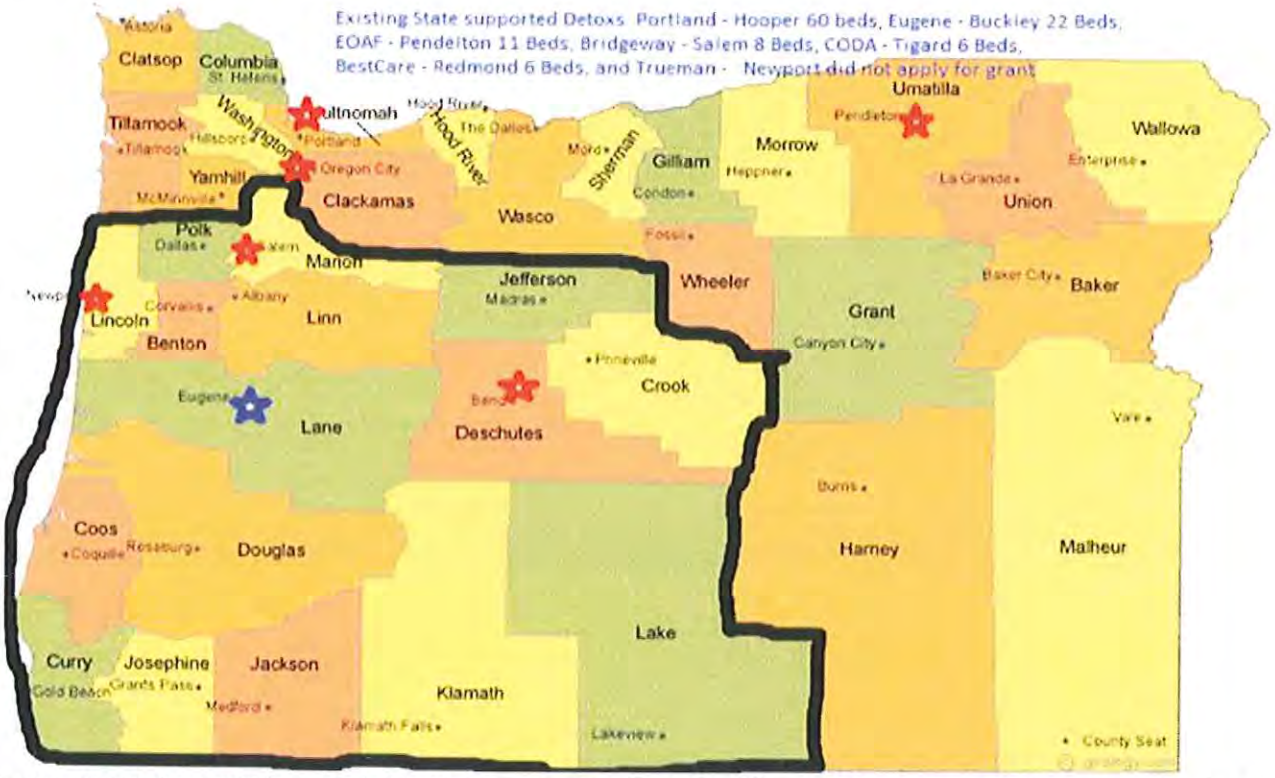
Re: Oregon Health Policy Board Public Testimony
Contracting of Detoxification Services

First of all I want to thank you for including Detoxification Services in the OHP priority list of services. This will have a very positive impact on your mission allowing OHP patients to receive the care they need as they enter the recovery process from the disease of addiction.

As you know AMH has embarked on a path to enhance the outdated of Detox system in the State by offering Enhancement Grants to bring the following existing publicly funded programs up to ASAM III.7D, medically monitored (sub-acute) inpatient detoxification. We have been fully operational at this level of care since May 29, 2012 thanks to this funding. Below is a map of the Detox Programs in the state that are taking part in this enhancement effort.



As you can see, there will be a total of 113 beds at the enhanced level of care in the state when all are operational. I am currently in the process of attempting to contract with 12 FCHP's in the outlined area we see as a possible catchment area for our program. It has occurred to me that you could possibly make this easier for all the programs in the state by administrative action if you can require the new CCOs to contract with these programs statewide at <u>least</u> the established rate for open cards that you set when the service was added to the prioritized list of services. **(Smaller capacity detoxes in the state will have a hard time surviving on the open care rate and will need to charge more due to economy of scale.)**

Swift entry into detox is a critical component of successful addiction treatment for many patients, and the limited number of beds in the state can complicate this entry process unless a patient can go to where a bed is open when they need the service. Delaying the service often leads to continued use, delaying the initiation of services increasing the cost that health plans must bear with continued addictive use and complications resulting from that use.

Since April 1st 2012, Buckley Services has provided the following services to OHP Members:
