

HOW TO LOOK UP A RATE

1. When was the project first advertised for bid?

For purposes of compliance with Oregon’s prevailing wage rate laws, the rates in effect at the time the bid specifications are first advertised are those that apply for the duration of the project. (See OAR 839-025-0020(6) for information about projects using a CM/GC.) The applicable rates for purposes of compliance with the federal Davis-Bacon Act could be different than the applicable state prevailing wage rates. The effective federal rates will be those as determined under 29 CFR 1.6. If you are unsure which federal rates apply to the project, you are encouraged to contact either the U.S. Department of Labor or the public agency associated with the project.

2. What type of work is being performed by the employee?

Using the booklet *Definitions of Covered Occupations*, find the definition that most closely matches the actual work being performed by the worker. If you have any questions about work classifications, contact BOLI at the number below.

3. Where is the work being performed – what county?

Find the occupation in the correct county pages associated with the county where the project construction is taking place.

4. Is there a rate listed next to the classification?

If so, use it. The prevailing wage rate is made up of an hourly base rate and an hourly fringe rate; it is the combination of these two amounts that must be paid to the worker.

5. If the book directs you to “See Appendix-DB,” go to the back of the book and use the rate listed in the Davis-Bacon Appendix pages. If the book directs you to “See Appendix-State,” go to the back of the book and use the rate listed in the State Appendix pages. If the book states “SAME”, refer to either the Davis-Bacon Appendix or the State Appendix. The rate may include a group number and/or zone pay. Zone pay is added to the base rate.

Federal Davis-Bacon rates may be amended at any time. It is recommended that users of this publication verify that the applicable federal rates have not been amended before relying on the rates contained in this publication. The applicable Davis-Bacon rates for Oregon are available at:
<http://www.access.gpo.gov/davisbacon/or.html>.

6. In most situations, Apprentices must be paid the full fringe rate in those counties where the state appendix rate does not apply. However, if the book directs you to "See State Appendix," and the worker is registered in a bona fide apprenticeship program, you may contact BOLI at (971) 673-0839 for the applicable hourly fringe rate.

7. If you still don’t know CALL BOLI at (971) 673-0839.

For specific information or questions regarding the prevailing wage law, you may obtain a “Prevailing Wage Rate Laws” handbook by contacting the nearest Oregon Bureau of Labor and Industries office listed below.
