State of Oregon Department of Human Services (DHS) Oregon MMIS Replacement Project - Overview

Oregon MMIS Project Schedule

Task 8 Provider Implementation Support

Support the implementation of HIPAA National Provider Identifier (NPI) rule and the provider implementation activities necessary to successfully implement the new MMIS.

DHS responsibilities

1. **Provide access to the current Medicaid providers and provide access to provider data that is stored within the current MMIS**
2. **Assist in the identification of current Medicaid providers and the licensing boards information to complete the provider certification process**
3. **Assist in the identification and commitment of DHS staff to be included in the Provider Re-enrollment process as defined in the Provider Re-enrollment Strategy**
4. **Provide EDS with DHS' strategy to meet the federal HIPAA NPI rule**
5. **Respond to EDS questions regarding policy, procedures, the provide enrollment process, and credential verification process**
6. **Provide staff to participate in the development of provider enrollment forms, communication materials, and communication approaches with the provider community**
7. **Supply statewide Provider training facilities, excluding facilities for providers in the Salem region**
8. **Participate in Provider training sessions as the Medicaid Program authority**
9. **Participate in various meetings with the provider community**

EDS responsibilities

1. Complete the Provider Implement Support deliverables defined
2. Complete the Provider Re-enrollment activities defined
3. Complete the Provider Training activities defined and conduct Provider training
4. Complete the MMIS Login Administration activities; ensure DHS security standards are adhered to
5. Complete the Provider Communications activities defined

Task 8 Provider Implementation Support (deliverables)

Deliverable 8.1 Provider Implementation Support Strategy – Accepted

Describes the general approach that will be used to complete the provider implementation support task. Addresses compliance with the requirements of HIPAA National Provider Identifier (NPI).

Deliverable 8.2 Provider Implementation Support Plan – In process

Describes EDS' approach to ensure that DHS specified Medicaid providers are re-enrolled and that the requirements outlined in the HIPAA National Provider Identifier (NPI) rule are met.

Deliverable 8.3 Provider Implementation Support Materials

Describes the materials (for example, training materials) EDS and DHS will utilize in support of the provider community.

Deliverable 8.4 Provider Implementation Support Communications

Describes EDS' and DHS' planned communication approach, schedule, communication events and materials to be used to ensure that the provider community is kept informed and to ensure provider participation in the new MMIS implementation activities.

Deliverable 8.5 Provider Implementation Support Report

Final report reflecting the work that has been accomplished related to the provider implementation support activity.
