Requirements for Oregon Renewal Registration

> **Oregon is a Performance and Registration Information System Management (PRISM) compliant jurisdiction.**
> **The goal of the program is to reduce the number of commercial motor vehicle crashes, injuries and fatalities.**

CCD will not renew your Oregon registration if:

1. Inactive USDOT number.
2. FEIN/TIN is not updated in FMCSA's system.
3. Federal Out of Service Order – even when vehicles are associated with a motor carrier who is under a Federal Out of Service Order.
4. Carriers' legal structure is not eligible for Oregon registration such as a shipper, broker, Intermodal Equipment Provider, and/or registrant-only.
5. Motor Carriers with apportioned plates must be filed as Interstate with FMCSA.

What additional information is needed to register?

A. If the registrant and Motor Carrier Responsible for Safety (MCRS) are the same:

The carrier is responsible for the following before submitting the renewal application:

- Update USDOT registration information (MCS-150).
- Provide USDOT number and Federal Employer Identification Number (FEIN) for each vehicle.
- Indicate if MCRS of each vehicle will change during the year.

B. If the registrant and MCRS of all or some of the vehicles are different:

Registrant is responsible for the following before submitting the renewal application:

- Provide MCRS USDOT number and FEIN for each vehicle (each vehicle could have a different USDOT and FEIN).
- Indicate if MCRS of each vehicle will change during the year.

If your Oregon renewal registration is denied for the following reasons listed above, you need to complete a **FMCSA Motor Carrier Identification Report (MCS-150)**.

To ensure that 2022 registration renewals are processed without any delay, registrants must have updated USDOT registration information. New applicants and all updates to the MCS-150 should be completed on the [FMCSA Registration website](https://li-public.fmcsa.dot.gov/LIVIEW/PKG_REGISTRATION.prc_option) for immediate processing.

https://li-public.fmcsa.dot.gov/LIVIEW/PKG_REGISTRATION.prc_option

DO NOT SEND YOUR MCS-150 FORM TO ODOT
