

Waste Tire Storage Site Permit Application

Financial Assurance (Security)
 Authority: [Oregon Revised Statutes 459.720](#)

Waste tire storage site applicants are required by law to have financial assurance and to file it with the Oregon Department of Environmental Quality as part of their permit application. After a waste tire storage site closure has been approved in writing by DEQ, any financial assurance not needed for the closure or other purposes under Oregon Administrative Rules [340-096-0220](#) will be released to the permittee.

DEQ will accept the following types of financial assurance or other forms meeting the required level of security:

- Surety bond in favor of the State of Oregon (must be on attached form, completed by your bonding agent)
- Insured savings account or negotiable securities irrevocably assigned to DEQ
- Trust fund
- Irrevocable letter of credit
- Insurance policy
- Corporate guarantee (if corporation meets a financial test).

If your business name, entity or ownership changes, you must provide DEQ with a rider to your valid bond on file with us, a new surety bond or a new form of approved equivalent security in the required amount.

Amount of financial assurance. Waste tire storage site permittees must have financial assurance “in such amounts as determined by DEQ to be reasonably necessary for waste tire removal processing, fire suppression or other measures to protect the environment and the health, safety and welfare of the people of this state.” [Oregon Revised Statutes 459.720\(1\)](#)

The amount of financial assurance required will be based on the estimated cost of cleanup for the maximum number of waste tires and tire product allowed by the permit to be stored at the site. You can submit written cost estimates or bids or DEQ will use the following cleanup cost assumptions:

\$3.80 per passenger tire equivalent

1 truck tire = 5 passenger tires equivalent

IMPORTANT: You should contact DEQ at least **a month before** your application is due to determine the amount of financial assurance needed and the type of financial assurance for which you can qualify if you are planning to use a form other than a surety bond. Contact DEQ for copies of administrative rules regarding waste tire management or obtain them at [Oregon Administrative Rules 340-096-0210 - 0290](#).

Form Submittal:

Security must be filed with the appropriate DEQ regional office in which your site is located.
