

# Oregon Department of **ENERGY**

EO 20-04  
Implementation:  
Energy Code  
Stakeholders

Facilitator: Roger Kainu  
December 14, 2021  
1:30-3:00pm

# Agenda

Topic	Lead	Action	Time
Intro	ODOE staff	Share meeting description	5 min
Home Size Equity Survey	BCD staff	Discuss purpose, results and next steps	15 min
Q/A	All	Question and answer time	5 min
Commercial Reach Code	BCD staff	Discuss timeline, process and any new ideas	15min
Q/A	All	Question and answer time.	5 min
Process Rules	BCD staff	Update on code process changes and upcoming outreach	5 min
Q/A	All	Question and answer time	5 min
Efficiency Standards	ODOE staff	Update on current Efficiency Standards	5 min
Code Training Summary	BCD/ODOE staff	Code training and outreach update	10 min
Wrap-up	ODOE staff	Determine action steps and announce next meeting – March 8, 2022	5 min

# Home Size Equity Survey

---

- Purpose: Address Low & Middle Income (LMI) Single-Family Homes
  - Energy Code Evaluation
  - Cost Considerations
- Brief Draft Summary of Results
- Review Next Steps

# Commercial Reach Code

---

- Estimated Timeline: April 1, 2022
- New Ideas: Request for Proposals for 10% Improvement Above 2021 OEEESC/ASHRAE 90.1-2019
  - Ideas to share today? Vision for format?
- Process: Repeat Residential Reach Code, with Additional Review Period
  - Outreach and consolidation
  - 2<sup>nd</sup> proposal comment period

# Code Adoption Rules

---

- Update on Code Process Changes to BCD OAR's
  - For 2024 code cycles and onward
  - Legislative mandated rules = delays
- Estimated Timeline
  - Legislative mandated rules = delays
- Engagement Process
  - Board presentations

# Efficiency Standards Activity

23 NOV 2021

ODOE Submits Final Rules for Energy Efficiency Standards

The Oregon Department of Energy submitted final rules to the Secretary of State on November 23, 2021 to amend program rules for energy efficiency standards for appliances and other products. The rulemaking process included a public hearing on

