"Issued by" will display opportunities by the organization issuing the opportunity. "Issued for" will display opportunities for the organization requesting the product/service.' There is a search bar with the label 'Organization:' and two radio buttons: 'Issued by' (which is selected) and 'Issued for'. A 'Search' button is located to the right of the search bar. Below the search bar is a table with two columns: 'Issued by Organization' and '# of Open Opportunities'. The table lists eight organizations and their corresponding number of open opportunities.

### Business Oregon Launches New Web Site

Business Oregon was recently restructured to better serve both the business and infrastructure needs across the state. Business Oregon works to create, retain, expand and attract businesses that provide sustainable, living-wage jobs for Oregonians. The new Business Oregon Web site has been changed to reflect this reorganization.

Visit the Business Oregon site at [www.oregon4biz.com](http://www.oregon4biz.com)

### Infrastructure Finance Authority

As part of the agency restructure, the community development activities are now administered separately by a newly formed Infrastructure Finance Authority (IFA). The IFA was created to ensure that the state's infrastructure needs, namely those around safe drinking water and wastewater systems, are better identified and prioritized in order to ensure the best use of the state's limited resources. The authority is overseen by members of an independent board appointed by the Governor.

Visit the IFA site at [www.orinfrastructure.org](http://www.orinfrastructure.org)

### Arts & Culture

Business Oregon houses the Oregon Arts Commission and the Oregon Cultural Trust in recognition of the expanding role the arts play in the broader social, economic and educational arenas of Oregon communities. The Oregon Arts Commission and the Oregon Cultural Trust administer both federal and state investments in arts and culture.
