

## FROM THE PRINCIPAL

Dear Parents and Community Members,

This redesigned annual report card issued by the Oregon Department of Education offers a comprehensive picture of what Anytown Elementary School offers.

In the 2012-2013 school year, Anytown Elementary School received an Overall State Rating of average. That means our students are performing about as well on standards-based tests and graduating in about the same numbers as students at other Oregon elementary schools. When compared to schools with similar student demographics, Anytown Elementary School is above average. That means our students are generally outperforming those at like-schools.

Key academic highlights:

- 89% met/exceeded state standards for reading
- 80% met/exceeded state standards for math

In the same time frame, however, we have seen relatively slow growth in our reading scores among English language learners. We've chosen to address this issue by focusing our resources on implementing the new Common Core State Standards (CCSS), which reinforce literacy across content areas. We promise to deliver the same excellence you have come to expect from us here at Anytown Elementary School.

You can help by monitoring your student's homework, attending parent-teacher conferences, or even volunteering. You can review your student's assignments and grades at any time by visiting [www.anytowngrades.org](http://www.anytowngrades.org).

We look forward to partnering with you over the coming year to make sure all of our students reach their potential!

Thank you,

Principal | John Doe

## FEDERAL TITLE I DESIGNATION

Priority  Focus  Model

**Priority Schools** are high poverty schools that were ranked in the bottom 5% of Title I-A schools in the state based on Oregon's rating formula. These schools generally have overall very low achievement and limited growth over time. Additional supports and interventions to make improvements are needed.

Priority and Focus school designations were based on 2011-12 data. Model school designations were based on 2012-13 data.
