Subject: Worried about our state's economy
Date: Tuesday, September 01, 2020 11:30:09 PM

Dear Members Board of Forestry,

It seems as if the government of this state is bound and determined to make our lives difficult. We are still under stupid, unrealistic and unjustified restrictions on employment because of Covid 19. We don't need anything else which limits our ability to earn a living and take care of our families.

That's why I'm writing to ask that you protect Oregon's forest industry and 60,000 family-wage jobs Oregonians need now more than ever.
Why would the Board of Forestry even consider a state Habitat Conservation Plan that does not reflect any concern or understanding of rural county's financial condition or needs?

Please remember the mill workers who count on fiber from state forests. Please remember that rural communities in western Oregon rely upon the revenues from timber harvests to fund schools, libraries and other critical services. Please do the right thing.

Let's manage our forests with our children and grandchildren in mind - making sure our forests and the communities nearby will be healthy and thriving decades from now.

Sincerely,

Donald Bear
