Purpose and Scope

.101 The purpose of this policy is to define what is appropriate for agencies to distribute along with payroll checks or direct deposit statements that are distributed to employees. The parameters of this policy take into consideration what is an appropriate part of the payroll business transaction as well as the costs associated with the distribution. This policy is applicable to all agencies that use the Oregon State Payroll Application (OSPA) to process payroll payments.

.102 A payroll payment is a business transaction between an employer and an employee. The delivery of the payroll payment, whether in the form of a paper check or a direct deposit statement, is the finalization of that regular monthly business transaction.

.103 While some agencies may manually deliver paychecks and direct deposit statements within the confines of a single building or office, other agencies incur costs to mail or ship individual or bulk packages of payroll payments across the State to field offices or institutions. Other agencies contract with the Department of Administrative Services (DAS) to insert paychecks or direct deposit statements into envelopes and may have the envelopes sealed and mailed. When an agency is requested to deliver materials “with paychecks”, that request may vary from one agency to another in terms of the process and/or the budgetary impact.

.104 In all cases, electronic distribution of materials and information, when possible, is preferable to the use of paper.
