

# Geotechnical Hydrology Environmental Science and Engineering Expert Task Group (GHE)

<b>Member Name</b>	<b>Division/Branch</b>	<b>Title</b>
<b>Kira Glover-Cutter</b>	PDAD, Research	Research Coordinator
<b>Susan Ortiz</b>	Engineering and Tech Services, Geo Engineering	Senior Bridge Geotechnical Engineer
<b>Curran Mohny</b>	Engineering and Tech Services, Geo Engineering	Interim State Geotechnical Engineer
<b>Paul Benton</b>	Engineering and Tech Services, Natural Resources	Terrestrial Biology Program Coordinator
<b>Darlene Weaver</b>	Engineering and Tech Services, Env. Policy	Environmental Policy and Program Advisor
<b>Paul Wirfs</b>	Engineering and Tech Services, Hydro Engineering	State Hydraulic Engineer, Unit Manager
<b>Lu Saechao</b>	Engineering and Tech Services, Hydro Engineering	Senior Stormwater Hydraulic Engineer
<b>Geoffrey Stephen Crook</b>	Climate Office	Climate Policy Lead
<b>Cory Engel</b>	Engineering and Tech Services, Hydro Engineering	Water Resource Program Coordinator
<b>Cidney Bowman</b>	Engineering and Tech Services, Natural Resources	Wildlife Passage Program Coordinator
<b>Rhonda Dodge</b>	Engineering and Tech Services, Geometronics	Deputy Chief Surveyor
<b>Ben Leshchinsky</b>	OSU	Associate Professor
<b>Ben Haines (Geo/Hydro)</b>	FHWA	Operations Engineer Region 3
<b>Cindy Callahan (Env)</b>	FHWA	Senior Biologist

## Research Priorities

This ETG reviews any research problem statements related to geo-hydro environmental science and engineering activities statewide.

The following bullet points are areas of potential research this Expert Task Group (ETG) will pursue and examine for funding:

### Geo-Hydro-Environmental Topics

- Geotechnical Engineering,
- Engineering Geology,

- Geology,
- Geomatics,
- Hydraulic Engineering,
- Hydrology,
- Water quality,
- Water Management,
- Air and Noise Quality,
- Environmental Sciences,
- Biological/physical science based sustainability and
- Climate change adaptation and resilience
