Greetings,

Please share this information with permitted workers who have access to your TLC-PTS account.

There is one new feature in TLC-PTS (the product tracking system)!

This feature was released today, 03/07/2025 by 10 AM. To see these changes, please close your browser, open a new browser, and log back into TLC: https://psilocybin.oregon.gov/welcome.

Manufacturers now have a 'Get Harvest Batches' button on the Process Lots page.

- Why was this button built?
  - Some manufacturers were experiencing delays using TLC-PTS. This was because their process lots were a combination of many harvest batches. The system was loading the entire harvest batch history on every process lot, every time.
- How does the 'Get Harvest Batches' button fix the problem?
  - Now the harvest batch history doesn't load on a process lot unless it is specifically requested, using the new button.
- Where is the button?
  - On the Process Lots tab of Manufacturer TLC-PTS Accounts, in the 'Harvest Batch UID' column
- Why do some entries have the 'Get Harvest Batches' button, and some don't?
  - If the process lot comes from more than one harvest batch, the button will show up
  - If the process lot comes from only one harvest batch, the harvest batch number will display instead of the button

Please contact us through TLC-Messages if you have any questions or concerns.

Thank you!
