

## ERRATA SHEET

### 2007 Benchmark Highlights Report

1. Homelessness (Benchmark #56)

Although pages 2 and 12 correctly report the rates of homelessness in Oregon, they erroneously state the reported *number* of homeless Oregonians on any given night. The actual reported numbers are 7,394 (not 21,000) in 2002 and 11,509 (not 31,000) in 2006.
