

**Oregon GIS Program Leaders Meeting
July 15, 2002
Oregon Water Resources Department – Salem**

Present: Gillien Duvall, DAS; Randy Dana, DLCD; Emmor Nile, ODF; Cy Smith, DAS; Joe Bernert, OED; Bob Harmon, OWRD; Doug Terra, OWEB; Anna Cox, DHS; Paul Staub, DOGAMI; Scott Jackson, ORD

Scribe: Lynda Raybould, DAS

Handouts: Agenda, Minutes 6/11/02, OR GIS Standards Development Process

Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
Introductions	Self introductions		No	
Minutes 6/11/02	Accepted as amended	Amended minutes to be posted to web	Yes	Gillien Duvall
DAS/OGIC update	<p>Cy presented that the OGIC meeting included a presentation of four subjects:</p> <ul style="list-style-type: none"> Professional Certification Transportation Pilot Projects Map & Data Disclaimers ORMAP Demonstration <p>OGIC decided they wanted more information regarding certification so they requested that a group be formed to gather more information and report back to their next meeting.</p>	Cy will form a group, led by Dean Anderson, to analyze certification issues and report back to OGIC.	Yes	Cy
	<p>Cy attended the Spatial Data Infrastructure Workshop in Denver. The meeting/workshop was co sponsored by Canada and gave a good international view of NSDI development. Cy also attended an evening discussion group on Standardization of Transportation Data Frameworks. There is a National effort to develop or define framework standardization. FGDC is putting more effort and resources into development of ANSI- and ISO-compliant standards. There was further general discussion surrounding the concepts and effects of these standards when developed throughout the United States and globally.</p>			

Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
Geodata Content Standards Development	Cy presented a Flow chart that was developed to clarify the process used for development and approval of standards.	Some questions arose around the flow and there was a request to change some of the graphics	Yes	Cy
Framework Implementation Team Reports				
Orthoimagery	Forestry districts that have dollars are putting out a RFP for color mapping. A status map of quads ordered thru the master contract is posted at the OGDC homepage.	Those districts will not be participating in the DOQ master contract.	No	
Transportation	Moving forward with inter-agency agreements for the four pilot projects.	Finalize pilot project inter-agency agreements.	Yes	Ed Arabas
Cultural	Requested a name change to better reflect the actual content of this framework. They are close to finalizing the pilot scope and are working with Oregon Institute of Technology in Klamath Falls – mapping address points, building footprints, critical facilities and cemeteries.	Name changed to Cultural and Demographics. Finalize pilot project inter-agency agreement.	Yes	Joe Bernert and Cy Smith
Administrative Boundaries	Waiting on signatures after meeting again with the committee to finalize a methodology for identifying an Administrative Boundary Framework.	Finalize pilot project inter-agency agreement.	Yes	Joe Bernert and Cy Smith
Hydrography	No Information to Report		No	
Elevation	Meeting in October to come up with standards to talk about in Dec. Looking at a project that provides an automated elevation and watershed format	Standard to be developed for Dec. Standards Forum.	Yes	Elevation Framework Committee
Geoscience	Met the first time end of June. There was good representation from BLM and Fed. FS, Counties were also represented 16 pp in all attended. Geoscience elements were discussed and prioritized. The first 3 are Geomorphology, Geology and Soils. They also discussed and created a subgroup of hazard themes. Their next	Meeting notes will be sent by Paul to committee for review, then to Gillien for posting to web.	Yes	Paul Staub

Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
	meeting will cover the status of the top three themes. Next meeting will be August 7, 2002			
Bioscience	No group has formed yet. They need to get commitment to participate – currently have 3 people	Need more candidate names	Yes	Cy
Cadastral	Advisory meeting is this Thursday – July 18 they will be discussing the ORMAPP website and the need for quarterly upgrades. The funding cycle is changing. And it was reported there have been 20 regional proposals for discretionary money to fund projects that include purchase of hardware and software.		No	
Ownership	ODF hired a grad student who will be available for two years for project work		No	
Land Cover/Use	No Information to Report		No	
Utilities	No Information to Report		No	
Climate	Several people from the University of Oregon Climate Center are interested in participation		No	
Next Meeting		September 10, 2002 at Oregon Department of Forestry – 2600 State Street - Salem	No	
Department Reports				
DLCD Randy Dana	Dept. is reviewing coastal zone boundaries; there is a need to produce new maps and they hope to use a summer intern to complete		No	
OGDC Gillien Duvall	ORMAPP – hoping for Goal 1 quarterly updates. A small contract with Revenue is now in process to calculate exact Goal 1 web stats - it is estimated there have been 75K downloads from the site so far.		No	
DHS Anna Cox	They are beginning to organize and have set standards for software. There is some interest in the GIS group with a brief survey		No	

Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
	<p>going out. They are involved in a lot of demographic analysis and have had Legislative requests for a shared information system. They have a divided presence with CSI – Continuing Systems Improvement involved in research and development, which is dept wide, and OIS, which includes computer techs, concentrating on hardware/software infrastructure.</p>			
<p>DOR Scott Jackson</p>	<p>Reviewing and Maintaining the ORMAP site with regards to property tax data. The unit is currently fully staffed. They are working on a small pilot project at Harbor Beach and another at Hood River will complete by year-end. Other projects are: Jackson County – Assessors Office Tillamook County – complete 2004 Union County – complete 2003 Malheur County – complete 2004.</p>		No	
<p>OWEB Doug Terra</p>	<p>Currently meeting with Oregon Plan agencies for salmon and watershed. Internally supporting data and graphics development for an annual report. Currently maintaining two stand alone Access data bases trying to resolve integration problems in order to put information on web for better access and reports.</p>		No	
<p>OWRD Bob Harmon</p>	<p>Working on a flood frequency analysis project; should have an interim product in two weeks.</p>		No	
<p>OED Joe Bernert</p>	<p>Experiencing major problems with concerns surrounding Confidentiality and methods to determine when data input could be in violation of State Statute. Recommendations for solutions are being solicited from DCBS, DHD, OED and possibly Revenue.</p>	<p>Confidentiality issues should be brought to PAC by Gary Gipson</p>	Yes	Joe Bernert
<p>DOGAMI Paul Staub</p>	<p>Announced that Mined Land Reclamation group has requested detailed data maps down to 2</p>		No	

Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
	meter DEMS. They are still processing scans of all geology maps in an effort to get more back into print and provide an archive.			
ODF Emmor Nile	Forestry is experiencing an early severe fire season, Douglas County currently fighting 93 fires. GIS support teams are being provided for mapping services to firefighting teams throughout state.		No
