FAFSA/ORSAA Completion Rates

June 2021

Combined 2021-22 FAFSA/ORSAA Completion Rates
Oregon Public High Schools: Class of 2021

> **Statewide FAFSA/ORSAA Completion Rate: 46%**
> (as of 6/1/21)

This report contains the combined 2021-22 FAFSA/ORSAA completion rates as of March 1, 2021 for the senior class at most Oregon public high schools. The Higher Education Coordinating Commission (HECC) will release a subsequent report that shows completion rates as of June 1, 2021. The purpose of this report is to inform Oregon public high schools of their completion rates over time, allowing them to track progress and measure success. When students complete the FAFSA or ORSAA, they gain access to critical financial aid, which helps them to achieve their postsecondary goals.

Completion Rate Calculation

The completion rate for each high school is a quotient of the total count of completed FAFSAs and ORSAAs and the number of seniors enrolled at each school. The statewide completion rate is a quotient of the total count of completed FAFSAs and ORSAAs and the number of seniors enrolled, among the Oregon public high schools where sufficient data were available.

The number of seniors by public high school is taken from the Oregon Department of Education (ODE) Fall Membership Report for 2020-21[1]. This report includes the number of seniors enrolled at each school as of the first school day of October 2020.

Completion rates rely on certain assumptions to determine who is a high school senior: applicants no older than 19 as of June 1, 2021, who will have received their high school diploma and who will be considered a college freshmen by the start of the 2021-22 school year[2]. These assumptions are intended to arrive at the most accurate and relevant completion rate.

---

[1] https://www.oregon.gov/ode/reports-and-data/students/Pages/Student-Enrollment-Reports.aspx
[2] Student characteristics as reported by student on the FAFSA or ORSAA.

The completion rates only include FAFSAs and ORSAAs where the student listed Oregon as their state of residence. Completed applications are a subset of all submitted FAFSAs and ORSAAs; applications that were rejected due to missing signature(s) and/or other errors are not included in the calculation of completion rates.

School Information

Completion rates are available only for public schools listed in the 2020-21 ODE Fall Membership Report with seniors enrolled. Private schools and home school students are not included. In some cases where schools have multiple branches, programs, or locations listed, data are combined under one school name.

School names, as entered by the applicant on the FAFSA/ORSAA, were matched to the ODE school list using an automated process. Adjustments were made to account for variations in school names. Completion rates for a school reflect the aggregate number of applications completed across all known variations of the school's name. If a student did not list a high school name on the FAFSA/ORSAA, the HECC attempted to determine their school name based on other internal HECC applications or records for that student. If a student entered a school name on the FAFSA/ORSAA that could not be matched, the student's FAFSA/ORSAA is excluded from completion rates listed by school but included in the state's overall completion rate.

High school–level rates are suppressed for schools with 10 or fewer seniors in their 2020-21 class. Applications from these schools *are* included in the statewide completion rate.

High school–level rates are suppressed for schools with inconclusive results, where the HECC could not match any FAFSAs or ORSAAs based on the high school name. These schools are *not* included in the statewide completion rate.

Exact high school–level completion rates are not displayed for schools with a rate of less than 10%. These schools have a value of "<10%" as a placeholder for the completion rate. Applications from these schools *are* included in the statewide completion rate.

Exact high school–level completion rates are not displayed for schools with a rate of greater than 100%. These schools have a value of ">100%" as a placeholder for the completion rate. Applications from these schools *are* included in the statewide completion rate.

Educational Service Districts

In previous years' reports data from Educational Service Districts (ESDs) were not included in the report or included in the statewide completion rate due to lack of access to their data. This year, we have been able to gain access to data for ESDs and are now including them in the report as well as the statewide completion rate. As such, the statewide completion rate will not be easily compared from previous years.

Completion rates are shown in the following table, pages 3-13.

2021-2022 FAFSA/ORSAA Completion Rate: Class of 2021			School	District
As of 1/1/21	As of 3/1/21	As of 6/1/21
