New December 2009–July 2010 NIATx Accelerating Reform Initiative - An invitation to forward-thinking leaders in behavioral health care. Request for Proposal deadline: November 24, 2009.
NIATx seeks applications for the Accelerating Reform Initiative from progressive organizations that have started transformational efforts to prepare for the sweeping changes that parity, health care reform, and decreased grant funding may bring. Up to 12 organizations will work together

to accelerate their reform efforts, sharing creative thinking on how to thrive in a dramatically different funding environment. For more information on the initiative visit the [NIATx website](#) or [download a pdf version of the announcement](#).

WEBINAR DETAILS: This program is designed for healthcare and mental health professionals who are involved in the direct care of patients seeking help for opiate dependence. Conducted by experts in insurance, law, policy, and daily clinical practices, the training will provide the framework for applying best practices and developing comprehensive risk management strategies that improve patient safety and enable OTPs and methadone maintenance programs to eliminate, transfer, reduce, and manage the risks associated medication-assisted treatment for opioid dependence.

TOPICS

- Trends of cases filed in court
- Areas of documented legal action
- Role of the law, science, logic, and experience in developing risk management strategies
- Clinical issues and standards of individualized care

LEARNING OBJECTIVES

- Heightened awareness of the need for increased vigilance
- Improved ability to identify and assess risks
- In-depth understanding of the clinical issues of induction and dosing, impairment, and cardiac factors
- Expanded knowledge of current trends and strategies
