

**Oregon GIS Program Leaders Meeting
October 11, 2005
Dept. of Environmental Quality (DEQ) Building - Portland**

Present: Grant Robinson, Chad Brady - ODOT, Bob Harmon - OWRD, Paul Staub - DOGAMI, Laer Haider - DHS, Paul Cunningham and Bernard Catalinotto - DES, Malavika Bishop, Arron Heriford - DEQ, Rick Campbell - Census, Randy Dana - DLCD, Diana Walker – ODA, Emmor Nile – ODF, Jesus Mendez – OED, Gail Ewart - GEO
Scribe: Grant

Handouts: DES company info.

Agenda Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
September Minutes	Malavika Bishop from DEQ noted one change. Her agency is beginning the migration from ArcView 3.x to ArcMap 9.x now.	Approved		
November Meeting location and subject	Human Services will host at 500 Summer Street, Salem. Room HSB-252	DHS volunteered	Yes	DHS
GPL Chair	No nominations were received for the position of GPL Chair	Paul Staub – Geology agreed to chair GPL	Yes	Paul
Presentation by Data Enhancement Services, LLC	Bernard Catalinotto described his company's data conflation services. They have an automated system that reduces labor costs. DES offered a no-fee pilot project to demonstrate their services (<1500 features). More info at http://www.gisdes.com/	The GEO office, ODF, and OWRD expressed interest	Yes	GEO?
GEO Report: Gail Ewart	Gail is the FIT Chair and described recent initiatives: -14 themes now, GEO maintaining status matrix -some dormant themes need chair/workgroup -implementation plans are drafted -Active themes include: Admin Boundaries, Transportation, Ortho-imagery, Geoscience -Standards Forum last June -Cadastral Standard was a challenge with version 1.1 adopted by OGIC -Data sharing agreement: boilerplate agreement drafted, several counties have signed, searchable database or website planned -Map modernization for FEMA: DLCD recruiting for Map Modernization Coordinator -GEO coordination activity: Fire Marshall's Office, OHCS, Census / 2010 Redistricting			
AGENCY REPORTS				
DEQ - Malavika	Currently doing technical support.			
Geology – Paul	New management emphasis on GIS; two new ISS3 technicians hired; adding some ESRI seats while keeping MapInfo; Senate Bill 2 mandate to assess critical facility response to major earthquake event, seeking facility data; FIT Geoscience theme work continues.			

DHS - Laer	OGIC representative has quit, looking for replacement. Medicare inventory project now migrating from GeoMedia.			
Forestry – Emmor	Mapping fish presence in streams. Internal GIS survey completed: interest in on-site training and data standards.			
ODOT – Chad	TransGIS is now on the web. FIT theme work continues, BLM doing Klamath and Coos Counties and a U. of O student doing Grant County.			
OWRD – Bob	No report.			
Census – Rick	7.6 meter accuracy evaluation going on. LUCA (local update of census addresses) beginning now. Statistical Areas Program scheduled for fiscal 2007.			
Employment – Jesus	Some earthquake impact on employment planning.			
DLCD – Randy	DLCD Goal 18 sites along coast need aerial photos from January 1977. Will work with ODOG Geometronics on this.
