

BEFORE THE ENERGY FACILITY SITING COUNCIL OF OREGON

**In the matter of proposed rules implementing
HB 2021 (2021) and updating carbon dioxide
emissions standards.**

Public Comments received as of
June 9, 2022

At its meeting on April 22, 2022, the Council initiated formal proceedings to adopt rules implementing HB 2021 (2021) and updating the carbon dioxide emissions standards in OAR chapter 345, division 024. Staff issued a Notice of Proposed Rulemaking containing the proposed rules under consideration by Council on April 29, 2022.

The Notice of Proposed Rulemaking began a public comment period on the proposed rules. All written comments must be received by 5:00 pm on June 23, 2022, to be considered. An opportunity for oral comments will be provided at a rulemaking hearing scheduled to be held on June 23, 2022, at 5:00 pm. The Council will not consider comments provided after the close of the rulemaking hearing unless the comment period is extended for everyone.

This Document contains all written comments received on this rulemaking as of June 9, 2022. The Document will be updated to include all public comments received before the deadline described above before the Council considers the adoption of permanent rules at its meeting on June 24, 2022.

Comment: The last thing Oregon needs for the health of its residents are fossil fuel facilities that emit whatever & however they want. Which seems to be the case now. I'm advocating for stricter emission standards for these facilities & no new facilities whatsoever.
