the work performed multiplied by relevant percentage using the $42.69 median hourly wage.

Seasonal Worker LoA	$ 4,116,898.00	$ 654,787.43	$ 674,431.05	$ 691,291.83	$ 2,020,510.31	Baseline figure provided by the City is actual cost of current Seasonal Maintenance Worker Contract.
