PUC Data Migration Plan from BizApps, eDockets, and Huddle to Valence system

and

PUC Go-Live Plan for Valence

October 20, 2026

Data Migration from BizApps, eDockets, and Huddle to Valence

On Thursday, January 7, 2027, the PUC will take down its current docketing (BizApps and eDockets) and Huddle discovery systems at 5:00 p.m. (Pacific Time) to prepare for the switch to its new Valence docketing and discovery system. This means that the Filing Center will not be able to process filings, and Huddle will not be available for discovery from then on.

Monday, January 11, 2027, the PUC will verify the data migration and PUC Staff access to the new system. On Tuesday, January 12, 2027, the new Valence Docketing and Discovery system will Go Live at 9:00 a.m. for external users to request and verify access.

To allow time for the Filing Center to process filings that may have been sent to the Filing Center during the downtime and to process log in requests from external users, the Filing Center will not be accepting filings until Wednesday, January 13, 2027, at 8:00 a.m. Similarly, the Discovery Process will need to halt until January 13, 2027, at 8:00 a.m. to allow the Utility Support Power Users to set up access to discovery dockets.

When considering and setting docket schedules, do not set due dates between January 8 at 3:00 p.m. and January 13 at 8:00 a.m. to facilitate the transition to the new Valence system. Also please review your existing procedural schedules and revise as necessary to accommodate these dates.

Filing Center and Huddle Discovery Closed	January 7, 2027 at 5:00 p.m.
Data Migration from old systems to Valence	January 8, 2027-January 10, 2027
PUC verifies data and PUC Staff Access	January 11, 2027 at 8:00 a.m.
Valence Filing Center and Discovery open only for access requests from users	January 12, 2027 at 8:00 a.m.
Valence Filing Center and Discovery Portal open for all business	January 13, 2027 at 8:00 a.m.

. **PLEASE TAKE NOTE:** Existing links to documents in eDockets will not work once we switch to the new system. For example, if in a past public meeting staff report, staff linked to orders or other documents in eDockets, the links in those historical documents will not work.
