

# 2008 LINUS Enhancements

## System Migration

- Migrated entire system to a new, more robust environment

## Searches

- Last Action Date has From and To capability
- Search Now button was added to top of Search screen
- Save Search was moved further away from the Search Now (users were accidentally pressing it when they wanted the Search Now)
- Position field (Neutral, Support, Oppose, Pending, or Not Required) was added
- Bills Assigned to Committee field has ability for multiple committee search
- Four "Live Bill" options developed and added to search screen under Bill Location

## "Sort by" Options

- Default for Sort by was change from Bill Manager to Bill Number

## Reports

- The Label field was added above the Relating To clause in the Bill Summary Detailed Report
- Customized reports (located on Search Results) can be created
- Customized reports can be saved (saves the report column selected not the search results)
- The option to display the Effective Date has been added to the Customized reports screen
- E-mail Report button was added to the top of each report
- Third Reading report – a check box was added to choose "filter by search results". When unchecked the report will display all third readings for the agency's tracked bills.
- Third Reading report sort order was modified to match the Legislative Third Reading Calendar

## Information Screens

- Vote information was added to Action History
- Added on Fiscal Impact screen a link to Staff measure summary, fiscal impact and revenue impact

## Emails- New Bill Note is added

- All persons who are listed to Receive email updates for a bill and have "New Bill Note is added" checked will receive notice when a bill note is added regardless of their division/office.

## Administration

- On the Save Search List screen the field "Search Fields" was added. This lists the fields and values that were selected for the saved search.
- A Save Reports List screen has been added. This screen lists each report that has been saved and the report columns that were selected for the saved report.