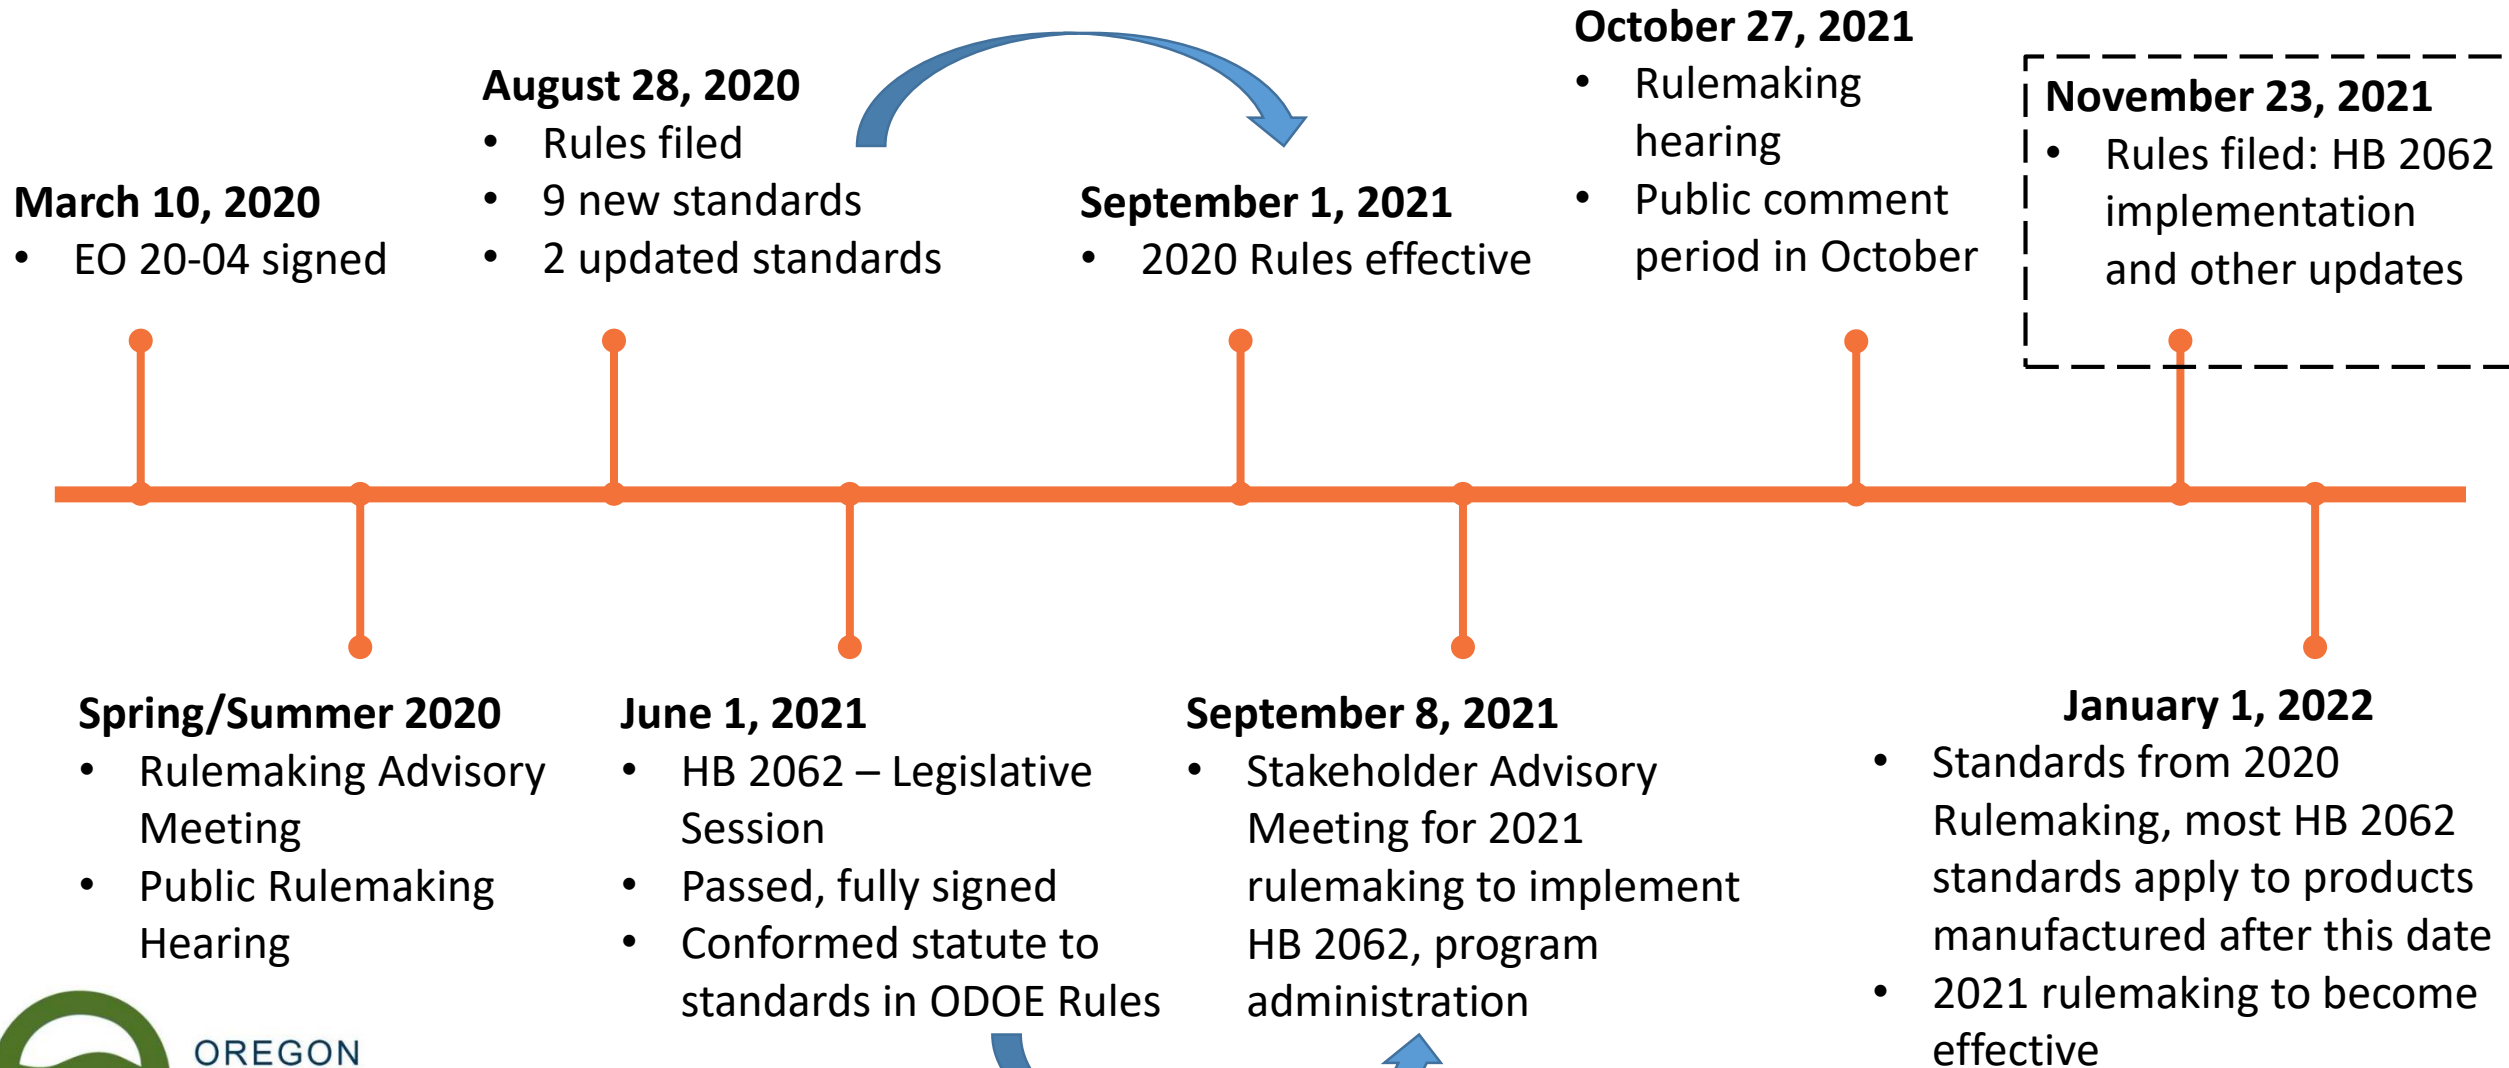

Rule changes will:

- Align rules with House Bill 2062; Make housekeeping changes such as deleting obsolete references and renumbering
- Update Oregon's energy efficiency standard for computers and computer monitors
- Encourage rather than require manufacturers to also make similar requests to other states when they make a request for an alternative standard for electric storage water heaters; and
- Postpone the effective date from January 1, 2022 to July 1, 2022 for the demand response water heater standard in response to comments received during the public process and additional discussions with stakeholders regarding manufacturing delays.
