DAS Price Cap for Audio applies through FY'10 for subscriber accounts where fiscally beneficial to the subscriber.

Example:
 32-Port Subscriber @ \$28/Port
 DAS Price Cap = \$896/Mo Unlimited Usage

If the **2010 DAS Subscriber Usage Analysis** indicates that DAS subscriber rate is more beneficial than MCS cost for same usage, then the remaining months on a DAS subscriber account will be honored through the end of FY'10. Otherwise the **DAS Price Cap for Audio** will be honored on a month by month basis with adjustments posted to the subscriber's account.

PURPOSE
 OSU MCS is committed to helping agencies in this transition by providing an opportunity for savings for some and cost control for others.

Prices are Per Conference Regardless of Duration
 With a Maximum Duration of 24 Hours
