

Taxonomy Code Crosswalk

The following table lists suggested taxonomy codes for providers to register with their NPI. DHS needs the taxonomy code(s) associated with your NPI in order to appropriately process electronic claims for payment.

Starting May 23, 2007, DHS will require your NPI and taxonomy code(s) on all electronic claims for payment. If you bill on paper, taxonomy codes are optional. The taxonomy code(s) you select with your NPI should be submitted to OMAP on the DHS [NPI Registration Form](#) by January 15, 2007.

Instructions

Find your Providing Service Type, then the DHS division you typically bill or are enrolled with. Select the taxonomy or specialty that best represents your service as listed for the division you are enrolled with.

If no taxonomy is listed for your service type or specialty, DHS cannot recommend a taxonomy at this time. This list does not include SPD codes or service types. DHS will continue to add taxonomy codes to this list as the DHS claims payment process is further defined.

The codes listed are suggestions only. DHS will attempt to crosswalk all taxonomy codes reported.
