**Please answer all questions. An incomplete application will not be processed.**

If the information requested is not applicable, please indicate as such.

### **A. Operator Information**

1. Enter the legal name of the operator. The permit will be issued to this entity. This is the person, owner, business, public organization, or other entity that has operational control over the decision to perform a pesticide application or has the day-to-day operational control of activities that are necessary to ensure compliance with the permit. This must be the **legal** Oregon name (e.g., Acme Products, Inc.) or the legal representative of the company if it operates under an assumed business name (e.g., John Smith, dba Acme Products, Inc.). The name must be a legal active name registered with the Oregon Department of Commerce, Corporation Division (503-378-4752), unless otherwise exempted by their regulations.
2. Indicate if the operator is the owner of the facility.
3. Provide the legal status of the operator. Indicate "public" for a facility solely owned by local government.
4. Enter the legal name of the owner, if different from the legal name of the operator.
5. Enter the North American Industry Classification system (NAICS) for the facility. These codes are used to describe the primary activity at the facility and may be found on fire marshal reports, insurance papers, or tax forms. NAICS information is also available from the U.S. Census Bureau at 1-888-756-2427 or at <https://www.naics.com/search/>.
6. Indicate if operator was previously registered under the 2300A permit. If yes, enter the file number.

### **B. Contact Information**

1. Enter the name, email address, telephone number, and mailing address of the Responsible Official. The Responsible Official is the person that receives official correspondence from DEQ, such as renewal notices or notices of noncompliance, and may be contacted if there are questions about this application.
2. Enter the name, email address, telephone, and mailing address of the Facility Contact *if different from the Responsible Official*. The Facility Contact is the person located at the facility that has specific knowledge of the facility or operation under permit (e.g., project manager), and may be contacted if there are specific questions about this application.
3. Enter invoicing information for billing purposes *if different from the Responsible Official* (e.g., "Invoice to: Business Office - Accounts Payable").

### **C. Type of Pest Control**

1. Mosquito and other flying insect pest control for the protection of public health and prevention of nuisance. Coverage extends to mosquitoes and black flies or other flying pests that develop or are present during a portion of their life cycle in or above standing or flowing water.
2. Weed and algae control for invasive or other nuisance weeds, algae and pathogens such as fungi and bacteria in water and at the water's edge. The term "in water" includes, but is not limited to applications made to creeks, rivers, lakes, riparian areas, wetlands, and other seasonally wet areas when water is present. The term "water's edge" means within 3 feet of waters of the state and conveyances with a hydrologic surface connection to waters of the state at the time of pesticide application. The three-foot distance is measured horizontally landward from the ordinary high water line of the

waterbody. (Note: Pesticide applications for weed and algae control approved and regulated under the 2000J irrigation district general permit are not included in this category.)

3. Nuisance Animal Control for invasive or other nuisance animals and pathogens in water and at the water's edge. Coverage extends, but is not limited to fish, mollusks, fungi and bacteria. The term "in water" includes, but is not limited to applications made to creeks, rivers, lakes, riparian areas, wetlands, and other seasonally wet areas when water is present. The term "water's edge" means within 3 feet of waters of the state and conveyances with a hydrologic surface connection to waters of the state at the time of pesticide application. The three-foot distance is measured horizontally landward from the ordinary high water line of the waterbody.
4. Forest Canopy Pest Control for the control of pest species, including but not limited to an insect or pathogen, by using aerial application of a pesticide over a forest environment or from the ground when, in order to target pests effectively, a portion of the pesticide unavoidably will be applied over and deposited in water.
5. Area-Wide Pest Control for the control of pest species by using aerial pesticide application to cover a large area to avoid substantial and widespread economic and social impact, when in order to target pests effectively, a portion of the pesticide unavoidably will be applied over and deposited in water. The pest control under this category is not included in the above categories.

#### **D. Location Information**

1. Provide a description of the pest management area, such as, boundaries for the jurisdiction or area of responsibility (e.g., counties). The pest management area is the area, including any water, for which the operator has the responsibility, control or jurisdiction for conducting pest management activities covered by this permit. Or provide physical address of the property where the pest control will be conducted, if applicable.
2. Attach a map of the pest management area that shows stream, lakes and waterways
3. Attach a vicinity map with the pest management area as an inset.
4. Identify the receiving water by selecting appropriate box. (Note: This general permit does not authorize a discharge in Outstanding Resource Waters of North Fork Smith River, its tributaries and associated wetlands, (OAR 340-041-0305(4)), Waldo Lake (OAR 340-041-0345(7)), and Crater Lake (OAR 340-041-0185(6)).

#### **E. Pesticide Discharge Management Plan**

1. For federal and state agencies, districts identified in Table 1 of the permit and non-emergency situations, the PDMP must be developed by the time the application for registration is submitted to DEQ (See Schedule D1.a)
2. For situations where the operator cannot reasonably predict that the annual pesticide application(s) will exceed the annual threshold in Table 1 of the permit, the PDMP must be developed prior to the pesticide application that will cause the annual threshold to be exceeded (See Schedule D1.b).
3. For a pest emergency, develop the PDMP no later than 90 days after responding to the declared pest emergency (See Schedule D1.c).

Note: An alternative method of pest control or pesticide must be used so that a discharge will not occur to any stream segment listed as water quality limited 303(d) list for that pesticide or its degradates.
