COMMISSIONER**

**DOUG MCKEAN  
Deputy Commissioner**

## **BUREAU OF LABOR AND INDUSTRIES**

January 1, 2008

In January and July of each year, the Bureau of Labor and Industries publishes the prevailing wage rates that are required to be paid to workers on non-residential public works projects in the state of Oregon. Quarterly updates are published in April and October.

Prevailing wage rates are the minimum wages that must be paid to all workers employed in the construction, reconstruction, major renovation or painting of all public works, unless specifically exempted by state law. These rates are determined using data collected from an annual statewide construction industry wage survey of occupations and crafts performing commercial building and heavy and highway construction in 14 geographic regions of the state.

Effective January 1, 2008, the definitions of covered occupations will be published separately. This new publication, "*Definitions of Covered Occupations for Public Works Contracts in Oregon*," will provide a convenient reference guide to be used to classify the duties performed on public works projects.

Another publication, entitled "*PREVAILNG WAGE RATES for Public Works Contract in Oregon subject to BOTH the state PWR and federal Davis-Bacon Act*" provides the applicable rates to be paid to workers on projects subject to **both** the state Prevailing Wage Rate law and federal Davis-Bacon Act.

These publications are available upon request and are also available electronically at [www.oregon.gov/boli](http://www.oregon.gov/boli).

Different wage rates apply to residential projects subject to the PWR law. Contact BOLI for more information.

ORS 279C.830 requires that the applicable wage rates be incorporated into all bid specifications for public works contracts subject to the PWR law. A statement incorporating the applicable prevailing wage rate publication and any amendments thereto or Davis-Bacon wage rate determination into the specifications *by reference* will satisfy these requirements. Such reference must include the title of the applicable wage rates publication or determination and the date of the publication or determination as well as the date of any applicable amendments. A provision that prevailing wage rates must be paid must also appear in the contract. The rates in effect at the time the bid specifications are first advertised are those that apply for the duration of the project, with one exception: If, during the bidding process, the prevailing wage rates change, the public contracting agency has the option of amending the bid specifications to reflect such changes.

If you identify any errors in the rates published, or if you have any questions regarding application of the state PWR law or the applicable rates to be paid on any project, contact the bureau's Prevailing Wage Coordinator in Portland at (971) 673-0839.

Dan Gardner  
Commissioner  
Bureau of Labor and Industries
