NOTES * Columns:

(1) Number of total incidents is the sum of vehicle accidents plus police citations. Vehicle accidents consist of those that occurred in state vehicles plus the private vehicle accidents that resulted in workers' compensation injuries.

(2) Rate of Incidents per 12,000 miles is the agency's number of Total Incidents divided by the agency's Total State Miles, and then multiplied by 12,000.

(3) Accident Cost per 12,000 miles is the agency's Property, Liability, and WC cost (from vehicle accidents) divided by the agency's Total State Miles, and then multiplied by 12,000.

* "High Mileage" agencies are those with at least 50,000 in total miles, state plus private. (Private miles are not shown.) If a "High Mileage" agency falls below 50,000 two years in a row, it goes on the "Low Mileage" list.

* Data sources are: RiskFolio, SAIF, State Motor Pool.
