

Data Use and Network Content (DUNC) Meeting

July 25, 2007

Participants: Gregg Lande, Mike Emerson, Marina Counter, Nita Heimann, Mandy Green, Jeff Lang, Mary Scott, Karen Worden

The DUNC team finished the database inventory, ranking and providing commentary to the 79 databases/systems currently in the inventory. EPHT will now proceed to update information and schedule metadata creation on those receiving ranks of "1." EPHT will also investigate those databases/systems that did not have enough information so that they can be ranked at a latter date.

DUNC canceled the planned August 29 DUNC meeting due to the upcoming Public Health Information Network (PHIN) meeting in Atlanta, Georgia. The next meeting is on September 26, 2007 at 3 – 4 pm in room 827A. This is the large conference room in building 827 across from the main PSOB building. The September 26 meeting will be an update meeting on new developments coming out of the EPHT national program.
