

## TEAM LEADER DESCRIPTION

One AmeriCorps HOPE Member will serve as statewide team leader and will play an important role in developing the team and its esprit de corps. The team leader is placed in the central office with program staff and will serve as liaison between Members and program staff. The team leader will keep the Members connected, assist with the development and facilitation of team trainings and events, provide regular contact with the Members via phone, email, and site visits, create a social network page and an electronic quarterly newsletter, assist with Member recognition and service reflection, and connect Members to resources as needed. The team leader will also have a direct service component in the community, dependent on their interests and the time they have available that is not dedicated to the needs of the team.
