

Oregon GIS Program Leaders Meeting
June 8, 2004
General Services Bldg – Salem; Remote - Portland

Present: Becci Anderson, OWEB; Ed Arabas, DAS/GEO; Steve Barnett, DAS/GEO; Gillien Duvall, DAS/GEO; Laer Haider, DHS; Bob Harmon, OWRD; Brett Juul, DOR; Emmor Nile, ODF; Mike Schufft, ODF; Joe Bernert, Employment; Dennis Scofield, ODOT; Paul Staub, DOGAMI; Doug Terra, OWEB; Chad Brady, ODOT; Rod Therriault, DOR; Darlene Gowen, ODOT.

Remote: Randy Dana, DLCD

Scribe: Lynda Raybould, DAS/IRMD

Handouts: Instructions to load OGDC's ARCIMS site

Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
Introductions		Self introductions	No	
Minutes May 2004	Correction – meeting place was in Corvallis	Meeting notes approved with corrections	Yes	Gillien
Schedule next meeting	July 13, 2004 at ODOT – Salem Aug – no meeting Sept 14, 2004 DLCD – Portland	Confirmed	Yes	Bob
FIT, OGIC, & DAS reports	<p><u>FIT</u>: worked through process of reducing framework budget amounts in order to accommodate the financing of a 500k assessment piece as Phase 1 of the OGIC required business case. All small accounts are gone, contingency fund is fully committed.....</p> <p>GIS Forum is June 23 in Bend, Workshops in morn. Include: Cadastral Data Model; Orthoimagery Strategy; and Geodetic Control Standards. Afternoon Standards Presentations include: Addressing, Transportation, Cadastral, and Climate.</p> <p><u>OGIC</u>: meeting next Wednesday – Ed Arabas shared the powerpoint show that Cy Smith will be presenting in support of the Framework budget reductions and recommendation to proceed with Phase I of the Business Case.</p> <p><u>DAS</u>: Steve Barnett presented a handout that included information on how to load data from the OGDC's ArcIMS site. Some discussion followed on feature streaming and the speed at which downloads can occur.</p>	Steve is available to help and answer questions.	No	
Naming Convention Standard	Ed Arabas presented a draft of corrected information and some format changes that had been previously emailed to membership. Discussion followed.	Group consensus was that this document is not a standard but rather a guideline on a method of standard practice. It is to be posted in that light with the clearinghouse making it clear that they may need to make changes to filenames if the guideline is not followed by data submitters.	Yes	DAS/ GEO
Department Reports				

Topic	Discussion Summary	Result	Action Req'd Yes/No	Resp. Party
DLCD Randy Dana	Tasked with moving forward on an IRM plan in an effort to justify a GIS position. Thanked ODOT/Dennis for their help by way of a copy of their plan.			
Employment Joe Bernert	Not a lot of GIS activity – working on a data base problem – asks for help from anyone who can answer “Python” questions.			
ODOT Dennis Scofield Chad Brady Darlene Gowen	Working on the Salmon project – region 4 is finished; region 5 should finish by this fall, and region 3 (SW Coast) will finish next Spring. Geo One Stop Transportation Pilot is still alive. New project started with cooperation of college students inventorying all culverts on State Highways. And working with OBDP to align GIS websites. Governor’s project to identify shovel ready industrial sites will be mapped and show endangered species, leaking tank, wetlands etc. Short version presentation by next week to governor’s office. All roads project has loaded database with 5 counties’ worth of data. Data will show all public access roads.			
DHS Laer Haider	Agency looking for support for hiring a GIS expert.			
DOGAMI Paul Staub	The Northeast Oregon pilot project is complete; it compiled information from 85 maps. Details of data model can be seen at Geoscience website. Beginning year 2 SE Oregon with BLM offer to scan and assist in data conversion. NE data set in testing mode.			
OWEB Doug Terra Becci Anderson	Mapping features of interest – update with Becci for Portal prototype of N Coast. Addressing the Coho issues. June 30 meeting being held to educate more groups to the Portal. Concept design sub meeting with users in Tillamook. Watershed Council maps are being redone.			
Revenue Brett Juul	ESRI Server is set up. Remapping of Curry, Union and Malheur counties is continuing. ORMAP cleanup is ready.			
Forestry Emmor Nile	Ready to fill ISS 5 State Forestry GIS & Inventory position. Public Ownership layer edits are in the works. Announced that Mike DeLaune is retiring and requested ideas be submitted to honor his contributions to GIS.	Anyone with suggestions should contact Emmor.		
Water Resource Bob Harmon	Starting rotation of data entry staff training for water right mapping. Each group of 2-3 will rotate every 2-3
