

Important Information

Health care coverage expanded for some pregnant clients

Pilot for CAWEM prenatal benefits begins April 1, 2008

A 15-month pilot program will begin on April 1, 2008. The pilot program gives prenatal care to pregnant women who live in Multnomah or Deschutes counties and who are currently only eligible for CAWEM Emergency Medical benefit package coverage. This coverage will help ensure that the newborn is as healthy as possible.

While they are pregnant, they are eligible for all services covered by the OHP Plus benefit package, except:

- Sterilizations
- Therapeutic abortions
- Hospice care services
- Death with dignity services

After the pregnancy ends, DMAP will only pay for the following services:

- Hospital services for childbirth up until the client is discharged
- Post-partum services only if provided through a bundled rate
- Emergency services

Although these women must live in one of the two pilot counties, they may receive services anywhere in the state.

How are these clients identified?

Clients who are eligible for the pilot program will be identified on their DMAP Medical Care ID. The Medical Care ID will show “AE” in field 9b.

9a Benefit Package						
A – OHP Plus	D – OHP with limited drug					
B – OHP Standard	E – CAWEM Emergency Medical					
C – QMB						
All non-emergency care must be approved by applicable Managed Care/TPR shown in field 8a. See DMAP General Rules OAR 410-120-1210 for specific benefit package limitations. All DMAP administrative rules can be found on the DMAP Web site at: www.oregon.gov/DHS/healthplan/
