Subject: Worried about our state's economy
Date: Monday, August 31, 2020 2:20:07 PM

Dear Members Board of Forestry,

I'm afraid the bureaucrats who create forest policy refuse to acknowledge that the human element is as much a part of our ecosystem as any other life form, and needs to be a significant consideration moving forward.

That's why I'm writing to ask that you protect Oregon's forest industry and 60,000 family-wage jobs Oregonians need now more than ever.
Why would the Board of Forestry even consider a state Habitat Conservation Plan that does not reflect any concern or understanding of rural county's financial condition or needs?

Please remember the mill workers who count on fiber from state forests. Please remember that rural communities in western Oregon rely upon the revenues from timber harvests to fund schools, libraries and other critical services. Please do the right thing.

Let's manage our forests with our children and grandchildren in mind - making sure our forests and the communities nearby will be healthy and thriving decades from now.

Sincerely,

Mark Huff
