Surf. Fm: Quaternary
Shows: Gas @ 1200 & 1615-1725, unverified. Oil in mud according to E. Ray.
Devel/Hist: Promoted by John Ewell in stock selling deal. Abandoned due to lack of funds.
Structure: None visible at the surf. Well located by magnetometer work of J.O. Bryant.
Summary: 9-2-53 - small amt. of gas still leaking @ casing head. Gas analysis of John Ewell shows 91% methane, 8% ethane, 1% CO_2. Promotional well--not properly financed or operated.

Rig: Rotary.
