PURPOSE

The purpose of the Multi-Year Training and Exercise Plan (MYTEP) is to document an organization/jurisdiction's overall training and exercise program priorities for a specific multi-year time period. It is considered to be a living document that can be updated and refined annually. These priorities are identified by core capabilities, and are derived from analysis of existing strategic guidance, threat assessments, corrective actions from previous exercises, or other associated factors. Because of the geographical, cultural and industrial diversity in Oregon, there is no one set of standards that work in every community. The priorities are broad enough to allow all jurisdictions to plan activities that align with their individual priorities and requirements as well as with the priorities of the state.

The MYTEP lays out a combination of training and a series of progressive exercises which address maintaining or developing the priorities identified in the Training and Exercise Planning Workshop (TEPW), which was conducted on April 6, 2018. A progressive, multi-year exercise program enables organizations/jurisdictions to participate in a series of increasingly complex exercises, with each successive exercise building upon the previous one until mastery is achieved. Further, by including training requirements in the planning process, organizations can address known shortfalls prior to exercising capabilities.

Included in this MYTEP is a training and exercise schedule, which provides a graphic illustration of the proposed activities, scheduled for **July 1, 2018** through **June 30, 2020.**

METHODOLOGY

The planning process and methodology for the annual development of the TEP is conducted in three phases: Capabilities Assessment, Improvement Planning and conduct of the annual TEPW. A brief explanation of the three phases is provided below.

Capabilities Assessment

The Capabilities Assessment provides a gap analysis, by Core Capability, for each desired outcome and capability target identified in the State of Oregon Threat Hazard Identification and Risk Assessment (THIRA).

The Capabilities Assessment is conducted through a FEMA-defined 1-5 assessment rating for each POETE (Planning, Organization, Exercise, Training, and Exercise) element of each Core Capability; a set of standardized questions to guide the rating process; and a brief statement of gaps that must be filled in order to raise an element to a higher level of capability. Each of the 36 counties, the Urban Area Security Initiative (UASI) region and each state agency involved in State of Oregon emergency preparedness is required to complete an assessment.

The rolled-up and analyzed data from the Capabilities Assessment is then used as one statewide assessment for State of Oregon. This assessment becomes the State of Oregon Stakeholder Preparedness Review.

Improvement Planning

After the Capabilities Assessment is completed, the next node in the Preparedness Cycle is determining the priority capabilities for the State of Oregon for the next two year's planned activities, to be reviewed and validated the following year. Those priorities are based on the Department of Homeland Security 32 Core Capabilities definitions. Core Capabilities are prioritized each year goals are achieved other capabilities need to be addressed; therefore input from state and local stakeholders is used to determine where to prioritize efforts statewide.

The second piece to the prioritization process is to identify why that capability is a priority by identifying the POETE element that best identifies the gap. POETE focuses the prioritization of Core Capabilities by asking "is your priority determination because of a Planning gap, an Organizational gap, an Equipment shortfall, a Training need, or an Exercise validation?"

Training and Exercise Planning

The purpose of the annual State of Oregon Training and Exercise Planning Workshop (TEPW) is to develop a Multi-Year Training and Exercise Plan (MYTEP). The MYTEP identifies an entity's priorities as articulated in its strategy, and identifies the capabilities that are most relevant to achieving those priorities. The MYTEP then outlines a forecast of training and exercises that an entity will undertake to enhance and validate its capabilities.

Prior to the annual TEPW, county, tribal, and state agency representatives are expected to forecast their anticipated trainings and exercises for the next two years.

PROGRAM PRIORITIES

The program priorities were set at the TEPW through a collaboration of effort by state, local, and tribal representatives. Analysis of information derived from the State Strategy, THIRA, Capabilities Assessment, and State Preparedness Report was provided to the attendees. With this information, the attendees combined information from their own jurisdictional After Action Reports and Improvement Plans (AAR/IPs), capability gaps, and preparedness goals to develop a prioritized list of Core Capabilities that need to be either maintained or developed through planning, training, and exercise over the next two years. Though jurisdictions may conduct activities that include Core Capabilities that are not included in the Program Priorities, they are expected to include at least one of the Program Priorities in all of their activities.

Operational Communications

Ensure the capacity for timely communications in support of security, situational awareness and operations by any and all means available, among and between affected communities in the impact area and all response forces.

Operational Coordination

Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of core capabilities.

