

OMAP's Plan Drug List on Epocrates Preferred Drug Information at the Point of Care

OMAP's Plan Drug List (PDL) is now available on Epocrates in two convenient ways.

What is Epocrates?

Epocrates is a drug reference database that lets you instantly compare drug costs and interactions. For free, you can:

- ✓ Download Epocrates Rx to any handheld personal digital assistant (PDA), compatible with the Palm or Pocket PC operating systems.
- ✓ Access Epocrates Online, the Web-based version of the database.

Why use Epocrates?

Using Epocrates helps take the guesswork out of determining which drugs are covered.

- ✓ You can refer to Epocrates for the medications that OHP covers, and alternatives for ones not covered.
- ✓ You can access all Medicare Part D formularies through Epocrates Rx or Epocrates Online.
- ✓ You can tell patients how much the prescription will cost them before they get to the pharmacy.