Public Information and Warning

Deliver coordinated, prompt, reliable, and actionable information to the whole community through the use of clear, consistent, accessible, and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard and, as appropriate, the actions being taken and the assistance being made available.

Community Resilience

Lead the integrated effort to recognize, understand, communicate, plan for, and address risks so that the community can develop a set of actions to accomplish mitigation and improve resilience.

Logistics & Supply Chain Management

Deliver essential commodities, equipment, and services in support of impacted communities and survivors, to include emergency power and fuel support, as well as the coordination of access to community staples. Synchronize logistics capabilities and enable the restoration of impacted supply chains.

Mass Care Services

Provide life-sustaining services to the affected population with a focus on hydration, feeding and sheltering to those who have the most need, as well as support for reunifying families.

Planning

Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or community-based approaches to meet defined objectives.

Situational Assessment

Provide all decision makers with decision-relevant information regarding the nature and extent of the hazard, any cascading effects, and the status of the response.

Critical Transportation

Provide transportation (including infrastructure access and accessible transportation services) for response priority objectives, including the evacuation of people and animals, and the delivery of vital response personnel, equipment, and services into the affected areas.

Public Health, Healthcare, & Emergency Medical Services

Provide lifesaving medical treatment via Emergency Medical Services and related operations and avoid additional disease and injury by providing targeted public health, medical, and behavioral health support, and products to all affected populations.

Supporting Training Courses:

Training and Exercise program management involves a collaborative approach that integrates resources, organizations, and individuals in order to identify and achieve program priorities. Training opportunities conducted within the State of Oregon are open for jurisdictions to attend and are scheduled when they become available. The Oregon Office of Emergency Management (OEM) coordinates training throughout the state in partnership with local, tribal, and state agencies. The current State Training Calendar can be found at:
http://www.oregon.gov/OEM/emresources/Pages/Training.aspx

MULTI-YEAR TRAINING AND EXERCISE SCHEDULES

Training Schedule

The training schedule included in this document is a projection of initial courses and currently scheduled courses by quarter. The training calendar is continuously updated throughout the year as courses get scheduled and are accessible by the link in the "Supporting Training Courses" section above.

Exercise Schedule

The exercise schedule included in this document identifies exercises listed by quarter and specific dates, if known, as well as training that is desired in preparation for the exercise. It also includes any significant, special events such as the U.S. Olympic Track and Field Trials as well as other scheduled, high profile events.

This schedule is also updated as needed throughout the year and reported to the FEMA Region X EMPG Program Manager and Exercise Officer.

Training Schedule

July – September 2018	Date	Host Agency
ICS 300: Intermediate Incident Command System for Expanding Incidents	July 2018	Clackamas County
MGT-347	July 2018	Clackamas County
MGT-312 Senior Officials Workshop	7/30/2018	Marion County
IEMC Course	7/31 – 8/2/2018	Marion County
ICS 300: Intermediate Incident Command System for Expanding Incidents	August 2018	City of Eugene
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	September 2018	Clackamas County
L0426 Building a Roadmap to Resilience Course: A Whole Community Training	9/11-13/2018	OEM & FEMA Region X
G0318 Mitigation Planning for Local Governments	9/18-19/2018	Yamhill County
G0288 Local Volunteer and Donations Management	9/26-27/2018	Yamhill County
G0489 Management of Spontaneous Volunteers in Disasters	9/28/2018	Yamhill County
AWR-232 Mass Fatalities Planning and Response for Rural Communities	7/1-9/30/18	City of Salem
October – December 2018		
G0141 Instructional Presentation and Evaluation Skills	TBD	OEM
G0290 Basic Public Information Officers Course	TBD	Baker County
G0291 Joint Information System/Center Planning for Tribal, State, and Local Public Information Officers	TBD	Baker County
PER 294 Testing the EOP	10/1/2018	Hood River County
ICS 300: Intermediate Incident Command System for Expanding Incidents	October 2018	Lincoln County
MGT-347 ICS Forms Review	October 2018	Lincoln County
CERT Basic Course	October 2018	Benton County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	October 2018	City of Eugene
MGT-405 Mobilizing Faith Based Community Organizations in Preparing for Disasters	10/17/2018	Beaverton
AWR 213 Critical Infrastructure Security/Resilience	10/23/2018	Marion County
MGT 310 Jurisdictional Threat & Hazard ID/Risk Assessment	10/24-25/2018	Marion County
PER 213 Wide Area Search	10/26-27/2018	Marion County
ICS 300: Intermediate Incident Command System for Expanding Incidents	November 2018	Benton County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	November 2018	Benton County
ICS 100, 200, 700, & 800	November 2018	Benton County

ATC-20 Building Safety Evaluation Forms & Placards	11/14/2018	City of Gresham
ATC-20 Building Safety Evaluation Forms & Placards	11/15/2018	City of Gresham
MGT 315 Critical Asset Risk Management	11/14-15/2018	Marion County
MGT 414 Advanced Critical Infrastructure Protection	11/16/2018	Marion County
Basic CERT	11/16-18/2018	Clatsop County
MGT 312 Senior Officials Workshop	11/27/2018	Clatsop County
L0110 Basic Academy Train-the-Trainer	TBD	OEM
G0358 Evacuation and Re-Entry Planning Course	Fall 2018	Wallowa County
January – March 2019		
MGT-906 Incident Command System (ICS) Curricula, Train-the-Trainer (L0449)	2/4-7/2019	OEM & City of Salem
L0101 Foundations of Emergency Management	TBD	OEM
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	January 2019	Lincoln County
ICS 300: Intermediate Incident Command System for Expanding Incidents	January 2019	Lake County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	January 2019	Lake County
RTIPP	January 2019	Baker County
G0291 Joint Information System/Center Planning for Tribal, State, and Local Public Information Officers	March 2019	City of Beaverton
G0191 Emergency Operations Center/Incident Command System Interface	March 2019	Lane County
CERT training	March 2019	Wheeler County
ICS 300: Intermediate Incident Command System for Expanding Incidents	3/15/2019	Clatsop County
ICS 300: Intermediate Incident Command System for Expanding Incidents	March 2019	Benton County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	March 2019	Benton County
April – June 2019		
Oregon Emergency Preparedness Workshop	April 2019	OEM
L0102 Science of Disasters	TBD	OEM
L0103 Planning: Emergency Operations	TBD	OEM
L0963 NIMS ICS AHPS Planning Section Chief TtT	TBD	OEM
MGT 439 Pediatric Disaster Response and Emergency Preparedness	May 22-23, 2019	Douglas County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	May 2019	Marion County
G0108 Community Mass Care and Emergency Assistance	May 2019	City of Beaverton
CERT training	May 2019	Wheeler County
July – September 2019		

ICS 300: Intermediate Incident Command System for Expanding Incidents	August 2019	City of Eugene
AWR 330 Whole Community Planning	August 2019	Marion County
E0949 Communications Unit Leader (COML)	September 2019	City of Beaverton
ICS 300: Intermediate Incident Command System for Expanding Incidents	September 2019	Grand Ronde
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	September 2019	Grand Ronde
ICS 300: Intermediate Incident Command System for Expanding Incidents	September 2019	City of Beaverton
L0146 Homeland Security Exercise and Evaluation Program	TBD	OEM
L0105 Public Information and Warning	TBD	OEM
October – December 2019		
Basic CERT	October 2019	Benton County
CERT training	October 2019	Wheeler County
M480 MAC Group	October 2019	City of Beaverton
G0251 WEM Amateur Radio Resources	October 2019	Baker County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	October 2019	City of Eugene
CERT refresher	October 2019	Wheeler County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	10/15/2019	Clatsop County
L0948 Situational Awareness and Common Operating Picture	November 2019	City of Beaverton
ICS 300: Intermediate Incident Command System for Expanding Incidents	November 2019	Benton County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	November 2019	Benton County
ICS 100, 200, 700, & 800	November 2019	Benton County
January – March 2020		
G0191 Emergency Operations Center/Incident Command System Interface	February 2020	Baker County
G0205 Recovery from Disaster: The Local Government Role	March 2020	City of Beaverton
G0191 Emergency Operations Center/Incident Command System Interface	March 2020	Lane County
CERT refresher	March 2020	Wheeler County
ICS 300: Intermediate Incident Command System for Expanding Incidents	March 2020	Benton County
ICS 400: Advanced Incident Command System for Command and General Staff - Complex Incidents	March 2020	Benton County
April – June 2020		
Basic CERT	May 2020	Benton County
CERT refresher	May 2020	Wheeler County
